Criminals in Novel Commencement

BOSTON, July 28.—Convicted criminals, some of whom are destined to spend the rest of their lives behind prison walls, formed the graduating class at novel commencement exercises when 109 members of the Americanization class graduated at the state prison here. Half a dozen murderers were among those who recited original poems, contributed readings, or played in the prison orchestra.

To Move From Faneuil Hall Market

BOSTON, July 28.—The city's historic fruit and vegetable market district in the vicinity of Faneuil Hall, will be moved to a new market terminal at South Boston, if plans announced today materialize. Thirty-two wholesalers have filed applications for a charter for the Boston Market Terminal Co. Under the plan the state would build a large plant near the Fish Pier which would be leased to the market men. Congestion in the old district is said to cause delay in moving and consequent spoiling of great quantity of perishable fruits and vegetables each year.

Public Service Board

Continued

The board also informed the mayor that early in July he had publicly approved of the contract form on which the present board is now seeking bids.

Temporary Men Hired

A further communication from the mayor conveyed the charge that too many new men are being hired by the board, in consequence of which the street department pay-roll for the present week is one of the biggest in years. The board directed City Engineer Kearney to notify the mayor

that not one new permanent hand been added to the pay-roll of the street department since the board assumed office last January, and that only four new temporary men had secured work since the compilation of the pay-roll of the previous week up to and including the time the present week's roll was brought to the attention of the mayor. During the past three weeks, but 17 men were placed in positions, while during the 10 day regime of the temporary board appointed by the mayor, 27 men were put to work.

The Mayor's Letter

The letter of the mayor regarding

the employment of contract labor, and read at the meeting last night by Chairman Denis J. Murphy, is as follows:

Lowell, Mass., July 27, 1922.
Board of Public Service, Lowell, Mass. Gentlemen:—Under date of July 24th a requisition signed by Denis J. Murphy, Fred O. Leary, Stephen Kearney and J. P. Doherty was filed with the purchasing agent and had been submitted to me. This requisition is a call for bids of furnishing, applied on the streets, approximately 1000 tons of asphalt as per specifications.

If I figure this correctly it would mean about 8000 yards. Regardless of the amount, this requisition clearly signifies to me your intention to employ contract labor on the streets of Lowell.

This can never be done as long as I am mayor. I believe Lowell labor must be for Lowell citizens as far as is reasonably possible and I oppose all contract labor on our streets, on the ground that experience has shown it is not economy. It deprived Lowell men of labor and consequent wages and much of the contract work done in Lowell in the past has been open to grave suspicion.

I deem it my duty to inform your board that I shall exert every bit of my influence to prevent you or any other department from bringing in contract labor to do the work of the city of Lowell.

Respectfully yours,
GEORGE H. BROWN,
Mayor of Lowell.

The reading of the letter concluded. Mr. Kearney was designated by the chairman to procure the records of the July 7 meeting of the mayor's temporary board. Mr. Murphy then read an extract from the board's meeting on that day, dealing with the presence of Chester Williams, treasurer of the Framingham Construction Co., and the mutual agreement that the latter submit a contract for asphalt at a given price per ton laid. Mr. Kearney was then asked by the chairman what work men of the street department would do under the contract mentioned in the present board's call for bids. The city engineer replied that men of this department would do all the excavating work with the exception of rakers, tampers and rollers, who would be employed by the contractor.

Not Contract Labor

It was decided by vote to place the

mayor's letter on file and to properly notify him that the requisition he has in his office and which he has refused to approve, is according to requisitions he made himself early in July. It was also voted that the mayor be informed that 90 per cent. of this work will be done by city employees and that expert services will be required for the remaining 10 per cent. The board accepted the recommendation of the mayor that as much city labor be employed as possible.

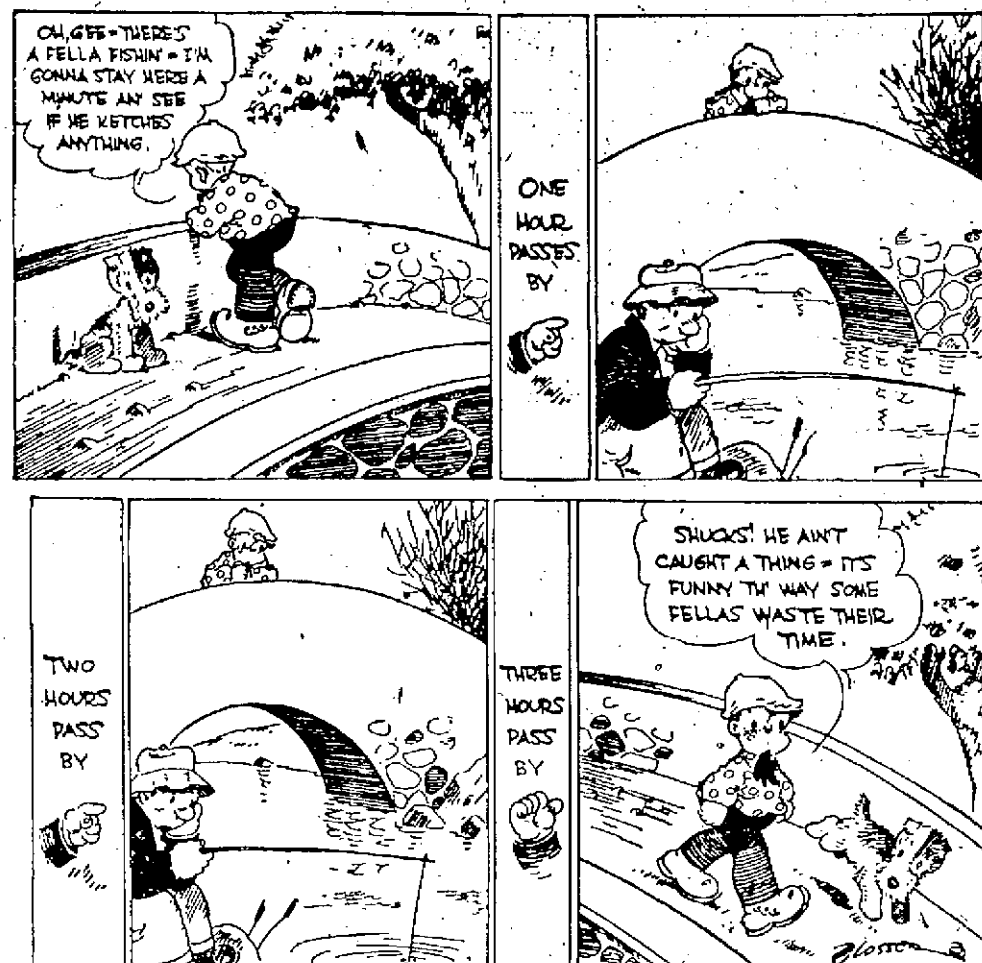

The concluding sentence of the vote of the board says: "We shall endeavor with Your Honor's approval, to lay asphalt, if any is to be laid in Lowell, according to your suggestions made in the early part of July."

It was further voted to inform the mayor that the June 24 payroll for the street department was \$5870.25. For July 1 it was \$6342.55; for July 3, \$5231.33; for July 15, \$6043.97, and for July 22, \$5195.51.

Appropriations Discussed
A letter from the budget and auditing commission, calling the board's attention to the fact that the ash collection department was running in excess of its appropriation by \$520 monthly, and that the street maintenance appropriation had been exceeded by \$57,075 was received.

The employment of Sutton Wilson by the mayor, was given as the reason by the chairman that the ash department appropriation had been exceeded. Mr. Wilson has collected about \$1200 from the appropriation since the beginning of the year. As to street maintenance, the matter of that appropriation had been discussed several

FRECKLES AND HIS FRIENDS

times previously with the city engineer, who informed the board that there will be an average monthly transfer of \$10,000 for loans to the maintenance fund until early in September. At that time, explained Mr. Murphy, it will be imperative to disburse with a number of men now employed. Only temporary civil service men will be allowed to work and these only for a period of six months.

It was unanimously voted to authorize the city engineer to prepare specifications for repair work on the surface of Central bridge and to call for bids in the near future.

New Loop Tracks Approved

The petition of the Eastern Massachusetts Street Railway company for an extension of its tracks through Brookings and French streets in preparation for the new loop through bridge, French and Brookings streets, was approved and an order to that effect will be introduced in the city council.

Petitions Granted

By vote of the board, the petitions of the following were approved: Arthur M. Kane, Charles T. Kilpa-

trick, Wilfred Larson, E. M. Kittredge, Edmond Demers, Arthur E. McLaughlin, Martin J. Roddy, Napoleon Stead, Mrs. Chilton, James J. Norton, J. J. Gardner, George McKee, Thomas E. Hennessy, Frank J. Healy, Frank C. Gilbert and Robert Mole. The petition of Abel R. Campbell for a street light was approved, but his former petition was referred to another hearing when estimates will be furnished. The same happened to the petitions of John Sullivan, Andrew F. Rule and Mary Smith. Leave to withdraw was granted the petition of Philip McLaughlin and the Lowell Electric company for a pole on Myrtle street.

That the street car tracks on the Allen street bridge be removed, on the petition of Timothy O'Neill et al, was referred to the city engineer.

For the installation of seven electric lights, at the pumping station in West Sixth street, the low bidder was Fred Carragher, whose bid was \$257. Other bids were as follows: Ernest W. Hood, \$119; Hartley and Kelleher, \$320 and C. H. May, \$362.

A letter from Thomas Lees of the Eastern Massachusetts Street Railway company relative to the covering of

the company's tracks on First street with macadam by the street department, was also referred to the city engineer, who was instructed to have the situation remedied as soon as possible.

White Way in Dutton Street
A petition from the Lowell K. of C. by John E. Hart, grand knight, for the creation or extension of the white way system through Dutton street, was referred to the city council.

A letter was received from City Clerk Stephen Flynn, notifying the members of the board to appear at the next meeting of the city council with information concerning the recent purchase of Packard trucks. The board voted to do as requested.

Garrett Royal and Patrick J. Brown were elected permanent members in the street department, having been duly certified by the civil service commission. This commission informed the board that 18 men were illegally employed in various city departments and requested that definite action be taken on the matter. Action will be taken at the next meeting of the board which will be held Thursday, August 3, at 7:30 p. m.

The Very Latest Store News

CASTLES OF SAND

Wonderful ones with trimmings of pebbles and shells—one can make them so much better if one wears a bathing suit such as I saw in the Little Grey Shops at \$2.98.

MOTHER, MAY I GO OUT TO SWIM?

"Yes, My Darling Daughter!" "Then I shall wear my Jersey suit for I'm going in the water." If you are one of the girls who walk along the beach and take a sun bath or if you prefer to swim a little and take a real sea bath, we have just the bathing suit you want. Suits of all descriptions, second floor.

ORANGE BLOSSOM TIME

Soon the Brides of September and October will smile at us—that happy smile that only a Bride can give. Brides mean showers, and showers mean gifts. Our Gift Shop on the second floor is a delightful spot. It is an individual shop where we have gathered merchandise of the unusual and distinctive sort such as one seeks for gifts.

DREAMS COME TRUE.

Every bride's fondest dream is a little home of her own. Make her dream come true by buying your furniture from the Atherton Furniture Company associated with Chalifoux's—fourth floor. Terms to suit your convenience.

NEXT DOOR NEIGHBOR.

To the Gift Shop that we spoke of a short while ago is the Children's Hair Cutting Shop on the second floor where mothers may have their children's hair cut in a shop of most modern and sanitary equipment by a barber who is an acknowledged expert in the difficult art of children's hair cutting.

THE QUEEN OF SHEBA

Had she known of their sheeny splendor and gorgeous coloring, would have coveted for her collection some of the marvelous silks that women today enthuse over, covet and possess. Our silk shop on the street floor has a complete line of the season's most wanted materials including crepe knit, crepe de chine, Skipper's satin, Pussy Willow taffeta and satin.

BOY OF MINE

How is it you wear your trousers out so quickly? Next time I'm going to buy you one of those two-piece suits that Chalifoux's Boys Store advertises. And by the way, if you are a real good boy, I'll buy you a Baseball suit—pants, shirt, belt and cap complete—But remember what I said about being good!

LIKE THE FIRST SPRING FLOWER

Peeping from the dull earth are the gay colored kerchiefs that milady tucks noticeably in her sports sweater. Of linen, in blue, rose, tan, orchid, etc.—and they are so reasonable—50c for three.

"LISTENING IN"

Supposing someone invited you to come over and listen in their radio set and all the messages were transmitted in code. That wouldn't be half as interesting as listening in and hearing music, songs, and lectures by the human voice. Now if you do your own sewing why select a pattern that relies on dots and dashes for instructions. Why not select a pattern that is printed in plain English and so thoroughly understandable that a child can understand it.

SAVE YOUR PENNIES

By shopping on The Thoroughfare on the second floor. Talk about bargains! My goodness, there are all sorts of bargains to be found on this busy floor every day of the week. One day it's blouses, the next day undergarments, then corsets and then millinery. Better form the habit of shopping "On the Thoroughfare." You'll find it means money saved.

I ALMOST FORGOT

To tell you about our Curtain Shop. It is really the most complete and best equipped shop of its kind in the city. We actually manufacture our own curtains and sell them direct from factory to you, saving you the manufacturers' and jobbers' profits and expenses. I just wish I could tell you all the people who have ordered us to make their slip covers to put over their furniture during the vacation period. And we make overdraperies, couch covers, bed sets, table runners, and portieres. The sales staff includes professional decorators, any of whom will gladly give you any advice you want.

IN CLOSING

I would like to tell you about something I discovered in the Basement this morning. You know our Housewares Department is in the basement now—moved from the fifth floor. This morning I was down looking for "something new." I saw some dandy shower aprons. One can attach them to the bath tub faucet; they have a long rubber tube, and the spray is really very fine. And just think, they cost but 40c.

STATE POLITICS
AND CANDIDATES

Col. Gaston Declares Against
Towner-Sterling Bill in
Campaign Speech

Characterizing the Towner-Sterling bill as a huge and unnecessary financial burden on the nation, Col. William A. Gaston, candidate for the United States senatorship on the democratic ticket, in addressing a large gathering at the headquarters of the Jeffersonian club campaign committee in the Mason building, Boston, yesterday, said he had been asked to state his views in reference to this measure. He said, in part:

"I am opposed to the Towner-Sterling bill and, if elected, will vote against it because I am convinced that if enacted, it will put on the nation a huge and unnecessary financial burden, and its principal result will be to directly increase the power of the

Tuberculosis can best be fought by feeding the tissues and enriching your blood that your body may be stronger than the germs. Take

BOVININE
The Food Tonic
Of All Druggists

170

governmental representatives of education. The bill admits the failure of states and localities to cope with their educational problems, and puts the burden of the cost of reform on the communities which are already educating their own children. I believe this is a wrong principle. The objection can be stated moderately that the authors of this measure have obviously fallen into the belief, born to a large extent in all of us by the war, that it will be possible at one stroke, disregarding expense and taxes, to remedy all the outstanding defects in our national educational system.

"In my own sincere opinion the creation of this proposed new educational bureau would do inestimable harm to education and kill all incentive for state work, so that in the end our last state could be worse than our first. It implies that the state or the nation has rights in the child prior to the parent. In the words of a group of national organizations opposing this measure, it will give a political administration the opportunity of creating an educational autocracy which really endangers the liberty of thought and information, which is the basic right of the people.

"I do not assert or believe that the reasons actuating the minds of the proponents of this measure were not based on justifiable complaints against the neglect of certain sections to provide the educational basis necessary for the United States to accomplish its full moral and political stature. The proposed bill admits the failure of states and localities to cope with their own educational authority, but it takes away from these same states the proper incentive to remedy their own defects.

"It is wrong in principle, it would be destructive in its financial cost, and the creation of a new and unlimited autocratic power over the coming generation would be abhorrent to the ideals of a self-respecting people.

"For those reasons I am opposed to the passage of the Towner-Sterling bill."

Another Cambridge candidate has tossed his hat into the political arena as a candidate for the office of district attorney. Attorney James P. Brennan yesterday announced his candidacy. In his announcement he makes the following statement:

"The importance of the office of district attorney has been forcibly brought to the minds of the people during the past year and it has been

shown that the security of the people depends on the honest administration of the office."

Mr. Brennan, who is one of the younger trial attorneys of the county, was formerly associated with Warren, Garfield, Whiteside & Lanson of Boston.

PAPERS FOR O'LEARY

BOSTON, July 28.—Women of the democratic state committee yesterday afternoon took out nomination papers for Lieutenant governor for Michael J. O'Leary of 1651 Beacon street, Brookline. Mr. O'Leary is a past chairman of the democratic state committee, which office he held for seven years, and at present is interested in the moving picture business.

Gives Blood in Attempt to Save Admiral

MANILA, P. I., July 28.—(By the Associated Press)—Sergeant Andrew H. Penlang of Corpus Christi, Tex., stationed with the medical detachment here, gave more than 10 ounces of blood in a transfusion operation in an attempt to save the life of Admiral John S. Dumaresq of the British navy, it was announced at army headquarters here today. Penlang was thanked by British Consul General Harrington.

Doctor Killed in 300 Foot Fall From Cliff

GLACIER PARK, Mont., July 28.—Hours of persistent work last night in the fastness of Mount Siyeh in Glacier National Park, resulted in the recovery of the body of Dr. Frank B. Wynn of Indianapolis, killed yesterday in a 300 foot fall from a cliff near the mountain's summit. The ledge upon which the body lodged was almost inaccessible, necessitating slow work. Dr. Wynn was president of the American Alpine club, and one of America's foremost mountain climbers.

BIG AMERICAN DEMAND
FOR BRITISH COAL

LONDON, July 28.—(By the Associated Press)—The persistent American demand accompanied by increased prices and freight rates continues to be the feature of the British coal industry.

The biggest American order yesterday at Newcastle was for 65,000 tons, made by an American railroad company, but it is believed all available supplies for August already have been taken and that immediate delivery is impossible.

Canada also is seeking supplies while the European demand is continuing unabated. German state railroads have placed a contract for 100,000 tons in northern fields for shipment in September, October and November.

Ship owners are harvesting big freight rates, which in some cases have reached 16 shillings per ton. It was stated in British shipping circles today that there are plenty of jobs ships in British, Scandinavian and Spanish ports which will be able in a short time to easily beat any American tonnage that may be sent across. The demand for Welsh coal is increasing daily, and prices are quickly reacting accordingly. Best Admiralty coal which was 25 shillings per ton last week, is now quoted at 35, while freight rates have gone up from seven shillings, six pence to 15 shillings per ton. With the exception of one Welsh district the miners are nowhere reported to be disinclined to continue working to fill the American demand or disposed to take any action in the interests of the American strikers.

FISH AND GAME
MEN PLAN OUTING

A meeting of the executive committee of the Lowell Fish and Game association will be held next Tuesday evening in the office of the president, Dr. C. B. Livingston, for the purpose of completing arrangements for the annual outing of the association, which will be held at Willow Dale on Thursday afternoon, Sept. 21.

At a recent meeting of the organization it was voted to give the executive board full charge of the event and everything possible is being done to make this year's event the best in the history of the association. The program as usual will consist of an

\$100,000 TO BOOST
NEW HAMPSHIRE

PORTSMOUTH, N. H., July 28.—The expenditure of a \$100,000 fund to advertise the state of New Hampshire was voted at yesterday's convention of the chamber of commerce and boards of trade of New Hampshire here. State taxation, publicity and the New England railroad consolidation question were discussed by a number of speakers.

automobile parade through the principal streets of the city at noon, sports and other amusements which will include trap shooting on the grounds and dinner followed by addresses by prominent speakers. Congressman John Jacob Rogers has signified his intention of attending the outing and it is also expected that Hon. John S. Burnham, an honorary member of the association and president of the American Game Protective association, will be in attendance. It will pay you to get The Sun classified adv. habit.

Allen Claims to End Rheumatism

ALLENHUI relieves at once. One
bottle—a full pint—will show you the
way to complete recovery or your
druggist will gladly return your money.

Immediately after you start to take
it the good work begins. It searches
out the uric acid deposits, dissolves
the secretions and drives rheumatic
poison out of the body through the
kidneys and bowels.

It's marvelous how quickly it acts.
Pleasant relief often comes in two
days, and even in cases where the suf-
fering is most painful all traces dis-
appear in a week.

Mr. James H. Allen, of Congress ave-
nue, Rochester, N. Y., the discoverer of
ALLENHUI, who for many years suf-
fered the torments of acute rheuma-
tism, desires all sufferers to know
that he does not want a cent for any-
one's money unless ALLENHUI shows
immediate results, and he has instructed
druggists to guarantee one full
pint bottle in every instance. Dows
Druggist, and Fred Howard can sup-
ply you.—Adv.

Seniority of Men Discussed Continued

tion to deprive men of seniority rights,
because of suspension of work, is ut-
terly indefensible if the facts are un-
derstood. Seniority rights involve,
principally, the right of the senior em-
ployee to be the last laid off, and pre-
ference in selection for vacancies in
preferable jobs.

"The first right is of great impor-
tance and has a large community value.
It results in encouraging permanent
employment, the building of homes and
the making of useful citizens." The
railway employees, as a group, are
steady workers. They will average be-

tween 10 and 25 years in continuous
service. Having increasing certainty
of permanent employment, the longer
they remain in service, they are en-
couraged to buy homes and to estab-
lish themselves in community activities
with assurance of continuous livelihood.
To deprive hundreds of thousands of
men of these rights and of their as-
sured positions would be a sweeping
injustice, unparalleled in modern in-
dustry. It would operate so that in the
event of reducing forces the railroads
would be permitted to discharge the
senior and most competent employees
and to retain men engaged for only a
short time in transportation service.

"In fact, the railroads would for-
feit their own good retain the senior and
more efficient employees, except that
with seniority rights destroyed, their
positions would be insecure and the
roads would be able to weed out those
workers most active in the protection
of rights of their fellow employees.
That is the sole purpose of the rail-
road's insistence on the destruction of
seniority rights. They would be able
then to punish the more dependent,

ANNUAL JULY TAILORING SALE

NOW GOING ON

The big event you have waited for. A reduction of prices that brings high class tailoring within the reach of all. No excuse now for not being dressed to perfection. No excuse for wearing off-the-pile clothes, adulterated fabrics and war relic models. This sale brings to you the very latest and up-to-date fabrics where just enough material remains for a suit.

There's a Reason:

forceful workers and to intimidate
their fellow workers, breaking down
the spirit of free labor, one of the most
valuable qualities of Americanism.

"The purpose of destroying seniority
rights is a vicious attack on the right
of men to refuse to work under non-
acceptable conditions. Abraham Lin-
coln, as president of the United States,
declared: 'I am glad that a system of

labor prevails, under which laborers
can strike when they want to.' The
strike is the last resort of any in-
dustrial man, depending upon his labor
for the support of himself and his de-
pendents. There has not been a strike
upon the American railways of the
proportion of the present one in a
generation. Yet the railway workers
for 20 years prior to the war suffered

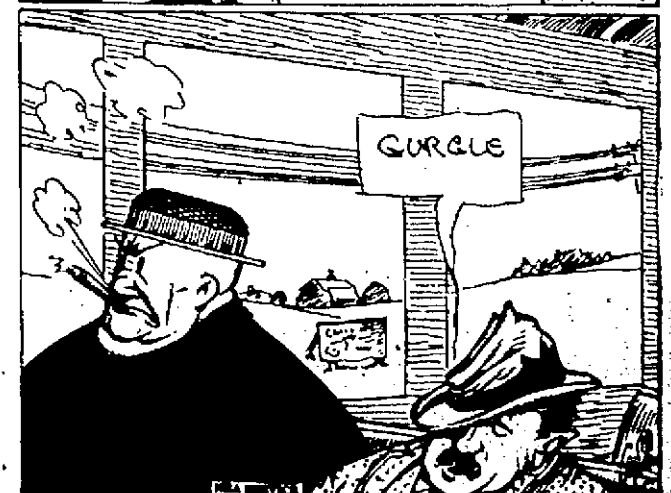

increasing hardships from low wages
and rising costs of living. Recently
they have been compelled in great
numbers to suspend work to prevent
the imposition of inadequate wages
and unfair working conditions and to
stop the aggressions of organized
money in its drive to degrade the
workers' standard of living, and to
destroy his organizations of self-
protection. If the railway executives

insist upon using this suspension of
work, which they forced upon the em-
ployees, as an excuse for depriving
them of the fruits of life-long con-
tinuous, faithful service, they will
only give further evidence of the ab-
solute necessity for the organized em-
ployees to fight to the last ditch the
conspiracy against their fundamental
rights and the general welfare of all
men who live by labor."

Cross Country Tourist Keeps in Touch With Outside World By Radio Set

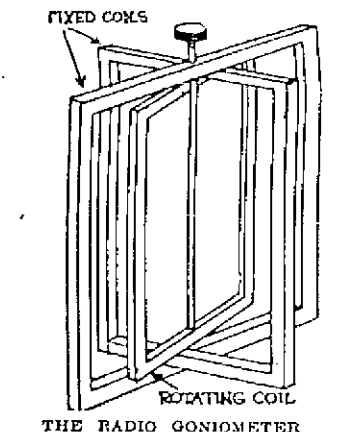

The first cross-country motor trip with a radio receiving set is claimed by C. A. Santmyer of Reading, Pa. Santmyer is a motor and radio fan. So when he got time for a vacation, he decided to combine both his pleasures in one. He equipped his coupe with a radio receiving set and is now on his way to the Pacific coast. No matter where he is he can keep in communication with the outside world. In the picture, Santmyer is shown alongside his radio-equipped motor car.

NEW RADIO DEVICE

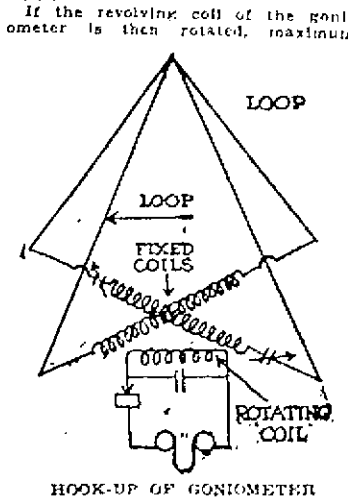

Goniometer Measures Angles and Tells Direction of Sounds.

BY PAUL F. GODLEY
America's Foremost Radio Authority.
Did you ever hear of a "goniometer"?—a device which measures angles?
In radio, it consists of a combination of coils, which when properly connected to a suitable receiving antenna, enables the operator to measure the angle from which the radio signal comes.
It is a direction finder—although the term "goniometer" is applied only to that instrument in the operating room.

which is adjusted in making the determination.
As usually constructed, it consists of two coils of equal dimensions which are so fixed with respect to each other, that their magnetic fields are at right angles. Within these coils revolves a third.

Operation
The two fixed coils are connected respectively to two fixed loop or coil antennae, which are also supported in such way that their magnetic fields are at right angles to each other.
Due to the directive characteristic of the coil antennae, signals which originate at points lying in the plane of one of them will set up signal currents in that one only—and not in the other.

signal will be produced in the receiver connected to it, only when the rotating coil is parallel to that fixed coil carrying the signal.
If the message should originate at a point midway between the planes of the two-coil antennae, equal currents will be generated in both and the fixed coils of the goniometer will carry equal signal currents. Under these circumstances, a maximum signal would be had in the revolving coil of the goniometer when it is in a position midway between the two fixed coils.

Benefits
With this system it is possible to closely approximate the direction of any transmitting station.
Since the coil antennae are fixed, this arrangement can conveniently

cover a much larger area than it would if the loop were rotated.
The rotating loop, however, will give good results in the determination of direction when properly installed and calibrated.

Radio Broadcasts

Below is given today's radio broadcast programs for the following stations: Station WGI, Medford Hillsides; WAAJ, Boston; WBZ, Springfield, Mass.; WGY, Schenectady; WJZ, Newark; KDKA, Pittsburgh, and KYW Chicago.

STATION WGI, MEDFORD HILLSIDES
3.30 p. m.—Music and talks as announced by radio.
7.30 p. m.—Baseball scores and late news.

7.45 p. m.—Boston police reports.
8 p. m.—"The New Mode in Hair-dressing."
8 p. m.—"Vaccination," by Henry D. Nunn.
8.25 p. m.—Song recital by James C. Bell, tenor, accompanied by Mrs. James C. Bell.

8.45 p. m.—Dan Sullivan's society orchestra. Dan Sullivan, Jr., pianist and director; Francis Sullivan, banjo; Job Woodworth, banjo; Laurie Helling, saxophone and violin; Jack Field, saxophone; Capt. Pomeroy, trumpet; and Dick Johnson, drums. Miss Katherine H. Sullivan, soprano soloist, accompanied by Dan Sullivan.
Time—Daylight saving.

STATION WAAJ, BOSTON
9.40 p. m.—Musical program by Miss Marion Mulhall, lyric soprano, and Miss Margaret McGonigal, pianist. Popular selections by Miss Helen Deasy.
Time—Daylight saving.

STATION WBZ, SPRINGFIELD
7.30 p. m.—Baseball scores and a story for the children.
7.45 p. m.—Fashion talk by Miss Marion Taylor; "Color Schemes for a Country Cottage," by Margaret McElroy; United States Government market and crop reports.

8 p. m.—Baseball scores; readings by Mary J. Lee; vocal selection by Gladys Newton, soprano.
STATION WGY, SCHENECTADY
7 p. m.—Stock and produce market quotations and reports; baseball results and late news bulletin.
7.30 p. m.—Seventeenth chapter of "Alice in Wonderland," by Kolin Hager, reader.

8.40 p. m.—Health talk, "Household Insects and Their Extermination," by Dr. Herman M. Higgs.
8.45 p. m.—Concert program of piano, contralto, baritone and cornet solos.
9.30 p. m.—Midnight concert by Tenebrean orchestra; G. B. Wolf, director and violin; H. Sigal, piano; A. Califano, banjo; F. Morgan, drums; and A. Di Crosta, saxophone.
Time—Daylight saving.

STATION WJZ, NEWARK
4 p. m.—Baseball scores of the American, National and International League teams, musical program.
6 p. m.—Official weather forecast, agricultural reports, shipping news and review of business conditions.
7 p. m.—Stories for children.

7 p. m.—Letter from "Farm and Home," talk on swimming by Ralph Rhinow, swimable suggestions for the "Home Garden" by Harry H. May; milk and ice food address.
8.10 p. m.—Popular band concert.
10.55 p. m.—Arlington time signals.
Time—Daylight saving.

RADIO PRIMER
Battery Capacity—The quantity of electricity which a battery will deliver under given operating conditions, it is expressed in ampere-hours and is dependent, among other things, on the temperature, current delivered, lowest voltage permissible at end of service and nature of the service required.
If you want to buy, sell, rent or exchange anything, try a Sun classified adv.

HUB COLORED VOTERS TURN DEMOCRATS

BOSTON, July 28.—So many Boston colored men, hitherto enrolled as republicans, have flocked with the city election commission the past week the necessary papers changing themselves to the democratic designation, that local politicians were set a-wondering.
Inquiry has disclosed the fact that a recently organized body called the Massachusetts Colored democracy originated the movement at a meeting in Shawmut avenue quarters three weeks ago, and is doing what it can to swing a large portion of Boston's 7000 colored men and women, who are generally of republican affiliation, into the democratic camp.

Pres. Julian D. Rainey, State street lawyer, said the motivating influence lies in republican inaction at Washington on the Dyer Anti-lynching bill, the negligible patronage which the party in power has given the race nationally, and upon the basic fact that "republican leaders have come to expect that the colored people will forever sheepishly vote the republican

ticket because Abraham Lincoln was one of the party's founders."

Mr. Rainey said that, in the six months of his term, Mayor Curley has done more for the colored people than all republican New England has for them in the past six years. The mayor has appointed Joshua Jones, Lucius Hicks and Fred Smith to well-paid posts in the Commercial and Industrial bureau, the law department and assessing department, respectively.

Because of Mr. Curley's proved disposition to give the race a "square deal," in contrast to the less generous treatment by the party in power, Mr. Rainey said, Mr. Curley is now quite popular with the colored people, despite the fact that most of them voted against Mr. Curley in the last mayoralty contest. Thus there is ground for the belief that Mr. Whipple, to whose candidacy Mr. Curley has pledged his support, will get many added votes on this account.

Pres. Rainey said 80 colored republicans have become democrats this week. Many more of the organization's 50 male members are preparing to do so, he said, and Mrs. Taylor, wife of Dr. Walter O. Taylor, is working with a women's committee to get colored women voters to change over. Most of the work is being done in wards 7 and 13.

JIMMY BOY OFF TO BE A SOLDIER

Smiling, rosy-cheeked "Jimmy" Burns will march away to Camp Devens next Monday to take a month's training in the civilian military camp. Ever since "Jimmy" heard of the doings of Lowell boys in the World war he has been anxious to shoulder a gun and show the folks what he could do if called upon to defend his country. When the big war broke out Jimmy wanted to go, too, along with the older boys, but he was many years too young and a big important-looking recruiting sergeant only smiled and told him to run home to his back yard when "Jimmy" asked if he could join the army.

But "Jimmy" has had a desire in his head to shoulder a gun ever since, and now his chance has arrived. Monday he marches off with Lowell's civilian soldiers. About a year ago he decided he wanted to be a printer and applied for a position in The Sun's composing room. Being a bright looking lad, with a ready smile and a reputation as being ambitious, he was given a chance. He is now considered the best printer's devil that ever filled the "hell-box."

Accordingly, when "Jimmy" announced his intention of going into training with the soldiers, his 20 odd

guardians in the composing room wanted to show they were with "Jimmy" all the way. After hours yesterday, John V. Donoghue, foreman of the composing room, called the workers together and in their behalf presented "Jimmy" with a beautiful military leather bag. "Jimmy" stammered out his thanks while the room rocked with three cheers led by Mr. Donoghue. He is a son of Lieut. Joseph Burns of the Palmer street fire station.

\$50,000 FIRE IN PIANO HOUSE

BOSTON, July 28.—Damage estimated at \$50,000 was caused last night by a fire that started in the basement of the three-story brick building, 399 Boylston street, in the uptown district, occupied by Henry F. Miller & Sons Piano company. While the fire itself was confined to the basement, smoke penetrated to the upper floors and heavy damage was done to the pianos in the salesrooms, as well as radio apparatus and phonographs.

A person passing the store noticed smoke coming from the basement and notified fire headquarters. Apparatus was sent to the scene and a bell alarm sounded. Chief John O. Fisher directed the firemen. The fire was a hard one to combat because of its location,

and it was more than an hour before it was completely extinguished. The damage estimate was made by members of the firm on the scene while the fire was in progress.

GOV. COX TO AID IN FUEL CRISIS

BOSTON, July 28.—In reply to a telegram received from Herbert Hoover, secretary of commerce, urging co-operation on the part of Massachusetts with the federal government in its plans for handling the coal situation, Gov. Cox yesterday sent the following: "Massachusetts had a fuel administrator with full wartime powers adequate to handle the situation in Massachusetts. Massachusetts' fuel administrator has available receipts of anthracite and bituminous for whole of New England. I shall be glad to co-operate in every way possible and the public utilities commission of Massachusetts will also render every assistance."

Herman A. MacDonald, the governor's secretary, who sent the telegram upon the governor's direction, said to the state house newspaper men: "Massachusetts undoubtedly is better prepared than any state in the Union to handle the coal situation in the present crisis because of the preparations made by the administration some time ago and because of legislation enacted upon the governor's recommendation."

ENDURANCE TESTS FOR SADDLE HORSES

CHICAGO, July 28.—The matter of endurance of various breeds of saddle horses will be tested at Colorado Springs, Colo., in a 300 mile ride which starts August 1 and ends August 6. Participants of the cow ponies, place their faith in the little horses bred in the shadows of the Rockies as against such aristocratic descendants of eoliphus as the Arab, the thoroughbred of the race course, the "quarter horse" and others. Details of the event have been made public by the Horse Association of America which has its headquarters here.

The horse will have to carry a rider, saddle and other equipment totaling 200 pounds and when the ride is over he will have to come in sound and fresh and prove it by going all gates in good shape the following day. It also will be an endurance test for the rider, deciding whether the devotee of the polo field, the chase or the steer herder has fortified himself with the greatest amount of stamina by his activities.

Harry McNair, of Chicago, one of last year's judges favors a western bred cow pony for the place in the hall of horse fame which will fall to this year's winner. Out of the 40 to 50 horses scheduled to start he expects five or six to finish in good shape.

St. Henry Lenard, an internationally known horseman who is taking great interest in the contest, has written to Wayne Dinsmore, secretary of the Horse Association of America that Edward Fring, a Colorado ranchman has entered two horses: Allen Perkins of the Turkey Creek ranch has put in three, and Dan D. Casement, one of the most famous of the elder Colorado cattlemen has backed his boy, at the Concha Colonel family of "quarter horses" by entering two stables sired by William Irvine.

William Irvine has entered two thoroughbreds and the polo pony is represented by two entries from Lafayette Hughes. A good deal of interest is aroused by the fact that Sherrwood one of the most prominent cow punchers and horse breakers has entered a half-thoroughbred.

Film Producers Strive for Artistic Merit and Select Music and Painting as Theme

RENEE ADORER. SHE HAS FEATURED ROLES IN "MONTE CRISTO," "A SELF-MADE MAN," "HONOR FIRST" AND "WEST CHICAGO." STARS MRS. TOM MOORE, YOU KNOW

IRENE RICH. FEW SCREEN ACTRESSES ACHIEVE THE HUMAN QUALITY IN ACTING THAT SHE DISPLAYED IN "ONE CLEAR CALL" AND "A FOOL THERE WAS"

BY JAMES W. DEAN

NEW YORK, July 27.—Let those who decry the tawdriness of the films, the expounding of "sinuous" themes, halt to consider "The Song of the Lark," a new two-reel drama directed and written by Arthur Maude.

The theme of this picture is based on the motif of Franz Schubert's music and Jules Breton's painting. I have not seen the film, but the fact of its origin points to a striving for artistic merit.

Songs without words, paintings without titles tell complete stories. These stories give wide play to the motion picture author's imagination, for the working in celluloid of idealistic themes.

This is proved in the series of two-reel dramas based on famous paintings in which were included "The Dashing Sultana" and "The Bugger Maid."

The film version of "The Song of the Lark" visualizes a girl whose soul awakes to freedom upon hearing the music of the lark on the wing.

The film of a dog held up the production of a picture several days and cost the producing company several thousand dollars. The dog was Ginger, a cross between a collie and a police dog, appearing in "Broken Chains."

The dog has become something more than an ordinary property in the cinema. He is sometimes used for the only human interest touch some dramas contain. And sometimes for several hundred yards of padding—the latter when a director tries to include a baby, a disappointed mother and a dog, hoping by some chance to give an otherwise worthless film an appealing touch.

That was the manner of introduction to "A Woman of No Importance." That film opens with the fair heroine putting a dog and feeding a babe, neither of which had any place in the story.

The understudy is a rare thing in the movies. Many players have doubled to do dangerous stunts for them, but the understudy occupying a place in the

cast for emergency purposes is something new.

Myrtle Lind and William Haines have been added to the cast of "Passions of the Sea." That film is being made in the South Sea Islands.

Haines and Miss Lind will play the "love-interest" characters in event of any indisposition of accident to Antonio Moreno or Pauline Glavin. It is highly probable they will draw pay and enjoy a pleasant trip without doing one lick of work.

FORD LAUNCHES GLASS MAKING ENTERPRISE

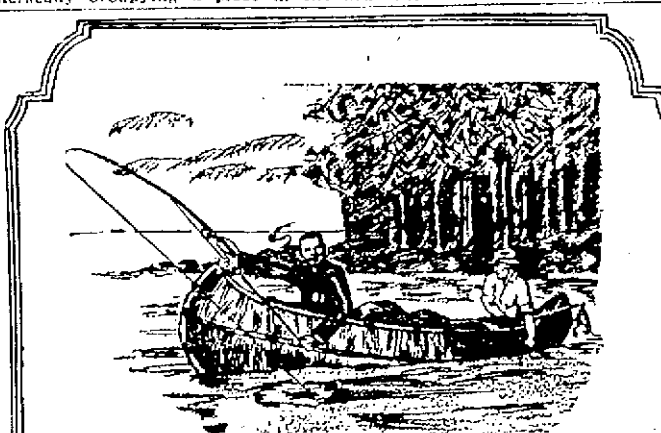

DETROIT, July 23.—Henry Ford has launched upon a new enterprise, that of glass making.

The manufacturer has established here and begun to operate a plant that will produce glass for automobile windshields. It is said to be the first plant in the country designed especially for making of windshields.

The Ford production slogan "Keep this moving" is playing a large part in the new methods introduced by the manufacturer in his latest field of endeavor. A continuous conveyor system makes it possible for the glass to be kept continually moving from the time it leaves the furnace in liquid form until it becomes a polished windshield.

The molten glass is drawn for the furnace and passes under a roller that gives it width and thickness, and then upon a moving conveyor that carries it 164 feet through a gradually cooling furnace. At the end it is cut and placed on another conveyor that carries it through the stages of grinding and polishing, after which it is ready for use.

AMERICAN DONATIONS ONLY HOPE OF ARMENIA

SAMSOUN, Asia Minor, July 28.—American charity is keeping alive the remnants of the dying Armenian nation. When all other countries turned a deaf ear to the privations and horrors of the Armenian population, the American people donated \$50,000,000 and 300,000,000 pounds of foodstuffs and relief supplies. Scattered throughout what was once the Armenian state are today more than 300 Armenian men and women who are working valiantly to save the last vestiges of this oldest of Christian races in this far-off continent.

The Americans are concentrating their attention on the legions of parentless children which make Armenia the largest orphanage center the world has ever known. In Transcaucasia alone are gathered the childhood of 400,000 Armenian refugees who fled before the Turks from Erzerum, Trebizond, Van and Bitlis. America has become the foster parent of these unhappy, shelterless youngsters.

The Americans have organized 35 hospitals, 53 clinics and numberless relief stations through Asia Minor. In a single month they give medical

treatment to more than 100,000 patients. In the Alexandropol orphanage alone there are more than 3000 children suffering from trachoma.

Charles V. Vickers, head of the American near east relief committee, who recently arrived from the United States to supervise the field work of the organization, said recently in an interview:

"We are caring for Armenia's and Greece's great hosts of refugees, orphans and sick in Northern Asia. It is a colossal task, made possible only by the liberality of the American people. But we cannot continue it indefinitely. We must make the people self-supporting. We are trying to place full responsibility for the care of the refugee population upon the governments concerned. The unfortunate fact, however, is that the governments are reluctant to accept the obligation. America's heart is the only one that seems to have been moved by the deplorable plight of these wretched people."

2000 LAWYERS AND JUDGES TO ATTEND

SAN FRANCISCO, July 28. (By the Associated Press.)—Lawyers and judges to the number of more than 2000 are expected to come to San Francisco early in August to attend the 1922 convention of the American Bar association, the national conference of com-

missioners on uniform state laws and the annual meeting of the California State Bar association. The commissioners meet Aug. 2-3, the state body convenes Aug. 7 and the national association Aug. 9-12.

Several noted speakers are to address the organizations, names on the program including William Howard Taft, chief justice of the United States, Vice President Calvin Coolidge, Chief Justice Lucien Shaw of the California supreme court, George W. Wickersham, formerly attorney general; Cordell A. Severance, president of the American Bar association, and Gov. Henry J. Allen of Kansas. It is hoped that Elihu Root, former secretary of state, also will speak.

Addressees are also to be made by two distinguished visitors, the Rt. Hon. Lord Shaw of Dunfermline, representing the bar of Great Britain and M. Henri Aubopin, representing the bar of Paris.

Two committee reports, in which a great deal of interest is being taken, will be presented. One is the report of the committee on promotion of American ideals, which will be presented by Martin J. Wade, of Iowa. The other is the report of the committee on law enforcement, presented by W. R. Swaney of Tennessee.

In the southern part of Arizona the wild rubber plant grows abundantly. The screech owl never migrates.

"Our cellar smell has gone for good"

"Some cellars never seem to smell just right, no matter how much they are cleaned. I know ours didn't for years. I am so fussy about things like that. I made Frank's life miserable about it."

"Of course, he did everything—sprayed around with horrid-smelling powders and messy mixtures. He even had a man come in and whitewash the walls again. But that indescribable, damp, musty odor refused to budge."

"Then, one day, Janice Colt told me of the wonderful things Sylpho-Nathol had done in her house."

"She was enthusiastic because it was so easy to use. 'Think of it, my dear, just a teaspoonful in a quart of warm water! It makes the cleanest-smelling, pearly-gray solution ready for instant use.'"

"Sylpho-Nathol is 4½ times stronger than carbolic acid—so you can imagine what it does to germs. It is safe to have about, too—the druggist says it is no more dangerous than a cake of scouring soap. And it doesn't roughen or hurt your skin one bit. You'll like its faint, pleasant odor, I know. Just buy a bottle and see for yourself."

"It's a pleasure to go into our cellar now. Sylpho-Nathol has made it so sweet and clean and healthy. But the cellar isn't the only place we use it."

"I use it every day—in the mop water, because it destroys the germs that are in dust and dirt. I pour it down the sink drains—because it keeps such places free from the slightest trace of odors. It has made me forget that there is such a thing as a garbage can."

"Of course, I use it regularly around the bathroom tiling, and toilet fixtures and as a flush for the closet bowl."

Sylpho-Nathol comes in four handy sizes, 15c, 35c, 55c, \$1.25. Most good grocers and druggists have it. If yours hasn't, he can get it. Just ask for it by the name—Sylpho-Nathol."

FRANCE FRESHENS UP NAPOLEON'S HOME

PARIS, July 28.—The French government having been persuaded to allot \$125 for the purpose, Napoleon's last home, on the island of St. Helena, is to have a new coat of paint. It needs it, for the last coat was spread on eight years ago.

The old house, at Longwood, is under the care of the French minister of domain. He it was who induced the government to make the financial allotment. The new coloring will be exactly as in Napoleon's time, light gray for the house itself, with the shutters, cornices and doors in olive green and dark brown.

COMPENSATED FOR WAR LOSSES

TEGUCIGALPA, Honduras, July 28.—The government of Honduras has allotted to certain German merchants resident in the republic the sum of \$120,000 to indemnify them for "losses suffered as a result of the 'black lists' and other measures taken during the war" in which Honduras sided with the allies.

The comment of some portions of the local press is ironical. "Why," it is asked, "should the allies compensate German citizens for losses as a result of the war? Honduras has many urgent local needs for all the money it can spare."

HONDURAS NATIONAL BANK

TEGUCIGALPA, Honduras, July 28.—The total revenues of the republic of Honduras will for the present be collected, and the outgo expended, by the Banco de Honduras, a private banking institution, which thus becomes the government's exclusive financial agent. The revenues amount to \$10,000,000 yearly. The bank will open a government credit of \$500,000.

Subsequently a national bank of the republic will be created and will absorb the Banco de Honduras. All directors and officials of the new organization must be Honduran citizens.

ADRIANOPLE PROSPERS UNDER GREEKS

ADRIANOPLE, July 28.—Adrianople, which has been one of the barriers to peace between the Greeks and the Turks, has become a thriving city under Greek military occupation. The Turkish shop-keepers and traders never were so prosperous. The Greeks have decorated every store with a Greek sign, whether the owner be Greek, Turk or Armenian.

The Hellenic army commanders have ordered their men to cultivate the friendship of the Turkish population, but while the Turks have profited commercially from the presence of the army their strong sense of patriotism and nationalism would rather see the Greeks driven out. For centuries of history and association Adrianople, once their capital, is as dear to them as Constantinople.

Except from a strategic point of view, Adrianople really is of little importance. It is a typical Turkish city, with its narrow streets, open bazars, its smells, dirt and indolence. Its houses are of wood, plaster and mud, and give the impression that if they are not soon burned up they will fall down. There is much poverty and misery which American relief workers are trying to ameliorate. American automobiles and motor trucks, bearing Greek army officers or supplies, rush through the muddy streets. In the midst of the bustle are the tall, loose-limbed, siltified Turks, lounging about the streets, coffee drinking and day dreaming.

The allies gave Greece a mandate to administer Thrace, of which Adrianople is the capital, for a period of years, but many of the inhabitants, especially the Bulgarians, are hopeful the United States may yet be induced to take an administrative and paternal interest in Thrace.

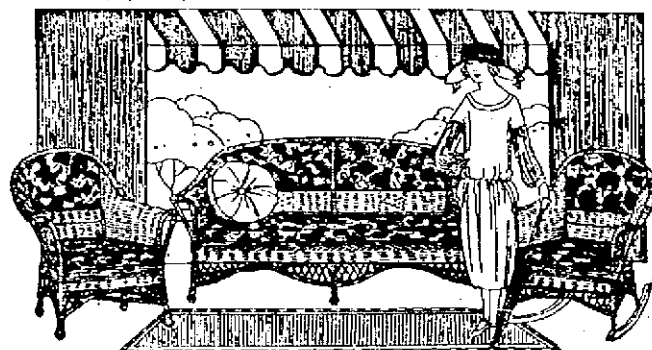

WHICH IS WHICH?
One of these is Frank T. Jenner and the other William W. Jenner. They've just enlisted in the coast guard service at Washington, D. C. Their mother says she's not sure, but she thinks the one above is Frank.

CASTLE OFFERED FOR SALE

LONDON, July 28.—Tantallon castle in North Berwick, for centuries the stronghold of the Douglas, is to be sold this summer. In Sir Walter Scott's "Marmion" the battlements of the Tantallon are the meeting place of Clare and her lover. Around its walls many fierce battles have been fought. At one time the castle was besieged by King James V, who failed to make a breach in its 12-foot walls and starved out the garrison.

PLAYGROUND ACTIVITIES INCREASE AS SEASON DEVELOPS

Directors of Local Playsteads Advance Idea for Inter-City Competition, Embracing Lowell, Lawrence and Haverhill--Rag Doll Show Planned for August 8

The local park department is corresponding with playground directors in Lawrence and Haverhill with the idea of staging a Merrimack Valley track and field meet, to determine the playground championship of the three cities.

The plan calls for intercity competition in both boys' and girls' baseball, as well as track sports. Some date at the close of the summer season has been suggested. It is the idea to choose the best performers in each city by a system of elimination meets, while the baseball representatives from each city would be the teams who lead their respective leagues at the end of the season.

Rag Doll Show

On Aug. 8 it is planned to have a rag doll show on all the playgrounds of the city for the girls. The dolls entered in this contest will be made by each contestant. The winner of

in each league, followed by inter-league games to decide the city championship.

Three Protests Received

Three protests in the boys' baseball league have been received by the directors. The Alken street team protests the game played with the South common team on July 19, which was won by the South common, 6 to 3. The protest alleges that the game was an overline one and the winning runs were scored in that time.

The South common team protests the game played with the Walker team on July 21, which was won by the Walkers, 11 to 6. The common team alleges that the Walker team violated the lineup rules by wrongfully keeping a man within the age limit, out of the position he was supposed to play.

The North common team also protests a game played with the Walker street team, alleging that the time of the game was illegal. The game was awarded to Walker street as the captain of the North common team did not appear within the time limit before the board of directors.

Good Track Competition

Real track form was shown by the boys of the South common and the Chambers street playgrounds in their dual track meet held yesterday afternoon on the South common track.

Some very creditable performances were made in fast times, with the Chambers street boys winning in the senior division, and the South common stars coming out on top in the junior division.

The feature of the meet was the fine running of O'Neil of the Chambers team in the senior half mile. This

speedy youth danced around the track in the fine time of 3 minutes and 5 seconds for the distance. As he crossed the tape he was still strong and showed no exertion in capturing the race. The meet was held under the supervision of Ray Linton and Bennie McAdams, the instructors at these grounds and was carried out like clockwork. The winners were as follows:

Senior Division

100 yd. dash--Marr, Chambers, first; Tarpinian, South, second; Hielon, Chambers, third. Time, 11 seconds.

200 yd. dash--Marr, Chambers, first; Woods, South, second; O'Grady, South, third. Distance, 8 feet, 6 inches.

400 yd. dash--Marr, Chambers, first; Tarpinian, South, second; Hielon, Chambers, third. Time, 3 minutes, 5 seconds.

800 yd. dash--Marr, Chambers, first; Tarpinian, South, second; Hielon, Chambers, third. Time, 8 minutes, 15 seconds.

1600 yd. dash--Marr, Chambers, first; Tarpinian, South, second; Hielon, Chambers, third. Time, 16 minutes, 30 seconds.

3200 yd. dash--Marr, Chambers, first; Tarpinian, South, second; Hielon, Chambers, third. Time, 32 minutes, 45 seconds.

so if any boys who have bikes and are not going to enter will lend them to their friends who would like to compete, the event will be much more successful.

Junior Division

100 yd. dash--Marr, Chambers, first; Tarpinian, South, second; Hielon, Chambers, third. Time, 11 seconds.

200 yd. dash--Marr, Chambers, first; Woods, South, second; O'Grady, South, third. Distance, 8 feet, 6 inches.

400 yd. dash--Marr, Chambers, first; Tarpinian, South, second; Hielon, Chambers, third. Time, 3 minutes, 5 seconds.

tainments on these grounds because facilities are lacking. These grounds are known as "fair weather" grounds, as seasons cannot be held on rainy days and on particularly hot days, because of the lack of convenience. The playgrounds which have such entertainments are able to do so because there is a school or some other building situated near the playgrounds. It is impossible to have such enter-

Ignorant of Strikebreaking

per cent. of the normal force, which meant about 1600 hands. Now, according to Mr. Mitchell's statement, there are 1500 employed at the mill. Where do the extra 200 come from?

All arrangements for the mass meeting to be held on the South common Sunday evening have been completed. John Hanley will preside and the speakers will be John L. Campos of Fall River, who will address the gathering in the Portuguese language; Thomas J. Reagan, general organizer for the U. T. W. of A. and Charles E. Anderson, president of the Trades & Labor council. The meeting will be held at 7 o'clock.

What is expected to be an interesting baseball game will be held on the South common tomorrow afternoon at 3 o'clock when the C. M. A. C. second team and the St. Columba's will cross bats. During the game young women connected with the local textile strike will pass the hat for contributions as the game is being played for the benefit of the strike.

\$9,000,000 IS MISSING APPEAL DISMISSED

27 Special Treasury Funds Disappear in Havana—Include Postal Money Orders

HAVANA, July 28.—Included in the list of 27 special treasury funds amounting to over \$9,000,000, which were alleged yesterday by Representative Bartolome Sagara in a denunciation to the supreme court to have disappeared from the national treasury are postal money orders amounting to \$1,820,077, post works funds amounting to \$2,264,140, and civil retirement funds amounting to \$2,370,423. It was disclosed today.

According to the announcement, treasury department figures for May and June show a total income of \$9,700,000, with expenses of \$7,000,000. Since none of these expenses have been paid, the complainant charged there is an evident misappropriation of the amount received.

The unexplained difference between receipts and disbursements during the last fiscal year is declared by Representative Sagara to be shown by treasury department records which contain orders for the payment of \$68,500,000 for expenditures for \$7,000,000.

In addition to these charges, Representative Sagara filed others with the Havana court petitioning an investigation into what he alleged were fraudulent payments of \$1,000,000 by the treasury department of the national treasury and extensive funds in the national lottery, the department of public works and the Havana street cleaning department.

Copies of Representative Sagara's charges have been furnished to Major General E. E. Crowder, special American representative in Cuba, who was quoted in a memorandum made public in part by the state department last night as declaring American intervention in Cuba depended upon the financial measures taken by the executive and legislative branches of the Cuban government.

PROTESTS \$18,406 DUTY ON CHIMES

NEW HAVEN, July 28.—The United States customs office today received a check for \$18,406 as the duty on the new chimes in the Markness tower of the Memorial Quadrangle at Yale University. The duty was paid by Marie Edlitz and Sons company of New York, which had the contract for installing the bells.

SINK AUTOS TO GET INSURANCE

MONTEPELIER, July 28.—Agents of the Merchants' Insurance association yesterday found three automobiles submerged in the St. Lawrence river, near here, and immediately instituted search for more cars.

The searchers said they believed the machines had been driven into the river so that their owners might collect insurance.

Shopmen May Soon Return

roads under each of the three proposals.

One proposal, according to those claiming to have information of the president's suggestions, would be for the railroad to waive the seniority question and take all strikers back to work.

Another was said to be to give "loyal" men who have remained at work prior seniority rights over strikers.

The third was for separate adjustment of the seniority dispute by each road with its own employees through joint committees to be appointed.

Hope of Settlement

The president was said by his ad-

Grand Trunk R. R. Shareholders Lose Case Before Privy Council

LONDON, July 28.—The Grand Trunk railway shareholders appeal to the privy council has failed. The appeal was dismissed today by the judicial committee of the privy council.

The appeal was from the finding of the board of arbitration last year, declaring the common and preferred stocks of the railway valueless. The board's decision was rendered in Canada over the differences that arose in determining what the Dominion government should pay the stockholders because of its purchase of the system. The members of the board were Sir Thomas White, former Canadian minister of finance; Sir Walter Cassels, justice of the Ottawa Exchequer court, chairman, who rendered the majority decision, and William H. Taft, now chief justice of the United States, who dissented.

Only the bare judgment was given in today's finding. The reasons will be announced later.

The main question involved in the appeal was the correctness of the decision of the majority of the arbitrators in excluding as inadmissible the evidence of the value of the physical assets of the Grand Trunk Railway Co. and their subsidiary companies, which was tendered by the appellants.

Mr. Taft in dissenting from the decision of the majority of the arbitrators, apprised the whole of the professional ordinary stock at the sum of \$48,000,000.

visers to believe that the three proposals promised considerable hope of a strike settlement and to have opened the door to a new situation within a few hours than for several weeks.

Rehearing by the railroad labor board of the shopmen's wage question was said to be embraced in all three of the proposals. One proposal it was said, also contemplated that both employers and employees agree that hereafter the board's rulings be observed without question.

The president had suggested with reference to seniority. It was asserted that as an initial step under one proposal the labor board be given complete jurisdiction over the seniority controversy.

It was said the president proposed, as a substitute, the plan for settlement by the executives and employees of each separate road, through joint committees composed of three members representing each party to the controversy. In event of disagreement of such committees it was proposed that the question then be taken to some form of arbitration tribunal.

All administrative officials acquainted with the proposals appeared to share the president's view that a basis upon which the strikers might return to work had been worked out.

Shopmen Soon to Return

CHICAGO, July 28.—(By the Associated Press.)—Plans for peace in the railway strike again today seemed to be assuming a more tangible form and the hope was expressed that the 300,000 union shopmen soon would resume work and submit their grievances including the question of seniority rights to the United States railroad labor board.

Plan for Settlement

The announcement that a plan for settlement of the walkout would be put before a meeting in New York Tuesday of executives of 118 of the largest railroads, made by T. DeWitt Cuyler, chairman of the Association of Railway Executives, after a conference with President Harding together with the president's statement indicating that he would ask the labor board to grant the shopmen a rehearing, was taken in rail circles here to mean that the rail chiefs would be asked to leave settlement of the issues involved to the board.

While the conference of Baltimore

Ohio officials with their striking workmen was reported to have progressed smoothly toward an agreement, B. M. Jewell, head of the shop crafts workers, was withholding approval of a separate peace until all plans for a national settlement had been thoroughly discussed.

There was a noticeable increase in the number of reports of violence reaching here from as far west as San Bernardino, Cal., and as far east as Concord, N. H.

R. R. Guard Killed

In San Bernardino a special guard employed by the Santa Fe was shot and killed.

At Concord, five shots were fired in a skirmish between unknown assailants and New Hampshire state troops who were guarding the Boston & Maine shops there.

Chicago added its bit. One man was taken to a hospital suffering from cuts received when six white men attacked two-union negro shopworkers in a crowded street car, causing a panic among passengers. Three white men and a negro were arrested. The home of two non-union shop workers were attacked with bricks by three men who rode in an automobile. Police arrested two of the men after several windows had been broken in each of the houses.

Striker Dies of Gun Wounds

A striking shopman who was shot at Creston, Ia., by a railroad guard, died in a hospital.

At Sioux City, Ia., two men found guilty of throwing literature from an airplane upon non-union workers, were sentenced to 30 days in jail and fined \$1000 each for violating a federal injunction.

A white man and a negro were wounded and several negroes injured when the negroes were attacked by unidentified men at Macon, Ga. About 60 shots were fired.

Murder in Memphis, Tenn.

A white man and a negro, both striking shopmen, were being held on murder charges at Memphis, Tenn., in connection with the deaths of two negro car repairers who were shot while leaving the Illinois Central shops.

One man was cut severely in a fight at Denison, Tex., between a negro cook and a party of white men. The negro was said to have escaped into Oklahoma.

A restraining order to prevent interference with operation of the St. Louis

Southwestern in Texas, was granted at Texarkana, Tex.

At Mayeville, Ky., a restraining order was granted to the Louisville & Nashville, to prevent interference with operations.

Twenty-six disputes involving wages and working conditions on various railroads were filed with the railroad labor board by E. F. Grable, chief of the Maintenance of Way Men's union in accordance with the peace plan adopted by him.

Discredit Reports of Firing

CONCORD, N. H., July 28.—Railroad and police officials here early today were inclined to discredit reports that national guard sentries at the Boston & Maine shops were fired upon late last night.

The sentries themselves, however, did fire upon a lurking figure, person thus revealed had disregarded an order to halt. One theory was that the man thus made a target was one of the new railroad workers who had slipped out of the dormitory in the railroad yards, to go upon some errand of his own and who was detected before he had made a clean getaway.

Seniority Issue Discussed

WASHINGTON, July 28.—With tentative proposals for settlement of the railroad shopmen's strike drawn up after conferences between President Harding and labor leaders, the situation was expected today to remain more or less at a status quo, pending the meeting of railroad executives to be called in New York next Tuesday.

Announcement that executives of the 143 major railroads of the country would be brought together on that date to consider a plan for settling the strike was made by T. DeWitt Cuyler, chairman of the Association of Railway Executives after a conference with President Harding last night, his second visit to the White House during the day, the rest of which the president devoted almost exclusively to conferences with officials of the shopmen's union, headed by B. M. Jewell.

It was generally understood today that at least a tentative plan had resulted from the conferences between the president and the union officials and that it had reference to the seniority issue now regarded as the one remaining obstacle to the conclusion of the strike.

It was also said that the president urged in his conference with Mr. Cuyler that the railroads agree to the union demands for restoration of seniority rights to strikers.

Among other rail executives opposed

to yielding on the seniority issue, W. W. Atterbury of the Pennsylvania and L. F. Loree of the Delaware & Hudson, who were here today, Mr. Loree having arrived last night, were both understood to be insistent in their opposition.

Meanwhile the opposition of Mr. Jewell to a separate settlement of the strike on the Baltimore & Ohio, at least pending the outcome of the attempt at a general settlement, appeared to have ended all prospect for prior action by the striking shopmen of that road on the pending company proposals.

Developments here in the coal strike situation in the last 24 hours included the statement of officials of the National Coal Association that they had been authorized by Alfred M. Ogile, president of that organization, to deny any report that a meeting of operators of the "central competitive field" was in prospect to consider a settlement.

Action by the senate labor committee on the Borah bill proposing appointment of a federal commission to study the coal industry, was being held in abeyance today pending an expression from President Harding of his views on the proposed legislation.

Three Kidnappings Reported

GALESBURG, Ill., July 28.—Three separate kidnappings, attributed to striking Chicago, Burlington & Quincy shopmen, were reported yesterday.

A crowd abducted two employees, took them to a farm about seven miles from the city and after beating them turned them loose, blindfolded, in a blackberry patch.

A stationary engineer was kidnapped and taken a nearby town, where he was severely beaten, his clothes torn and his money and watch taken.

Early yesterday morning the sheriff's force was called to the country to rescue a young man who had been kidnapped and who had been left with only a gunnysack around his body.

All the men kidnapped made statements, blaming strikers. One furnished a list of names.

Guard Shot and Killed

SAN BERNARDINO, Cal., July 28.—Roy E. Burton, special guard employed in the yards of the Santa Fe railroad, was shot and killed here last night.

His body was found an hour after six shots had been heard. His revolver was still clutched in his hand.

Investigation showed he had fired three of the six shots heard.

HURD STREET

TURKISH DEPORTATION METHODS DESCRIBED

LONDON, July 10.—Two American relief workers, J. H. Knapp and Miss B. Bannerman Murdoch, who have arrived in Constantinople from Arabkir, where they have been organizing relief among refugees, give further details of the deportations of Greeks and Armenians described previously by Major Yowell and Dr. Mark Ward. Arabkir is in the interior of Anatolia, 60 miles west-northwest of Kharput. They estimate that 10,000 deportees passed through Arabkir between July, 1921, and March, 1922. The signed report given by them to the British Armenia committee reads as follows:

"Beginning in July, 1921, the first instalment of 600 deportees of Greek men of military age arrived. They were all from the Konia district. One hundred and fifty of these were Armenians, and were sent on to Egin. The balance were Greeks. About 150 of these remained in Arabkir, and the balance were sent on to the Kharput and Diarbekir districts. Then came an instalment of about 250 to 300 deportees, mostly Greek, from the Kharput district. There was sometimes a man with his whole family, but generally women without any male members of the family with them, and children.

"To a large portion of these it was necessary for us to furnish bread every day for the whole winter. There was another group of about 100 men over 50 years old; some appeared to be 80 years old. These remained a few weeks and then all but a few were sent on to the Kharput area. A large drove of over 1000 was the next instalment to arrive in Arabkir in late fall. They were herded on a hill above the city within 200 yards of a running ditch of water. They were not allowed to get water from this ditch, but were compelled to buy it from vendors. On a bleak, cold morning a few days after their arrival they started on their way towards Kharput. It was a sight that one can never forget, to see middle-aged and old women and men, to say nothing of the younger women and children, carrying on their backs large loads of bedding, food and baggage, and in their hands pots and kettles, and perched upon their load a child.

"Many of these were destined never to reach their destination, as the storm which was brewing in the early morning on the mountain soon developed into a blizzard and the roads were left strewn with dead bodies. These things were personally seen by us, and in visiting one of the Armenian buildings where those who were unable to go on were left behind, we discovered several dead bodies on the floor and a number of other persons dying, with their children hanging over them. These scenes were only examples of many others which we witnessed during the deportations. Many of the women were unable to carry their children along, and were obliged to leave them on the roadside. We took in our orphanage about 200 of these children, and several of them were unable to survive the starvation and exposure they had undergone prior to reaching Arabkir.

"Personally I visited in Kharput several hospitals that were full of hundreds of Greek deportees, all with typhus, and from one hospital it was reported that as many as 20 a day were carried to the cemetery. The stories of robberies and extortions told us by the deportees were almost universal. We were convinced from the policy of the Turkish government in forwarding these deportees to other places on days when the weather was extremely severe, that their intention was to subject them to such exposure that they would perish. Their policy of giving two rations of bread a day to the deportees who were working on their roads, which was insufficient for their nourishment, and then cutting it down when they showed signs of weakness to one ration, showed that slow starvation was also another method for accomplishing their extermination.

"On our way from Arabkir, through Kharput, Diarbekir and Ufa, we encountered these Greek deportees in every village and city, and thousands of them were at work on the road. Personally, we examined the rolls of deportees to whom Americans were giving bread every day in Kharput, and the number averaged 2500."

SAILOR'S STRANGE WILL ADMITTED

LONDON, July 12.—Strange as the story of any document told in fiction is that of a will which has just been admitted to probate and is now filed in Somerset House.

It is the "last will and testament" of a sailor, William Skinner, who lost his life when his ship, the Indefatigable, was sunk in the battle of Jutland. It is in the form of the ordinary identification disc. On one side, in the usual deeply-punched letters, appears the name, number, rating and rank of the man to whom it had been issued.

On the other side the disc appears at first sight to be just a circular piece of smooth, polished brass. But when viewed at a certain angle, there can be seen about 75 minutely engraved words. With a microscope they can be plainly read. They constitute Skinner's will by which he bequeaths everything to his wife. The disc had been recovered from the sea with Skinner's body and on being cleaned revealed its secret.

Use Cuticura And Watch Your Skin Improve

Nothing better to cleanse and purify the skin and to keep it free from pimples and blackheads than Cuticura Soap for every-day toilet use. Assist with Cuticura Ointment when necessary. Cuticura Takena is also ideal for the skin.

NATIONAL ASSOCIATION OF ORGANISTS

CHICAGO, July 28.—(By the Associated Press.)—Prominent musicians from all parts of the country are expected to attend the 15th annual convention of the National Association of Organists. The organization, formed in New York in 1907 by a number of leading organists of the country, now has a membership of 1400 and between 300 and 500 visitors are expected here for this year's convention, the first that has been held this far west.

Standardization of the organ console and the amount of time an organist should spend in preparation for his work will be among the questions to be considered at business meetings. The convention will be featured by public recitals by famous organists in Chicago churches and halls.

An informal reception on Monday evening, July 31, will precede the opening of the convention proper. The address of welcome will be made by Mayor William Hale Thompson on the morning of Aug. 1, followed by a business session. The first day's program also includes an organ recital by Clarence Eddy of Chicago in the afternoon and one by Lynwood Farnum of New York in the evening.

Addresses by Dr. Peter C. Lutkin of Evanston and Dr. Felix Borowski, president of the Chicago Musical college, will be delivered Wednesday morning. In the afternoon Henry S. Fry and Rolfe Mattland, both of Philadelphia, will appear in a two-voice organ recital, while a recital by Dr. Ernest McMillan of Toronto, Ont., is scheduled for the evening.

A business session will be held on Thursday morning Aug. 3, followed by an automobile tour in the afternoon and a special operation program at Ravenna park in the evening.

Officers will be elected on Friday with the day's program also including a lecture by Dr. Paul Sabine of Geneva, Ill., on "Acoustics," a concluding organ recital by Clarence A. Tuttle, of Los Angeles, Cal., and a banquet in the evening.

Henry S. Fry of Philadelphia is president of the organization.

POLITICAL QUESTIONNAIRES

In the fall elections we may expect to see the women voters exerting their influence to a far greater extent than ever before. Not only will they present candidates of their own, but they will questionnaires the male candidates after the manner in which Mr. Edison tests the intelligence of those who seek positions in his service. Here, for example, is a questionnaire sent out by the Nebraska League of Women Voters to candidates for the United States senate:

Do you favor a reduction of our army and navy?

Should our country participate in world affairs? As a part of the world or apart from it?

What should be the attitude of the United States toward (a) Mexico, (b) Haiti, (c) Russia, (d) China?

Should our government collect the foreign debts of its citizens by force or otherwise, or should American investors in foreign countries be subject to the laws and risks of the country in which the investment is made?

What is your interpretation of freedom of speech and the press as guaranteed by the Federal Constitution?

Will you support the present federal laws for the enforcement of the eighteenth amendment, with no weakening of the Volstead Act, if you are elected?

Do you favor a referendum to the people for a declaration of the primary system and return of war by a bare majority of congress, or by a two-thirds majority?

If elected, will you vote in favor of independent citizenship for married women?

Are you in favor of abolishing the primary system and returning to the convention system of nominating candidates?

The candidate who would answer each of these questions would put himself in a strait jacket for the remainder of his political career.

Others of a similar nature are likely to be sent out and when the women take the stump, they may be expected to "put it all over the men," so to speak. They may challenge them to joint debate; and in such a case, the woman could say what she pleased of the male candidate while he would have to be silent, courteous and respectful toward his assailant out of regard for her sex.

Miss MacPhail and Miss Robertson have the God-given gift of common-sense. That is why they are not feminists; that is why many people are encouraged to believe that the right kind of woman in office will help, not hinder.—Fall River News.

Miss MacPhail is Canada's first woman member of parliament and like our Miss Robertson, member of congress from Oklahoma, she has conducted herself with becoming dignity and common-sense. She is not of the hysterical, screaming, irresponsible feminist type.

THE BAN ON LAUGHTER

Fashionable Nahant—Nahant the ultra-exclusive—has no use for the laughter and capering of little children from the outskirts. We take it. Witness one Michael De Carlo of Nahant, who happens to own a home in a sort of "restrained" section of that aristocratic watering place, giving daily entertainments to poor children from surrounding hamlets, much to the disgust of the fashionable set in Nahant. Michael was held into court for keeping a "disorderly" place, but in on probation, the court admonishing him to keep the kiddies within bounds and not let them about in their holiday glee so loudly that their merry-making will offend the elite of old Nahant.

Michael has been in the habit of distributing charity by keeping "open house" to youngsters who rarely leave the city streets and know little about the freedom of the seashore or country. We trust Nahant citizens will relinquish their campaign against Michael so far as they protest against his entertaining the children of the city at his little home on the ocean parade ground. Exclusive though Nahant has always been—you can't park your car longer than 10 minutes anywhere near the fashionable residences that loom against the ocean sky—we believe that few real men and women will object to De Carlo's method of entertaining the youngsters from the city, when his only object is to let them enjoy a day in God's sunshine and the fresh breezes of the ocean that are such a blessing to city "prisoners" during periods of sweltering heat and humidity.

EDISON'S MODELS

Edison given to a museum the original models of two of his important inventions—the first phonograph and the first incandescent electric light. Most of us, in his shoes, would have kept these treasures to tickle our vanity and sentiment but, of course, they will be carefully preserved in the museum.

Mr. Edison says he is not interested in old models. He looks ahead, never back, concentrates on the future, is not chained to the useless accumulations of the past that only serve as a hindrance to progress. If we would keep pace with the fleeting weeks and years, we must drop the things that are no longer of use, or otherwise we shall be unable to grapple with the vital things of the present hour. Few of us have the faculty of promptly distinguishing between the essential and the non-essential and of devoting our time and energies mainly to the latter.

ARCHITECT'S MISTAKE

Some architects are notorious for shooting wide of the mark when asked to plan building operations within a fixed appropriation. It is noticeable, however, that they invariably exceed the amount, never go under it.

SEEN AND HEARD

Give a politician enough cigars and he robs the voters in.

"Flowers have blossomed," says Burbank who may have noticed a flower shedding.

We can't recall a single instance of an American who stayed at home being killed in Mexico.

A Thought

We then that are strong ought to bear the infirmities of the weak, and not to please ourselves.—Romans 15:1.

Our deeds are like children that are born to us; they live and act apart from us. Nay, children may be strangled, but deeds never; they have an indestructible life both in and out of our consciousness.—George Elliot.

A Word a Day

Today's word is Futility. It's pronounced fu-till-ee, accented on the first syllable, the u long and the l short. It means—useless, trifling, ineffectual. It comes from the Latin futilis, meaning "that easily pours out, or leaks loose," derived from the root of fundere, to pour out. It's used like this: "He made a futile effort to prevent the calamity."

Not Quite Enough

An Englishman, newly arrived in this country, was taken home to dinner one night by a friend. There was corn on the table, and the host, knowing that most Englishmen are not very familiar with this vegetable, asked if he liked it.

"O, yes," replied the visitor, apparently not wishing to appear discourteous, "I like it."

But when the platter of Golden Bantam was passed he did not take any.

"Why," said the host, "I thought you said you liked corn."

"I do like it," explained the Englishman, "but I don't like it well enough to eat it."

Exceptionally Good

A young married woman who had moved into a new country, considered the keeping of hens a pleasant and profitable undertaking.

As she grew more absorbed in the pursuit her enthusiasm increased.

During one of her animated descriptions of her success a friend inquired:

"Are your birds good laying hens?"

"Oh," replied the henkeeper in a delighted tone, "they haven't laid a bad egg yet!"

The Little Things

Ever so little means so much. In the little world of workaday: The lips that smile and the hands that touch.

The easier things, not many such, Easy or hard, in the common way! Ever so little means so much. In the little world of workaday!

Ever so little, but how they aid! The kindly glance and the friendly word!

The flash of an eye, and a debt is paid; A syllable uttered—a friendship made. Or in exhibition games after the close of the regular season, provided he obtains permission of his club owner and Judge Landis.

It was agreed that more than three players from any one club can play on any single team in a exhibition game. This, owners said, will move the little bit of an entire going out under the team name at the end of the season.

The change in the rules is a result of trouble in which both sides were involved. The Yankees found themselves last season.

Harry Frazee, owner of the Boston Braves, defended his sale of Joe Duxan and Elmer Smith to the New York Yankees. No one else spoke on the subject and President Ban Johnson explained the change in the draft rules to eliminate minor-league trades after July 1, which could not be considered until the next regular meeting.

The club owners accepted the offer of the fine arts commission of Washington to use a relief in East Potomac park commemorating the Chesapeake and Ohio Canal.

A bronze relief inscribed with the name of the best all-around player of the year will be added to the relief each year. The best player in the league will be chosen by a committee of eight baseball writers.

THE MAN ABOUT TOWN

In contrast with conditions in Lowell since the advent of prohibition, a report from a city in the far west, which has been under prohibition for several years prior to the national amendment and the Volstead act, shows that prohibition has worked wonders. Wife beating, neglect of children, alums, red light districts and suffering from lack of fuel and clothing in the winter have become a rarity. Bank deposits have increased threefold, and everyone, including the workman, rides in an automobile. This is a sort of Utopia for which the citizens of Lowell, hardly dare strive, at least until such times as the dollar is worth more than a number and their results less conspicuous in the frequency of drunks upon the streets.

The prediction which I heard so often, that with a change in the administration of the police department the number of liquor seizures and the arrests would be marked decline, seems not to be borne out by the facts. It is formed that the number of prosecutions, as a matter of fact, is increased, if anything, as the number of arrests under the regime during the year was about 235, and since that time has been increased by about 150. The liquor squad still pursues its way in the same fashion, unhampered by any other department, and with the police prosecutor doing his best to secure convictions in the district court. The liquor squad is still as active as ever, though the people have been surprised with news of large seizures to the point that something of extraordinary proportions of of unique interest is now being drawn their attention. The big seizure of the week was the first for some time, although many smaller seizures and other methods of offense are discovered regularly.

Although the Knights of Columbus are not wont to boast of their achievements, prematurely, at any rate, they cannot help expressing satisfaction with the progress being made with their new building in Dutton street. The work is going along in such a way that the last touches will be applied in ample time for the winter season, as predicted before the operations began. The fact that the completed work is giving work to many of the members of the order, otherwise be unemployed is another source of satisfaction to the officers and members. When the work is finished, the members of Lowell council C. will move into one of the most comfortable and well equipped quarters of a social or fraternal order within a radius of many miles, and will derive great satisfaction in the knowledge that it is all their own.

At a recent meeting of the board of public service Mr. Arthur G. Pollard appeared in behalf of a local institution for some information regarding the repair of a roadway leading to the Lowell General Hospital. While waiting for the meeting to come to order, he told of an interesting comparison between the manner in which city departments were conducted in those days and at the present. Mr. Pollard said that he was clerk of the assessors' board in 1861. At that time he was only 18 years old. He told of coming to work at 8 o'clock in the morning, of sweeping out the office, dusting the chairs, washing windows and cleaning the cuspidors. At 9 o'clock he had to knock on work. For this work he received the magnificent sum of \$75 per annum. He also told of the time when the assessors decided to check up all cattle, horses and dogs in the city. The city council met and appropriated \$50 additional for this work. It was asked if he would take over the work for \$1 cents per day. When he finished his labors he put in a bill to the amount of \$21. In commenting on his salary, he said that he did work for \$21 then and at least \$250 would be asked for now. To show how closely things were figured out, he cited the instance of one item of supplies he used. Mr. Pollard said that it was impossible for him to use the pens bought for the department so he bought his own. After the work was completed, he was talking with Isaac Hensford, then one of the city's fathers, and told him about his expense item in connection with the pens. He was told to put in the item. It amounted to 19 cents. Mr. Pollard invited those present at the meeting to look back over the old city books to find the item of 19 cents charged up for pens for the assessors' department.

ATTACHMENTS RECORDED
The following attachments have been recorded at the local registry of deeds office: Ann Windsor vs. Christina J. Whitler, of \$20,000, Arthur H. Colburn, Dracut vs. J. Chester Fox, Dracut, action of contract, \$1000.

HEYDLER DISALLOWS BROOKLYN PROTESTS

NEW YORK, July 28.—President John A. Heydler of the National League yesterday disallowed the protests of the Brooklyn club over umpire's decisions which it claimed were faulty and resulted in losses of the games played against New York, July 4, and St. Louis, July 10. The games will not be replayed.

The Brooklyn contention in both cases was based on a rule that has been a storm center of controversy in baseball almost since its institution—the obstruction of a base by a fielder waiting to tag a runner. Whether there actually is obstruction is a matter of the umpire's judgment, which is never reversed.

"The decisions to be made by the umpires under this rule are usually the most important of the game," said President Heydler in his decision, "but they are decisions based solely on the umpire's judgment as to whether the runner beats the ball, and because of this fact are not subject to appeal or reversal."

As far back as 1876, Mr. Heydler re-

calls in his decision, the original playing rules provided that obstruction of the objective base entitled the runner to it, but a few years later, he adds, "Henry Chadwick, the father of baseball, commented: 'This rule has practically been a dead letter hitherto, owing to the difficulty umpires have encountered in deciding what was obstruction under the fair meaning of the rule.'"

"These protests have to do with the unpopular practice of blocking off runners at the plate. A play that has always been the cause of dispute, ill-feeling among, and serious injury to players, but against which no practical rule remedy has been found."

The rule adopted in 1876, Mr. Heydler adds, entitled the runner to advance, "if he be prevented from making a base by the obstruction of an adversary, unless the latter be a fielder having the ball in his hand ready to throw it." He added, "The rule is a verbal change, it is the same now."

"In the meantime," remarks President Heydler, "we have had the introduction of shin guards, making conditions worse by protecting the catcher at the increased risk of injury to the runner."

It will pay you to get The Sun classified adv. habit.

WORCESTER BACK IN EASTERN LEAGUE

NEW HAVEN, Conn., July 28.—Worcester will be back in the Eastern league within a few days, as a result of the purchase of the Fitchburg franchise by Albert H. Powell, prominent business man of this city. John McMahon, part owner of the club, will be replaced as manager of the team. Mr. Powell said last night in confirming the reports of the deal.

Two or three men are being considered for the management. The opinion that Worcester would soon be represented on the field by a first class aggregation. Mr. Powell also is a stockholder in the New Haven Eastern league club.

REUTHER'S PITCHING IS BEST IN HIS LEAGUE

Through the first half of the season the sensational work of Pitcher Dutch Reuther has featured the play of the Brooklyn Nationals.

The veteran pitcher is staging a most remarkable comeback. He is easily the most effective pitcher in the National league today.

When the Brooklyn club was in a

DUTCH REUTHER

slump, and all the pitchers were faltering, Reuther continued his winning ways. His ability to win when the rest of the staff was in trouble during the early stages of the race.

Judging by the way he is going at present, Reuther has an excellent chance to win 25 ball games. Any pitcher who can turn in that many victories is entitled to much consideration when selecting the most valuable player in the majors.

PERFECT

Flo Ziefeld and Fokine, the ballet master, believe this girl is the most perfectly formed in America. She Margie Withington and hails from Cincinnati, O.

NEWARK, N. J. SANDLOT- TER BEATS SHOCKER

Adolph Rettig, the latest pitching sensation in big league baseball, was imported from the sandlots of Newark by Connie Mack.

Adolph got his "baptism of fire" in the opening game of the recent series

ADOLPH RETTIG

between the Philadelphia Athletics and the St. Louis Browns. He was expected to be a "shocker" for the American League phenom of the season, Philadelphia won. George Skler and Ken Williams, the Browns' greatest hitters and home run stars, got only a hit apiece against Mack's find.

Fans and experts who saw Rettig's first performance in the big league say he looks like the "real stuff" and predict a future for him.

BANCROFT FIELDS BALL HE HIT TO OUTFIELD

Dave Bancroft, brilliant shortstop of the New York Giants, is rated as a smart ball player.

Liney Jennings, now acting as assistant to John McGraw in directing the Giants, says that Bancroft is the brains of the New York club.

Only recently in a game in the National League, Bancroft pulled a play that might have given him high rating in the list of "honors" had not the umpire come to his rescue.

With a runner on third base, Bancroft lifted a fly ball to the outfield. It was a hard-hit ball and the fielder was compelled to go deep to make the play.

It so happened that the runner on third was a very fast man, also that the fielder making the catch had a rather poor throwing arm. These two things tended to save the day for Bancroft.

The runner on third held his base until the fly hit to the outfield, and then he started for home. At that moment it struck the hands of the fielder he dashed for the plate.

Bancroft, playing proper baseball, had run out his hit to the outfield, and was between first and second when the relay came back into the infield.

Banny couldn't resist the temptation to field the ball and toss it to some other player of the team in the field. The team in the field contended that in fielding the ball, Bancroft had killed a chance for a play at the plate, and for such interference the runner who had scored should be declared out.

The umpire at the plate, however, ruled that the run had crossed the plate before the error, even though the ball, and that the net of the New York shortstop in no way prevented a play, since there was no play possible with a close call for the brainy Bancroft.

WILL DISCUSS JUNIOR HIGH SYSTEM

A special meeting, for the purpose of discussing the Junior high school system for Centralville, will be held at 7:30 o'clock next Tuesday evening in the assembly hall of the Greenhidge school. The improvement association of the district, headed by President Thomas F. Garvey, together with a number of other interested persons, will attend and voice their approval of the movement. It is also expected that the members of the school board will be present.

It will pay you to get The Sun classified adv. habit.

HUGGINS SAYS 92 WINS WILL COP

BY BILLY EVANS
Miller Huggins says 92 games will win the pennant in the American League this year.

Last season Huggins, who knows his baseball, said that 96 games would be enough to win.

Huggins' dope was correct. The Yankees won 95 and lost 65 for a percentage of .594 in 1921. The Yankees won the pennant.

This year Huggins says that 92 games will be enough to win. When asked for an explanation of why he figured less games would win this year than last, he simply replied:

"This is a different kind of a race." The opinion of Manager Huggins, who heard out the statement made in a recent article, that this was a season made to order for a dark horse to slip in and win the pennant, under the New York club soon hit its stride.

At the opening of the season the Yankees were generally picked to win. The New York club with its great pitching staff and hard hitting certainly looked up as the class of the league.

Things have not broken for the Yankees as they had hoped. The club is not out in front by a goodly margin as the experts felt certain it would.

The American League race has developed into a free-for-all, in which at least six clubs must get consideration. The Athletics and Boston appear to be the only clubs that haven't a good chance.

It certainly looks as if the New York club should win 92 games. The great pitching staff of the Yankees seems to have hit its stride. If the sluggers start whacking the ball, the Yanks will prove most troublesome.

Will 92 games win the American League pennant?

The National League has been in existence since 1876. During that time only one club has won a pennant with 92 games on the right side of the ledger.

This was in 1915 when the Phillies came through with a percentage of .592.

The American League has been doing business since 1900 and in those 21 years three clubs have won a pennant with a slightly smaller percentage than Huggins figures to win in 1922.

The clubs are evenly balanced in the American League this year. Every game is a battle. There are no soft spots. That is why 92 games may win the pennant. That is why a majority of the clubs have a look in.

The latest statement of Manager Huggins explains the situation in the American League:

"This is a different kind of a race." Leonard Retains Title

Continued
ler was fooled. He stepped back, away, turning from his antagonist, Leonard sprang like a hair-trigger. Straight right and left to head and body, sent Leonard hurtling to the ropes. Tender fought back, but the gong stopped that.

They both missed often in the last two rounds, but Leonard's sharp shooting right was the more accurate. Both tried for finishing blows and though short uppercuts from each hit tender marks, they lacked power.

Tender, always a body crusher, employed a style unexpected of him. Perhaps it was strategy. Anyway his attack was diversified, especially after he had been warned repeatedly for striking dangerously near the foul line.

Leonard's big failure was in his legs. Not until near the finish did he prance about, as in his wont, striking and dashing away. He would no more do that than Tender would pound his body for the challenger was crowding him—almost stepping upon him, forcing the fight, and Leonard's reputed right cross was only partially effective.

Not often in boxing has a man put. Occasions have been rare when fighter in the midst of battle, has said to him: "Come on and fight." Tender said it repeatedly. Tender says he is at the height of his career. Tender frankly admits that he'll grow into a better fighter.

After Tex Rickard announced today that the receipts from the Leonard-Tender fight were about \$150,000, fans figuring Leonard's share which was 42 1/2 per cent of the gross estimated that the lightweight champion would stand about \$125,000. Tender would receive about \$30,000 on a basis of 20 per cent. Rickard's expenses for the battle were reckoned at \$15,000 and from the fighter's share his profits were declared to be \$110,000.

Light by Huggins
The story of the Leonard-Tender fight by rounds.

ROUND ONE
The bell rang at 9:25. Tender was short with two rights and then landed a light left. They fell into a clinch and began dancing around. Tender landed a left hook to the chest and followed with a light left to the body. Tender landed another left and then two sharp rights to the body. Tender was pushing the champion. Tender slipped and fell and standing up slowly wiped off the dust from his gloves. Tender landed a hard left to the

champion's head, cutting his right eye. Tender was warned for hitting in a clinch. They were sparring at the bell and when he sat down Leonard said the cut was caused by a butt. Leonard held a towel to his eye to stop the bleeding.

ROUND TWO
Tender missed two rights and rushed the champion into a corner. Leonard crossed a hard right to the jaw. Leonard missed a right and left. Tender had the better of a clinch. Tender landed a hard left and followed with short uppercut. Tender landed a short left. Leonard countered with a right to the body and followed with two short uppercuts. Tender continued landing and had the champion covering his face with both hands.

Tender landed hard rights and lefts to the head and then three more lefts to the jaw. Blood was trickling from Leonard's eyebrow.

ROUND THREE
Tender again jumped into the lead, missing a wide left. They clinched. Tender again was warned for hitting in a clinch. Leonard complained of Tender's low hitting. Tender replied with a left swing to the jaw. Tender smiled. Tender had the better of a body exchange and landed two rights to the jaw. There was another exchange at close quarters. Tender missed with his left. Tender told the champion, "Come in and fight." Tender pushed Leonard to his corner at the bell.

ROUND FOUR
Tender landed lightly to the ribs. They exchanged at close range. Tender landed a left to the body. Leonard countered with a hard right-cross to the jaw. The champion landed short uppercuts. Tender followed with a figured left uppercut to the body. Leonard spat blood. Leonard missed with right and slipped to his knees. Tender walked away. Tender kept punching away with his left. Leonard landed hard rights to the body. Tender sank his left in the champion's stomach. Tender took two right hooks to the jaw. Leonard was notched his right to Leonard's jaw at the bell.

ROUND FIVE
At this point newspapermen agreed that Tender was far in the lead. Leonard was short with a left and then punched heavily into Tender's chest, crossing his left to the jaw and hooking his right. Leonard outfought Tender in a clinch. Leonard put two hard rights away with his left and crying another. Tender landed rights and lefts to the midsection. Tender kept dropping his left all over the champion's stomach. Leonard was notched his right to Tender's stomach. He added Leonard's best showing was in this round.

ROUND SIX
Tender's right went to the stomach. Leonard reached Tender with his left. He added a right and left to the jaw. Tender missed with a left. Tender began to run away and clinch. Leonard landed two hard rights to the jaw. Tender was warned again for hitting low. The champion splashed two more rights to the body. Leonard began jabbing away with his left and crying with his right. Tender landed three hard lefts to the head. The arena was in an uproar. Leonard shot a volley of rights and lefts to the body and sent two sharp uppercuts to the jaw. Tender's lips were bleeding and gore was on his chest when the bell rang.

ROUND SEVEN
Leonard predicted before the fight that he would win in this round. Tender hooked two lefts to the head. Leonard had the better of the exchange. Tender landed rights to the body and hooked lefts to the head. Leonard sent two long rights to the jaw. Leonard accused Tender of hitting low. Leonard spat out a tooth. Tender sent lefts to the head. They fought a range and clinched. Leonard uppercut to the jaw and crossed a left to the body. Leonard hooked a right to the jaw. He missed. Leonard was coming back strongly.

ROUND EIGHT
Tender jabbed with his right and

Leonard sent a right to the stomach. Tender rushed in, landing lefts to the jaw. He swung a hard left to the jaw and right to the head. Leonard landed wide rights and lefts. Leonard had the better of a vicious exchange at close quarters. They danced around. Leonard landed short rights to the jaw. Tender sent both hands to the body and rushed Tender to the ropes. Leonard missed a right uppercut and hooked two glancing rights to the jaw. Leonard sent two hard rights to the jaw. Leonard sent two hard rights to the jaw. Leonard sent two hard rights to the jaw. They were fighting hard at the gong.

ROUND NINE
Tender hooked his left to the jaw and body. Leonard landed a hard right to the jaw. They kept up an animated conversation. Leonard landed a hard left to the body and hooked a right to the jaw. He landed another left. Leonard missed a long uppercut and then sent a hard left to the jaw. Tender rocked the champion with a left to the chin. Leonard danced away grinning. Leonard sent a hard right to the body. Leonard uppercut sharply to the jaw with a right. Tender had the advantage of inflicting at the bell.

ROUND TEN
They clinched. Tender missed a right. Leonard hooked two rights to the body. He sent another and followed with a right to the jaw. He sent two short uppercuts to the chest. Leonard jabbed lightly and then sent both fists to the face. Leonard kept landing and landing with his right. Leonard sent a short uppercut and rushed Tender to the ropes. Tender fought back and sent three left hooks to the jaw. Tender backed away. Leonard landed like a shot. Tender sent a right to the jaw and sending the challenger to the ropes. Tender fought back.

ROUND ELEVEN
They jabbed away at long range. Leonard was short with two uppercuts. They clinched. Leonard began his dancing tactics. He landed two right hooks with lefts. Tender sent a left to the jaw. They exchanged blows close together. Tender sent series of lefts to the head. Leonard landed a terrific short right uppercut to the chin, bringing blood from Tender's mouth. They fought furiously at close range. Tender missed with his right. Leonard landed a right to the jaw. Tender sent a left to the jaw, rushing Tender to a neutral corner. Leonard seemed to be getting stronger.

ROUND TWELVE
Leonard sent a right to the stomach. Tender rushed in, landing lefts to the jaw. He swung a hard left to the jaw and right to the head. Leonard landed wide rights and lefts. Leonard had the better of a vicious exchange at close quarters. They danced around. Leonard landed short rights to the jaw. Tender sent both hands to the body and rushed Tender to the ropes. Leonard missed a right uppercut and hooked two glancing rights to the jaw. Leonard sent two hard rights to the jaw. Leonard sent two hard rights to the jaw. Leonard sent two hard rights to the jaw. They were fighting hard at the gong.

Leonard sent a right to the stomach. Tender rushed in, landing lefts to the jaw. He swung a hard left to the jaw and right to the head. Leonard landed wide rights and lefts. Leonard had the better of a vicious exchange at close quarters. They danced around. Leonard landed short rights to the jaw. Tender sent both hands to the body and rushed Tender to the ropes. MURDERED BY CRANK

Village Blacksmith Victim of John Schaefer's Axe—Later Aversed to Whistling

HARLAN, Ia., July 27.—John Schaefer, 70 whose aversion to whistling first gained him the name of "crank" then sent him trudging moodily about carrying an axe as a threat against whistlers and finally landed him in a cell charged with murder, was transferred to a secret hiding place today by Sheriff Hansen for protection.

Schaefer carried his axe around the streets of Harlan for years without more than raising it as a threat until last Friday when it brought a whistler to death. The victim was the village blacksmith, John M. Herold, 60. Herold who was a notoriously cheerful whistler stood in front of the shack that housed his forge and watched Schaefer storm at some whistling boys. The boys fled and Herold shouted: "Come on over John, and whistle for me."

Herold was struck down and died in a hospital Saturday night.

EXPLOSIVES IN MILK

R. R. Officer Had Thumb Blown Off When He Picked Up Bottle on Porch

CHICAGO, July 27.—Charles D. Signer, assistant general manager of the Delaware, Lackawanna & Western railroad, reported to police today that explosives placed in a bottle of milk on his front porch blew off his right thumb when he came to carry the bottle into the house.

Signer, who is 51, said the incident occurred yesterday morning. It was not reported to the police until today.

BRIEF BUT IMPORTANT WIRE DESPATCHES

ST. LOUIS, July 27.—(By the Associated Press.)—President Frank Farrington of the Illinois Miners today rescinded his call for a state miners' convention at Peoria, Aug. 3. He said this action was taken because of what he termed "premature newspaper announcements of the convention."

MONTREAL, July 27.—Canadian shopmen employed by the Grand Trunk railroad are being practically forced to declare an immediate strike because that system is "determined" to keep repairing engines and cars sent to its shops by lines in the United States whose repairs are on strike, said an announcement today by R. A. Talbot, president of Division No. 1, Railway Employees Department of the American Federation of Labor.

SALEM, July 27.—Medical Examiner Frank R. Atwood today reported to District Attorney S. Howard Donnell of Essex county that an autopsy on the body of 12-year-old Henry McMahon showed the lad "came to his death by violence by parties unknown." The report declared that the right side of the boy's skull had been shattered "by multiple blows."

RANTOUL, Ill., July 27.—First Lieut. R. H. Stoll and Second Lieut. Taylor H. Monroe were killed five miles north of here today when their airplane fell 500 feet.

BOSTON, July 27.—Stockholders of the Boston & Maine railroad met today in annual meeting for the fourth time in an endeavor to complete the election of the board of directors. Three previous sessions within the past three months have been adjourned because of legal steps taken by a minority stockholder, Edmund C. Codman, to prevent the counting of votes.

PALMER ENDORSES THE UNDERWOOD BILL

WASHINGTON, July 27.—The Underwood bill to create an American commission to adjudicate American war claims against Germany and Austria and to pay such claims out of seized enemy alien property, was endorsed by A. Mitchell Palmer, former attorney general and alien property custodian, today before a senate Judiciary subcommittee.

Chairman Cummings of subcommittee announced in opening the hearings, that they would be limited to the two propositions in the Underwood bill creation of a claims commission and disposition of seized enemy property.

The present administration course of negotiating a claims treaty with Germany, to set up a joint claims commission, was attacked by Mr. Palmer. Under the Versailles treaty, he said, German property seized in this country was, in effect, requisitioned, not by the American government but by the German government as a pledge for payment of American claims.

The German government agreed, he explained, that German subjects whose property was used to pay American claims would have a claim against the German government and not against the American government. "This, he insisted, upset the contention that the American government was confiscating individual property of aliens."

THREATENS TO GET JUDGE WHEN HE GETS OUT

PORTLAND, July 27.—"All right, but believe me, you will never sentence another man," shouted George Cummings to Judge Clifford E. McGiffin in the municipal court today when he was given 30 days in jail as a vagabond and for begging on Congress street. "Just wait until I get out."

"Sixty days," said the judge. "In that enough?"

"Make it all you want to," retorted Cummings, "but just wait until I get out. Heretofore, I mean what I say."

Thereupon, the honor increased the period to four months, after adjudging him in contempt of court. The respondent allowed he had nothing more to say.

TWO MORE YARDS TO BE IN FASHION

There is surely no fashionable woman but will rejoice at the opportunity to be two yards more fashionable. That's what the styles are doing for you, madam.

Two yards more. In the extra fullness of the skirt, the wide drapes, the loose and ruffled sleeve, the occasional cape-hack. Where are the straight sleeves tied-in-the-middle chemise dresses? Not yet gone, but no longer in their prime.

SEN. WALSH FIGURES IN DISPUTE OVER SINK

MALDEN, July 27.—Senator David L. Walsh became a figure in a dispute over a sink today. The senator sent Mayor Kimball a letter he had received from Nathan Rodman in which the latter solicited Mr. Walsh's intervention with Malden officials in getting a sink installed in the Rodman house.

In the letter Rodman reminded the senator of a harbor shop conversation between the two concerning the sink. Mr. Walsh told Mayor Kimball he did not recall the visit.

Building inspectors, at Mr. Walsh's suggestion, began an investigation.

GIRLS! LEMON JUICE BLEACHES FRECKLES

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of the best freckle and tan bleach, and complexion whitener.

Massage this sweetly fragrant lemon lotion into the face, neck, arms and hands each day and see how freckles and blemishes bleach out and how clear, soft and rosy-white the skin becomes.—Adv.

MARGARET PETIT TELLS HOW SHE GAINED HER FAMOUS GRACE

BY MARGARET PETIT
Dancer Celebrated for Her Grace

An ungraceful body will destroy the charm of the most beautiful face, while a graceful one will redeem the plainest features.

Grace is the result of complete control.

No training teaches such absolute control as dancing—classic dancing, not the ball-room variety.

Correct breathing and arm exercises (also should be a part of every woman's program, night and morning.)

Let your arms hang free from your shoulders and place the hands side by side, palms inward and thumbs interlaced in front of you. Raise the hands straight over your head, inhaling a deep breath. Hold your arms free while you count five. Then slowly lower them while you exhale.

Dancing, running and kicking have value because they exercise the muscles of the legs.

Sweeping is very fine exercise if a woman holds her broom properly. Walking upstairs is recommended as a flesh reducer.

When dressing and undressing, practice walking on your tiptoes—excellent for your feet and ankles.

Police Hunt Escaped Naval Prisoner

CHARLTON, July 28.—Police of Central Massachusetts were today searching for John Volo, convicted naval prisoner, who escaped from his guard and leaped from an express train near here. Volo had been convicted of desertion by a court martial at the Great Lakes training school, Chicago, and was en route to the naval prison at Portsmouth, N. H.

Further Successes for Free Staters

DUBLIN, July 28.—(By the Associated Press.)—All the main towns in the Conemara district have now been cleared of insurgent troops and rapid progress is being made by the national forces in the west and the Munster province, says an official report issued today. The report says there is good ground for hoping that within the next fortnight, the organized resistance of the republican irregulars will have been so broken that further postponement of the Irish parliament will be unnecessary.

Free State Troops Ambushed

BELFAST, July 28.—The ambush of a party of Free State troops was reported today from Glenties, County Donegal. They encountered a man dressed as a priest, who assured them there was no danger in the locality. Suddenly seven men emerged from behind a hedge and opened fire upon the national soldiers, killing two of them. Four of the attacking republicans were captured during subsequent fighting.

Attempt to Wreck B. & M. Train

LYNN, July 27.—Reports of an attempt at train wrecking on the Boston & Maine here by placing rails across the tracks were declared today by road and police officials to be without foundation. It was said that investigation showed some spikes used in repairing a street car line adjacent to the railroad had been found near the B. & M. track but no attempt at train wrecking was apparent.

MORTGAGEE SAID
By virtue of the power of sale contained in a certain mortgage of real estate in Lowell given to the Mortgagee, B. Hazard, dated January 20th, 1920, and recorded with the Middlesex North District Registry of Deeds in Book 618, Page 458, and for the breach of the conditions contained in said mortgage, and for the purpose of foreclosing said mortgage, I shall sell the real estate described in said mortgage at public auction, on the premises numbered 239 Smith street, Lowell, Mass., at twelve o'clock noon on Friday, Aug. 11th, 1922, said real estate being the land with the buildings thereon situated on the westerly side of said Smith street, in Lowell, Massachusetts, bounded and described as follows: Beginning at a point on the westerly side of said Smith street distant southerly sixty-three and 96-100 feet from the intersection of the southerly line of Shaw street and the westerly line of said Smith street; thence westerly in a line parallel with said Shaw street sixty-one and 70-100 feet to land of one Beharrell, now or formerly; thence southerly to said Beharrell land forty feet to land of said Beharrell, now or formerly; thence easterly in a line parallel with said Shaw street, thirty-one and 72-100 feet to said Smith street; thence along said Smith street northerly, forty-four and 11-100 feet to the point of beginning. Being the same premises conveyed by William B. Hazard by Harland E. Miller by deed dated January 20, 1920, recorded in the Foreland Registry in Book 618, Page 458. The premises will be sold subject to all unpaid taxes, or municipal assessments which may be due the city of Lowell. Terms will be made known at the time and place of sale.

GEORGE H. ALLARD, JR.

SAYS RENTS ARE FALLING

Commission on Necessaries
of Life Gives Out Compre-
hensive Statement

Housing Construction
Throughout State is Rapid-
ly Increasing, Report Says

(Special to The Sun)
BOSTON, July 28.—The commission on the necessities of life today brings joy to thousands of families in Massachusetts through the issuing of a statement to the mayors of all cities in which it is stated that rents are falling and that they will take even a greater tumble in the near future. Housing construction which is rapidly increasing, home ownership in an effort to escape excessive rentals and the stopping of real estate speculation are signs of better housing conditions, says the report.

"The commission says in this report that in 1921 in Lowell 206 building permits for dwellings were issued, affecting 243 families, while for the first five months of this year 115 permits were allowed, affecting 144 families. The report bears the signature of Eugene C. Hultman, chairman of the commission."

GOMPERS CONFIDENT OF EARLY SETTLEMENT

NEW YORK, July 28.—(By the Associated Press).—"A man of straw," a flimsy personage without official standing in labor circles—said President Harding the message which last night drew a long reply from the White House. The reply, however, strikes the position of the government, was the belief expressed here yesterday by Samuel Gompers, president of the American Federation of Labor.

The message to Mr. Harding predicted that "to attempt to operate the mines or the railroads by military forces, or to attempt to draft men" would result in the approach of "the long predicted war between capital and labor."

It was signed "J. Cleve Dean, chairman of the American Federation of Labor. The president addressed a reply to the alleged author of the message, in which he said, in part:

"If you mean to challenge the righteousness of free men to be protected in their lawful pursuits against interference and violence, I will be glad to join you in submitting that question to the decision of the American people."

Mr. Gompers expressed surprise that the administration should have shown such concern over the J. Cleve Dean message as to have replied to it, especially since, the labor leader asserted, the White House apparently was "all in the dark" as to the identity of the sender or his capacity in official circles of organized labor.

"The White House called me Wednesday, asking if I knew this man," said Mr. Gompers. "I told him I did not and had no reason to doubt that he was an official of American labor."

"I am positive of one thing, and that is that the author of the letter to President Harding is not chairman of the railway employees public utility association."

"Mr. Gompers expressed regret that he was unable to remain in Washington yesterday while the expected conference of B. M. Jewell with President Harding and other federal representatives was in progress."

IS NOT MEMBER
OF LISBON CLUB

Representatives of the Lisbon club today denied that John Silva, who was in the district court yesterday on a charge of assault and battery upon a young woman, is, or was, a member of that organization.

"It has no affiliation whatsoever with our club," the representatives stated.

It will pay you to get The Sun classified ad. habit.

FOUR LOWELL DRIVERS LOSE LICENSES

(Special to The Sun)

BOSTON, July 28.—The registrar of motor vehicles has suspended the right of Mathias J. Meleopoulos of 174 Adams street, Lowell, to operate motor vehicles in this state, as he was convicted of operating a motor vehicle so as to endanger the lives of the public and was fined \$20 in the Lowell court.

Herbert S. Gruber of 57 Corbett street, Lowell, on May 28 in West Brookfield, is alleged to have operated a motor vehicle in an improper manner. His license to operate has been suspended.

The right of William Taft of 80 Crawford street, Lowell, to operate motor vehicles also has been suspended. He was convicted of operating a motor vehicle while under the influence of liquor, was fined \$100 and sentenced to 60 days in jail.

Max Jacob Cohen of 328 Broadway, operated a motor vehicle in an improper manner. His license to operate has been suspended.

DEATHS

CALF—Mrs. Louisa J. Calf, widow of Andrew J. Calf, died at the home of her youngest daughter, Mrs. W. F. Duffy, in Franklin, N. H., Wednesday afternoon, aged 74 years. Mrs. Calf, who for a great many years resided in this city, was born in China, Me. Feb. 13, 1848, removing with her family to Lowell as a girl. She married Andrew J. Calf, a prominent builder and contractor of this city, and from that time until about 1904 made her home in First street. She was a prominent member of the Kirk Street Congregational church and was an original member of the Middlesex Women's club. She is survived by two daughters, Mrs. Fred H. Loverin, (Charlotte), of Tilton, N. H., and Mrs. W. Frederick Duffy, (Emma May) of Franklin. Another daughter, Sarah, (Mrs. Harry A. Keep), died in 1910. There is also surviving one grandchild, Louisa C. Loverin.

GILMAN—Charles A. Gilman, a well known resident of this city, died yesterday at the Lowell General hospital, at the age of 68 years. His wife was at 59 C street. He is survived by two daughters, Miss Jeanne B. Gilman and Mrs. A. L. Gustafson; one son, Fred B. Gilman, a barber, Miss Helen Gilman, and a brother, Walter Gilman, both of Buffalo, N. Y. He was for many years employed in the Saco-Lowell shops. The body was removed to Saunders' funeral home, 217 Appleton street.

HYDE—Mrs. Addie F. Hyde, aged 65 years, a resident of Somersworth, N. H., died last evening at the home of her sister, Mrs. Dolly M. Smith, 11 Fourth street, this city, while on a visit. She is survived by her husband, Edwin E. Hyde of this city, one son, Stanley H. Hyde of Boothby Harbor, Me., three daughters, Mrs. M. J. Heald and Mrs. Ellen B. Pettiball of this city and Mrs. Emma J. Simpson of Pelham, N. H.; three brothers, George, Frank and Norman, all of Boothby Harbor, N. H.; and a granddaughter, Frances Hyde of Boothby Harbor. Mrs. Hyde was a member of the Somersworth Baptist church, Ladies auxiliary of the C. A. R., Pythian sisters of Somersworth and the Ladies auxiliary of the Railroad Trainmen of Salem, N. H.

FUNERALS

LAZARAKIS.—The funeral of Athena Lazarakis, daughter of Mr. and Mrs. Lambros Lazarakis, took place yesterday afternoon from the home of her parents, 151 Eighteenth street. Services were conducted in the Holy Trinity church by Rev. Nestor Soukalis. Burial took place in Westlawn cemetery. Arrangements were in charge of Funeral directors Joseph A. Albert.

NOBERGA.—The funeral of Arthur Noberg, son of Mr. and Mrs. Joseph Noberg, took place yesterday afternoon from the home of his parents, 151 Eighteenth street. Services were conducted in the Holy Trinity church by Rev. Nestor Soukalis. Burial took place in Westlawn cemetery. Arrangements were in charge of Funeral directors Joseph A. Albert.

PERKINS.—The funeral of John L. Perkins took place last evening from the home of his daughter, Mrs. Lester A. Werner, 12 Marlborough street. The body was forwarded to Atlantic Highlands, N. J., where services will be held at his home, 55 Third avenue, on Saturday afternoon at 2 o'clock. Burial will be in the family lot at Fairview cemetery, Fort Bank, N. J. The funeral arrangements were in charge of Undertaker James F. O'Donnell & Sons.

FUNERAL NOTICE

SMITH.—Died July 27, by accident, Fred A. Smith, Jr., aged 11 years 11 months and 21 days. Funeral services will be held at the home of his parents, Mr. and Mrs. Fred A. Smith, 100 North Main street, on Sunday afternoon at 2:30 o'clock. Friends are invited without further notice to attend the funeral. The funeral arrangements are in charge of Undertaker George W. Healey.

GILMAN.—Died in this city July 27, at the Lowell General hospital, Charles A. Gilman, aged 68 years. Funeral services will be held at his home, 59 C street, on Sunday afternoon at 2 o'clock. Burial will be in the family lot in St. Patrick's cemetery. The funeral arrangements are in charge of Undertaker O'Connell & Fay.

TO DISBAR PELLETIER IN COX APPEALS TO HOOVER U. S. SUPREME COURT

Urges Federal Authority Be
Used to Prevent Repetition
of Coal Speculation

BOSTON, July 28.—Steps seeking the disbarment of Joseph C. Pelletier from practice in the United States supreme court were taken today by Robert O. Harris, federal district attorney. Mr. Harris prepared to forward to Attorney General Daugherty of Pelletier from the United States district court, with the recommendation that Mr. Daugherty ask the supreme court to issue a disbarment decree.

NARROWLY ESCAPED
LIGHTNING BOLT

NEW YORK, July 28.—A minute after the men of the dog watch assigned to duty in the crow's nest of the Belgian steamer Sam Land climbed down from their perch today, lightning struck the foremast, crashing into the deck. The officers reported on arriving here.

NEW YORK, July 28.—Dillon, Read & Co. today announced that the public offering of \$1,815,000 of Boston & Maine R. R. 5 1/2 per cent equipment mortgage bonds had been oversubscribed. The bonds, which were due in 15 annual installments of \$121,000 each, were sold at prices to net from 5 to 5.50 per cent, according to maturity.

REQUIEM MASSES

SOLICITING FUNDS FOR AN ATTEMPT TO ATHLETIC FIELD DEBASE STATES

The committees in charge of the drive being conducted by the Lowell high school alumni are still busy forming teams from the various classes of graduates, who will act as solicitors. This work is necessarily slow, as many of the graduates are on vacations and cannot be reached. The work is progressing, however, and 20 teams representing as many classes, have been formed to date.

At headquarters in the chamber of commerce rooms, the secretaries are busy mailing a circular letter and pledge card to everyone whose name appears on the list of graduates. The work is being pushed rapidly so that the fixed quota may be raised in a short time. It is the hope of the committee that the field may be completed by the early fall so that the approaching football games could be played there.

At present, the list of subscribers to date is being tabulated and the chairman expects to be able to release the first report early next week. In the meantime the work of solicitation is going on quietly and good results are being attained each day. The drive has attracted the attention of many graduates, who are now living elsewhere, and they are sending their subscriptions by mail.

O. B. U. OFFICIALS IGNORE
COURT INJUNCTION

LAWRENCE, July 28.—Officials of the Lawrence general workers' unit of the One Big Union ignored last night that they would disregard the temporary injunction granted by Judge Waite of the superior court in Boston yesterday restraining members of the union from "threatening, intimidating or annoying" workers at the Pacific mills here, and from "congregating" the mills for the purpose of intimidation.

Den Legore, head of the One Big Union organization, here is in New York but members of his staff said they would "pay no attention" to the injunction.

At a One Big Union meeting held on Wednesday in Lawrence, S. O. Brumhall, a carpenter, who was one of the leaders in the 1912 strike here, declared the workers "would never get a square deal until the red flag rises over the stars and stripes."

"I don't care a rap for the law," this capital law, that now exists," Brumhall said. "The moment you come with the strike is because the spirit of 1912 is lacking. You should all come together and overthrow the class that is exploiting you. Until you do, your fellow workers will never get a square deal. Sing the Internationale, the greatest song on earth. Strikes are small revolutions. The moment you are they are fast leading up to the great revolution which means the overthrow of the capitalist class. Let the red flag wave around the world."

OBREGON PASSES ORISIS

MEXICO CITY, July 28.—President Obregon has now safely passed one crisis in his illness, which for a time caused his attending physicians to entertain grave fears for his life.

Quartet Indicted For First Degree Murder

NEW YORK, July 28.—Mrs. Minnie Reiser, her sons, Morris and George, and her brother, Max Katz, were indicted today for first degree murder in connection with the slaying of Mrs. Reiser's sister, Bertha Katz, whom Mrs. Reiser accused of stealing the love of her husband, "John The Barber" Reiser, sport promoter. Arraigned before County Judge McMahon the quartet entered pleas of not guilty and were remanded to Raymond street jail to await trial.

Women Opposed to Woman in Congress

NEW BEDFORD, July 28.—Even the women of the 16th district are opposed to a woman in congress, Miss Lillian F. Darcy, for five years secretary to Congressman Joseph Walsh, asserted this morning in declining to be a candidate at the republican primaries as his successor. Miss Darcy assigned this prejudice as sole reason for her refusal. Her district being anti-suffrage Miss Darcy explains that she is not surprised. But she adds defiantly after summing up the qualities that a congressman should have: "Man is not alone, however, in these characteristics."

Praying in Public Upheld

PORTLAND, Ore., July 28.—Praying in public is not an offense against the civil service, the commission ruled today in reinstating George Winters, veteran employee of the city park bureau, discharged several weeks ago because he persisted in praying aloud as a preliminary to opening his lunch pail.

WALTER E. GUYETTE Auctioneer

Office, 53 Central St., Lowell, Mass. Telephone 2415.

The Cottage Property and about three acres of land, more or less, situated on the northerly side of Pine Street in North Billerica, is hereby pledged to the highest bona fide bidders at unrestricted Public Sale on next Saturday, July 29, 1922, at 3 o'clock in the afternoon.

The house is in bungalow style, has five extra good rooms on the one floor and is supplied with hot water and hot water tank, cemented cellar, has open veranda and is in good repair inside and out. The building is comparatively new, having been constructed within the last two years.

The lot has a total area of about three acres and has a splendid street frontage. The land is level and is well laid out with a garden.

The location is handy, the property being within about four minutes' walk of the Billerica electric car line.

Pine street is on the right hand side of Gorham street, the last street Billerica enters on Sprague's bridge, going to the center of North Billerica. It is a new development within a few years, about every body owning their own home in the neighborhood and is handy to schools, churches, stores, etc.

The opportunity is herein presented to purchase at open competition a square of land, with a few acres of land that one can use as a small farm or subdivide into building lots in a fast developing home locality.

Terms—\$200 must be deposited with the auctioneer just as soon as struck off. Other terms made known at sale.

By order of

LOWELL CO-OPERATIVE BANK, MORTGAGEE.

By Charles C. Drew, Treasurer.

STILL FIRES BILLERICA HOUSE

IS HELD FOR MANSLAUGHTER

Driver of Car Which Fatally Injured Billerica Boy, in District Court

Accident Occurred Late Yesterday on Billerica-Andover Road

As the result of the death of 9-year-old Fred A. Smith, Jr. of Billerica, who sustained fatal injuries yesterday afternoon in that town when struck by an automobile, George A. Deloriers of 435 Fletcher street, the driver of the machine, appeared in district court this morning on a manslaughter charge, and which was continued until Aug. 19, pending the inquest.

The accident occurred on the Andover road, near the Congregational church in Billerica, about 4.30 p. m. It is said that young Smith, who was the son of Mr. and Mrs. Fred A. Smith of Central park, Billerica, ran from behind a dump cart immediately in front of the Deloriers machine, coming in the opposite direction. James F. O'Brien, William D. Luggan, both of this city, were in the car. The boy was rushed to St. John's hospital by Mr. Deloriers but was found to be dead upon his arrival there.

Edward J. Campbell and John J. Spillane were charged with maintaining a liquor nuisance and Campbell had a charge of illegal keeping besides. A splendid array of pint and half-pint bottles was placed on exhibition on the clerk's desk and a table nearby, to show that the officers of the liquor squad had found plenty of evidence.

Practically every officer of the squad testified, with the exception of Sergt. Winn, Officers Conney, Moore and a few others. The place where the raid was made is the near beer saloon said to be the property of Campbell, situated at the corner of South and Summer sts. Evidence of alleged sale, keeping, nuisance maintenance and many other things was given by the officers, but Judge Knight found Campbell guilty of illegal keeping and confined the sentence and his decision on the liquor nuisance charges until tomorrow morning.

Joseph L. C. Carignan, charged

WINSLOW ONE UP ON RICKER

POLAND SPRING, Me., July 28.—Dr. E. S. Winslow of Waterville was one up on Hiram Ricker, Jr., Poland Spring, at the end of the first 18 holes in the final for the Maine amateur golf championship today. The final half was to be played this afternoon.

Dr. Winslow gained his advantage on the home green, after Ricker, Jr., 1921 champion, had squared the match at the 17th. The morning run:

Out—
Ricker, Jr. 5 5 5 4 5 3 4 4 5—40
Winslow 6 6 5 5 5 4 4 4 5—43

In—
Ricker, Jr. 4 7 6 4 4 5 6 5—45
Winslow 3 6 4 4 5 4 4 4—38

SHOTS FIRED BY SENTRIES

CONCORD, N. H., July 28.—Military authorities here today confirmed the shooting at the Boston & Maine shops here late last night was by national guard sentries and that they were fired when a man sighted near the enclosure refused to halt when twice ordered to do so. The sentries were not fired on. The shots had no effect.

Mayor Flares Back at Murphy On Asphalt Contract and Employment of Labor

MAYOR SENDS ANOTHER LETTER

Continues Controversy With Public Service Board Over Asphalt and Labor

Reiterates That He Has Never Favored Contract Labor For Lowell

Mayor George H. Brown today continued the controversy with the board of public service, relative to the employment of labor in the department of streets and the awarding of a contract for asphalt pavement, by the preparation of a letter to Hon. Dennis J. Murphy, chairman of the board, in which he reiterates that he is opposed to labor by contract and adds, that, at no time did he state to Lowell papers that "I favored any contract labor on the streets of Lowell."

The letter today resulted directly from the action taken by the board of public service last night, when it refused two statements made by His Honor in letters previously addressed to the chairman, Mr. Murphy.

Today's letter follows:

Lowell, Mass., July 28, 1922.
Hon. Dennis J. Murphy, Chairman,
Board of Public Service,
Lowell, Mass.

Dear Sir:

I have read with interest and some sense of amusement the character-

RIVAL UNIONS CLASH AT HAVERHILL

HAVERHILL, July 28.—The walkout of the 700 employees of the J. H. Winchell & Co., Inc. shoe manufacturers, yesterday, in protest of a wage reduction granted by the state board of arbitration, has become a battle between rival unions.

Today 400 of the Winchell crew, organized by the Boot & Shoe Workers' union, voted to secede and join the Shoe Workers' Protective union.

That the Boot & Shoe Workers' union will not surrender without a battle was indicated in the announcement by Percy A. Duce, agent of the union, that means and funds of the national organization will be placed at the disposal of local officials.

General officers of the Boot & Shoe and members of the Winchell firm today came to an agreement whereby the old scale of wages will be paid and strikers have been given until Monday at 10 o'clock to return to work.

ATTITUDE OF MAYOR JULY 3

Made Statement Favoring Proposal of Framingham Construction Co.

Said "Board Has My Permission to Contract for Asphalt Work"

On Monday, July 3, Mayor Brown told newspaper men that he had received a proposal for asphalt work from the Framingham Construction Co. at a cost of approximately \$1.10 per square yard, for a two-inch surface, the mixture to be used being commonly known as Topeka.

The mayor stated that the proposal had been turned over to the city engineer for the purpose of obtaining more detailed information concerning it.

In making this announcement the mayor also made the following statement, which is quoted from the issue of The Sun, under date of July 3:

"The board has my permission to contract with the Framingham Co. for some of this asphalt work. I do not think it would be a very large contract, but one or two small jobs might be selected so that the merit of the work might be judged."

MR. HARRIS IGNORANT OF STRIKEBREAKING

Relative to a statement on the part of the local textile strike committee that high school boys and girls are being employed as strikebreakers at the Massachusetts mills, Principal Henry H. Harris of the school stated this morning that all he knows is what he read in The Sun last evening. "If it is true that students of the high school are employed at the Massachusetts mills, we cannot interfere," he said. "For after they leave school in June, they are in the care of their respective parents or guardians and during the entire vacation season we have no jurisdiction over them."

Commenting upon a statement accredited to Agent Mitchell in a local newspaper to the effect that 1500 operatives are now employed at the mill, John Hanley today asked where they all come from. "When the wage reduction was announced," he said, "Agent Mitchell stated to the press that his mill was operating with 60

EMBARGOES ON THREE ROADS

Coal Carrying Roads to Handle Only Foodstuffs, Livestock and Fuel

To Conserve All Equipment and Facilities for Transportation of Coal

(By the Associated Press)

Ohio and Illinois had appointed state fuel administrators to deal with the coal situation.

Colorado fair price commission announces a fair maximum price of lump coal from lignite fields at \$3.90 a ton.

A decision as to whether Indiana coal operators would participate in a conference for the central competitive fields is expected at a conference between operators and Gov. McCray.

One hundred and fifty Colorado guardsmen relieved of active guard duty.

Five governors sent assurances to Secretary Hoover that his anti-striking plan for retail coal would receive every aid. Governor Morrison of North Carolina asserted the government was encroaching on state rights.

Violence reported from coal fields of Kentucky and Pennsylvania.

Embargoes Declared

WASHINGTON, July 28.—(By the Associated Press).—Three coal carrying roads, the Norfolk & Western, Chesapeake & Ohio and Louisville & Nashville, have declared embargoes over their lines against the acceptance of any freight except foodstuffs, livestock and fuel. The actions were taken after the interstate commerce commission declaration of an emergency which authorized roads embargoes to show private establishments priority in transportation.

The object of the embargoes is to conserve all the equipment and facilities of the three carriers for the transportation of coal. The roads serve the non-union bituminous mining areas south of the Ohio river which have furnished most of the country's coal output since April 1, when the miners struck in all the unionized fields and officials have declared that the danger to their lines indicated railroad unions working with the miners to stop production of soft coal.

The embargo had been carrying record-breaking quantities of coal until the shippers went out, after which their tonnage was immediately cut in half.

The Louisville & Nashville lines serve Kentucky coal fields which have been the principal source of coal supply since the strike for Ohio and other coal fields west of the Ohio river.

Management of the roads notified the commerce commission that they would modify the embargo orders as rapidly as conditions permitted.

Working To End Coal Strike

PHILADELPHIA, July 28.—Frank Farrington, president of the Illinois Miners, has been summoned to Philadelphia for a conference with John L. Lewis, international president of the United Mine Workers, and will arrive here tomorrow.

His presence will complete the representation here of the district president of the central competitive soft coal fields, the others from Indiana, Ohio and western Pennsylvania, having been in Philadelphia in consultation with Mr. Lewis for two days.

President Lewis today reiterated that he had every reason to believe that an intermediate joint conference will be called within a few days. He said that powerful influences are at work to end the soft coal strike.

A call for a wage conference of the four states comprising the central competitive fields will not automatically end the strike, Mr. Lewis said. The men would remain out until the conference reached a decision which, Mr. Lewis said, would not take long. The operators know, Mr. Lewis added, that the miners will not take a reduction, and if the mine owners go into a conference they will do so with that understanding.

Carl Young of Lansing, Mich., commissioner of labor of Michigan, and Perry J. Ward, Detroit, his deputy, requested Mr. Lewis today to permit the production of coal in that state for state and municipal purposes and necessary public utilities, such as gas and water works.

Takes Issue With Harding

LANSING, Mich., July 28.—Gov. Groesbeck today took sharp issue with a letter from President Harding declaring in effect that the federal government was powerless to interfere with the attitude of the United Mine Workers of America toward independent local agreements.

The letter, dated July 27, stated that nothing could be done, except to enable men willing to work to work in safety and that the big issue in the coal strike dispute was national dictation. "Unhappily assumed by the mine workers which must be taken away by legislation," he said.

Replying to the letter, Gov. Groesbeck (Continued to page eighteen)

Three Proposals For Immediate Ending of Rail Walkout Submitted By Pres. Harding

Liquor Seized Just As Still Sets Fire to House In Billerica

Led by Chief W. D. Livingston of the Billerica police, a squad of officers of the town made a large liquor seizure today when, in a house on the Salem road, near the car shops, a 150-gallon still, 50 gallons of moonshine and 1500 gallons of mash, along with other necessary apparatus was discovered. No arrest has been made yet but it is expected that one will follow in a short time. Incidentally, the still set fire to the house just as the officers were about to enter. The fire kept the town firemen busy for some time. The raiding officers were Chief Livingston, Officers O'Brien, O'Connor, White and Wright.

PUBLIC SERVICE BOARD REFUTES TWO CHARGES OF MAYOR

Says Asphalt Paving Now Under Consideration Is Just What His Honor Favored Less Than Month Ago—Does Not Mean Contract Labor, Board Declares—New Men Being Employed on Streets Are Only Temporary Laborers

After a rapid hearing of petitions from various Lowell citizens in the aldermanic chamber at city hall last night, the board of public service adjourned to the office of City Engineer Stephen Kearney, where it went into regular session.

Of paramount importance was a re-valuation of the recent charges made against the board by Mayor Brown, to the effect that it was recording itself in favor of contract labor by sending to the mayor's office, a requisition calling for bids for furnishing and laying sheet asphalt. The board replied to this charge by sending a communication to the mayor, emphatically stating that city labor would do 50 per cent of the work under the proposed contract and that outside labor only would be required where conditions warranted the employment of experts.

WAR ON LIQUOR SMUGGLING

Former Sub Chaser Joins in Campaign Against Rum-Running on Border

Airplanes, Sub Chasers and Cutters to Patrol the St. Lawrence River

OGDENSBURG, N. Y., July 28.—The former submarine chaser C-433 arrived here today to aid in the war against liquor smuggling from the Canadian side of the border.

Officially, the campaign against rum-running will be pressed vigorously with naval craft, coast guard cutters, airplanes, armed cars and high power motor trucks.

Two powerful trucks, part of a fleet of 48, to be sent to northern New York, already are here. Each will carry government agents armed with rifles and revolvers and will operate in this customs district, being used chiefly to blockade the highways when word is received that a cargo of contraband has left the border bound south.

Airplane, submarine chasers and coast guard cutters are to patrol the St. Lawrence river, which in the past has been the highway for the liquor smugglers.

SHOPMEN MAY SOON RETURN

Three Proposals Drafted by Harding to Be Submitted to Both Sides

R. R. Executives to Consider Proposals at New York Meeting Tuesday

Employees' Conference to Be Called in Chicago by B. M. Jewell

(By the Associated Press.)

Three proposals for settlement of the railroad strike, hinging on the seniority question, reported to have been made by President Harding.

Executives of 46 railroads will meet in New York, Tuesday, supposedly to discuss the president's peace plans.

Strike leaders said to be preparing for a meeting in Chicago for the same purpose.

Reports from all sections indicate increase in acts of violence.

Union officials declare men prepared "to fight to a finish" despite fact no strike benefits are being paid.

B. M. Jewell, his executive council and Timothy H. Harty, departure from Washington, indicating further conferences with President Harding.

There were indications from various sources close to the two parties to the strike that leaders of the shopmen had manifested an inclination to accept the president's plan in main and that representatives of the executives considered it unsatisfactory in principle. Final decision, however, will rest with conferences of the two groups.

30 Strikebreakers Disappeared

CHICAGO, July 28.—Thirty negro laborers employed to replace strikers at Milwaukee, Wis., disappeared at midnight after a crowd of 200 opened fire, according to Otto F. Baumann, chief of guards.

"The attackers," he said, "broke in to the bunk cars and wrecked the interiors. The frightened negroes jumped out of the car windows and scattered to the four winds."

Women at Janesville, Wis., attacked the roundhouse of the Chicago, Mill,waukee & St. Paul road, last night, and threw stones at the windows. Late in the night a crowd of strikers gathered, and pummeled three men who, with seven others, attempted to flee from company camp cars when the women began their bombardment of stones.

Three Proposals

WASHINGTON, July 28.—(By the Associated Press).—Three proposals for immediate ending of the railroad strike have been submitted to representatives of the railroad executives and labor unions by President Harding according to information obtained today from administration advisers who talked with the executive.

The three proposals, all hinging on various plans for adjusting the employees' seniority rights, will be submitted in New York Tuesday and to an employees' conference in Chicago to be arranged by B. M. Jewell, the shopmen's leader.

Outside railroad contracting, it was said, would be abandoned by the railroad men.

Criminals in Novel Commencement

BOSTON, July 28.—Convicted criminals, some of whom are destined to spend the rest of their lives behind prison walls, formed the graduating class at novel commencement exercises when 109 members of the Americanization class graduated at the state prison here. Half a dozen murderers were among those who recited original poems, contributed readings, or played in the prison orchestra.

To Move From Faneuil Hall Market

BOSTON, July 28.—The city's historic fruit and vegetable market district in the vicinity of Faneuil Hall, will be moved to a new market terminal at South Boston, if plans announced today materialize. Thirty-two wholesalers have filed applications for a charter for the Boston Market Terminal Co. Under the plan the state would build a large plant near the Fish Pier which would be leased to the market men. Congestion in the old district is said to cause delay in moving and consequent spoiling of great quantity of perishable fruits and vegetables each year.

Public Service Board

Continued

The board also informed the mayor that early in July he had publicly approved of the contract for on which the present board is now seeking bids.

Temporary Men Hired

A further communication from the mayor conveyed the charge that too many new men are being hired by the board, in consequence of which the street department payroll for the present week is one of the highest in years. The board directed City Engineer Kearney to notify the mayor

that not one new permanent hand been added to the payroll of the street department since the board assumed office last January, and that only four new temporary men had secured work since the compilation of the payroll of the previous week up to and including the time the present week's roll was brought to the attention of the mayor. During the past three weeks, but 17 men were placed in positions, while during the 10 day regime of the temporary board appointed by the mayor, 27 men were put to work.

The Mayor's Letter

The letter of the mayor regarding

the employment of contract labor, and read at the meeting last night by Chairman Denis J. Murphy, is as follows:

Lowell, Mass., July 27, 1922.
Board of Public Service, Lowell, Mass.
Gentlemen:—Under date of July 24th a requisition signed by Denis J. Murphy, Fred O. Leary, Stephen Kearney and H. P. Doherty was filed with the purchasing agent and had been submitted to me. This requisition is a call for bids of furnishing, applied on the streets, approximately 1000 tons of asphalt at per specification.

If I figure this correctly it would mean about 8000 yards. Regardless of the amount, this requisition clearly signifies to me your intention to employ contract labor on the streets of Lowell.

This can never be done as long as I am mayor. I believe Lowell labor must be for Lowell citizens as far as is reasonably possible and I oppose all contract labor on our streets, on the ground that experience has shown it is not economy. It deprives Lowell men of labor and consequent wages and much of the contract work done in Lowell in the past has been open to grave suspicion.

I deem it my duty to inform your board that I shall exert every bit of my influence to prevent you or any other department from bringing in contract labor to do the work of the city of Lowell.

Respectfully yours,

GEORGE H. BROWN,

Mayor of Lowell.

The reading of the letter concluded, Mr. Kearney was designated by the chairman to procure the records of the July 7 meeting of the mayor's temporary board. Mr. Murphy then read an extract from the board's meeting on that day, dealing with the presence of Chester Williams, treasurer of the Fitchburg Construction Co., and the mutual agreement that the latter submit a contract for asphalt at a given price per ton laid. Mr. Kearney was then asked by the chairman what work men of the street department would do under the contract mentioned in the present board's call for bids. The city engineer replied that men of this department would do all the excavating work with the exception of makers, tappers and rollers, who would be employed by the contractor.

Not Contract Labor

It was decided by vote to place the

mayor's letter on file and to properly notify him that the requisition he has in his office and which he has refused to approve, is according to requisitions he made himself early in July. It was also voted that the mayor be informed that 90 per cent. of this work will be done by city employees and that expert services will be required for the remaining 10 per cent. The board accepted the recommendation of the mayor that as much city labor be employed as possible.

The concluding sentence of the vote of the board says: "We shall endeavor with Your Honor's approval, to lay asphalt, if any is to be laid in Lowell, according to your suggestions made in the early part of July."

Murphy Produces Figures

With regard to a second communication from the mayor anent the placing of new men on the payroll, Mr. Murphy produced the figures and statistics of the department, showing that during the week of July 24, the street department had 471 men in its employ and that during the week of July 1-5 were employed and on July 5, an additional 5 men were on the payroll. The figures on July 16 had jumped to 504 men and on July 22 to 505. From this last data up to the time the board's attention was called to the matter by the budget and auditing commission, only four new temporary men had been put to work. It was voted to inform the mayor of this condition.

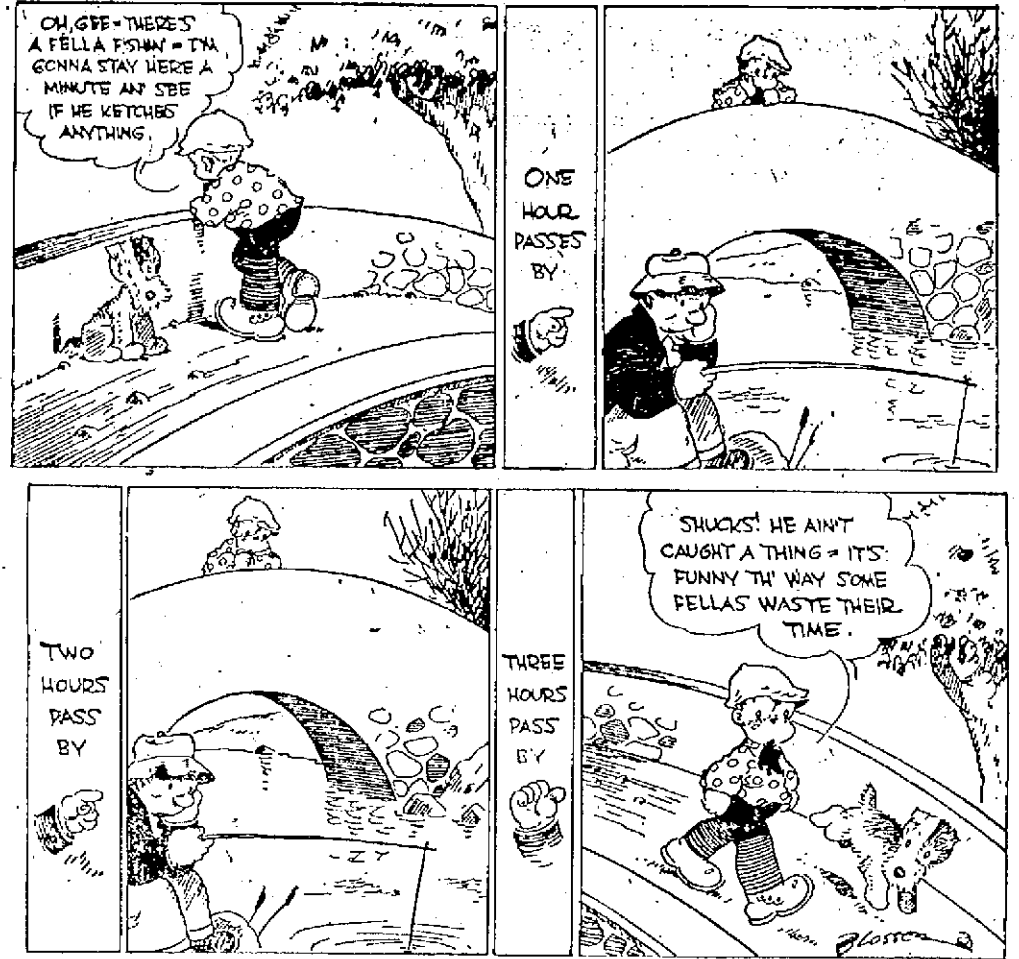

It was further voted to inform the mayor that the June 24 payroll for the street department was \$5370.35. For July 1 it was \$6342.50; for July 2, \$6231.55; for July 15, \$6013.97, and for July 22, \$6105.81.

Appropriations Discussed

A letter from the budget and auditing commission calling the board's attention to the fact that the ash collection department was running in excess of its appropriation by \$500 monthly, and that the street maintenance appropriation had been exceeded by \$57,676 was received.

The employment of Sutton Wilson by the mayor, was given as the reason by the chairman that the ash department appropriation had been exceeded. Mr. Wilson has collected about \$1200 from the appropriation since the beginning of the year. As to street maintenance, the matter of that appropriation had been discussed several

These previously with the city engineer, who informed the board that there will be an average monthly transfer of \$10,000 for loans to the maintenance fund until early in September. At that time, explained Mr. Murphy, it will be imperative to disburse with a number of men now employed. Only temporary city service men will be allowed to work and these only for a period of six months.

It was unanimously voted to authorize the city engineer to prepare specifications for repair work on the surface of Central bridge and to call for bids in the near future.

New Loop Trucks Approved

The petition of the Eastern Massachusetts Street Railway company for an extension of its tracks through Brookings and French streets in preparation for the new loop through bridge, bridge, French and Brookings streets, was approved and an order to that effect will be introduced in the city council.

Petitions Granted

By vote of the board, the petitions of the following were approved: Arthur M. Kane, Charles T. Kilpa-

trick, Wilfred Larson, E. M. Kiltredge, Edmund Demers, Arthur B. McLaughlin, Martin J. Roddy, Napoleon Sicard, Mrs. Clinton, James J. Norton, J. A. Gardner, George McKee, Thomas F. Hennessy, Frank J. Healy, Frank C. Gilbert and Robert Mole. The petition of Abel R. Campbell for a street light was approved, but his sewer petition was referred to another hearing when estimates will be furnished. The same happened to the petitions of John Sullivan, Andrew P. Kule and Mary Smith. Leave to withdraw was granted, the petition of Philip McLaughlin and the Lowell Electric company for a pole on Myrtle street. That the street car tracks on the Alkon street bridge be removed, on the petition of Timothy O'Neill et al. was referred to the city engineer.

For the installation of seven electric lights at the pumping station in West Sixth street, the low bidder was Fred Carragher, whose bid was \$257. Other bids were as follows: Ernest W. Hood, \$312; Hartley and Kelleher, \$330 and C. H. May, \$352.

A letter from Thomas Lees of the Eastern Massachusetts Street Railway company relative to the covering of

the company's tracks on First street with macadam by the street department, was also referred to the city engineer, who was instructed to have the situation remedied as soon as possible.

White Way in Dutton Street

A petition from the Lowell R. of C. by John E. Hart, grand knight, for the erection or extension of the white way system through Dutton street, was referred to the city council.

A letter was received from City Clerk Stephen Flynn, notifying the members of the board to appear at the next meeting of the city council with information concerning the recent purchase of Packard trucks. The board voted to do as requested.

Garrett Royal and Patrick J. Brown were elected permanent foremen in the street department, having been duly certified by the civil service commission. This commission informed the board that 13 men were illegally employed in various city departments and requested that definite action be taken on the matter. Action will be taken at the next meeting of the board which will be held Thursday, August 3, at 7.30 p. m.

CASTLES OF SAND

Wonderful ones with trimmings of pebbles and shells—one can make them so much better if one wears a bathing suit such as I saw in the Little Grey Shops at \$2.98.

MOTHER, MAY I GO OUT TO SWIM?

"Yes, my Darling Daughter!" "Then I shall wear my Jersey suit for I'm going in the water." If you are one of the girls who walk along the beach and take a sun bath, or if you prefer to swim a little and take a real sea bath, we have just the bathing suit you want. Suits of all descriptions, second floor.

ORANGE BLOSSOM TIME

Soon the Brides of September and October will smile at us—that happy smile that only a Bride can give. Brides mean showers, and showers mean gifts. Our Gift Shop on the second floor is a delightful spot. It is an individual shop where we have gathered merchandise of the unusual and distinctive sort such as one seeks for gifts.

DREAMS COME TRUE.

Every bride's fondest dream is a little home of her own. Make her dream come true by buying your furniture from the Alherton Furniture Company associated with Chalfoux's—fourth floor. Terms to suit your convenience.

NEXT DOOR NEIGHBOR.

To the Gift Shop that we spoke of a short while ago is the Children's Hair Cutting Shop on the second floor where mothers may have their children's hair cut in a shop of most modern and sanitary equipment by a barber who is an acknowledged expert in the difficult art of children's hair cutting.

THE QUEEN OF SHEBA

Had she known of their sheeny splendor and gorgeous coloring, would have coveted for her collection some of the marvelous silks that women today enthrall over covet and possess. Our silk shop on the street floor has a complete line of the season's most wanted materials including crepe knit, crepe de chine, Skinner's satin, Pussy Willow taffeta and satin.

BOY OF MINE

How is it you wear your trousers out so quickly? Next time you go to buy you one of those two-pant suits that Chalfoux's Boys Store advertises. And by the way, if you are a real good boy, I'll buy you a Baseball suit—pants, shirt, belt and cap, complete—But remember what I said about being good!

LIKE THE FIRST SPRING FLOWER

Peeping from the dull earth are the gay colored kerchiefs that lady tucks noticeably in her sports sweater. Of linen, in blue, rose, tan, orchid, etc.—and they are so reasonable—50c for three.

"LISTENING IN"

Supposing someone invited you to come over and listen in on their radio set and all the messages were transmitted in code. That wouldn't be half as interesting as listening in and hearing music, songs, and lectures by the human voice. Now if you to your own sewing why select a pattern that relies on dots and dashes for instructions. Why not select a pattern that is printed in plain English and so thoroughly understandable that a child can understand it.

SAVE YOUR PENNIES

By shopping on The Thoroughfare on the second floor. Talk about bargains! My goodness, there are all sorts of bargains to be found on this busy floor every day of the week. One day it's blouses, the next day undermuslins, then corsets and then millinery. Better form the habit of shopping "On the Thoroughfare." You'll find it means money saved.

I ALMOST FORGOT

To tell you about our Curtain Shop. It is really the most complete and best equipped shop of its kind in the city. We actually manufacture our own curtains and sell them direct from factory to you, saving you the manufacturers' and jobbers' profits and expenses. I just wish I could tell you all the people who have ordered us to make their slip covers to put over their furniture during the vacation period. And we make overdraperies, couch covers, bed sets, table runners, and portieres. The sales staff includes professional decorators, any of whom will gladly give you any advice you want.

IN CLOSING

I would like to tell you about something I discovered in the Basement this morning. You know our Housewares Department is in the basement now—moved from the fifth floor. This morning I was down looking for "something new." I saw some dandy shower sprays. One can attach them to the bath tub faucet, they have a long rubber tube, and the spray is really very fine. And just think, they cost but 40c.

STATE POLITICS AND CANDIDATES

Col. Gaston Declares Against Towner-Sterling Bill in Campaign Speech

Characterizing the Towner-Sterling bill as a huge and unnecessary financial burden on the nation, Col. William A. Gaston, candidate for the United States senatorship on the democratic ticket, in addressing a large gathering at the headquarters of the Jeffersonian club campaign committee in the Mason building, Boston, yesterday, said he had been asked to state his views in reference to this measure. He said, in part:

"I am opposed to the Towner-Sterling bill and, if elected, will vote against it because I am convinced that if enacted, it will put on the nation a huge and unnecessary financial burden, and its principal result will be to directly increase the power of the

governmental representatives of education. The bill admits the failure of states and localities to cope with their educational problems, and puts the burden of the cost of reform on the communities which are already educating their own children. I believe this is a wrong principle. The objection can be stated moderately that the authors of this measure have obviously fallen into the belief, born to a large extent in all of us by the war, that it will be possible at one stroke, disregarding expense and taxes, to remedy all the outstanding defects in our national educational system.

"In my own sincere opinion the creation of this proposed new educational bureau would do incalculable harm to education and kill all incentive for state work, so that in the end our last state would be worse than our first. It implies that the state or the nation has rights in the child prior to the parent. In the words of a group of national organizations opposing this measure, it will give a political administration the opportunity of creating an educational bureaucracy which will endanger the liberty of thought and information, which is the basic right of the people.

"I do not assert or believe that the reasons actuating the minds of the proponents of this measure were not based on justifiable complaints against the neglect of certain sections to provide the educational basis necessary for the United States to accomplish its full moral and political stature. The proposed bill admits the failure of states and localities to cope with their own educational authority, but it taken away from these same states the power incentive to remedy their own defects.

"It is wrong in principle. It would be destructive in its financial cost, and the creation of a new and unlimited automatic power over the coming generation would be abhorrent to the ideals of a self-respecting people.

"For these reasons I am opposed to the passage of the Towner-Sterling bill."

Another Cambridge candidate has tossed his hat into the political arena as a candidate for the office of district attorney. Attorney James P. Brennan yesterday announced his candidacy. In his announcement he makes the following statement:

"The importance of the office of district attorney has been forcibly brought to the minds of the people during the past year and it has been

shown that the security of the people depends on the honest administration of the office."

Mr. Brennan, who is one of the younger trial attorneys of the county, was formerly associated with Warren, Garfield, Whitestone & Lamson of Boston.

PAPERS FOR O'LEARY

BOSTON, July 28.—Women of the democratic state committee yesterday afternoon took out nomination papers for Lieutenant governor for Michael A. O'Leary of 1651 Beacon street, Brookline. Mr. O'Leary is a past chairman of the democratic state committee, which office he held for seven years, and at present is interested in the moving picture business.

Teething, rash, prickly heat, chafing—these are a few of the trying skin ills which make baby fretful and keep anxious mothers busy trying to soothe the torment.

RESINOL OINTMENT is the very thing to give quick relief. Try it and note how soon baby's fretful crying stops as this gentle, cooling ointment reduces the itching and burning.

Gives Blood in Attempt to Save Admiral

MANILA, P. I., July 28.—(By the Associated Press)—Sergeant Andrew H. Penlang of Corpus Christi, Tex., stationed with the medical detachment here, gave more than 10 ounces of blood in a transfusion operation in an attempt to save the life of Admiral John S. Dumaresq of the British navy, it was announced at army headquarters here today. Penlang was thanked by British Consul General Harrington.

Doctor Killed in 300 Foot Fall From Cliff

GLACIER PARK, Mont., July 28.—Hours of persistent work last night in the fastness of Mount Siyeh in Glacier National Park, resulted in the recovery of the body of Dr. Frank B. Wynn of Indianapolis, killed yesterday in a 300 foot fall from a cliff near the mountain's summit. The ledge upon which the body lodged was almost inaccessible, necessitating slow work. Dr. Wynn was president of the American Alpine club, and one of America's foremost mountain climbers.

BIG AMERICAN DEMAND FOR BRITISH COAL

LONDON, July 28.—(By the Associated Press)—The persistent American demand accompanied by increased prices and freight rates continues to be the feature of the British coal industry.

The biggest American order yesterday at Newcastle was for 55,000 tons, made by an American railroad company, but it is believed all available supplies for August already have been taken and that immediate delivery is impossible.

Canada also is seeking supplies while the European demand is continuing unabated. German state railroads have placed a contract for 100,000 tons in northern fields for shipment in September, October and November.

Ship owners are harvesting big freight rates, which in some cases have reached 16 shillings per ton. It was stated in British shipping circles today that there are plenty of late ships in British, Scandinavian and Spanish ports which will be able in a short time, to easily beat any American tonnage that may be sent across. The demand for Welsh coal is increasing daily, and prices are quickly reacting accordingly. Best Admiralty coal which was 25 shillings per ton last week, is now quoted at 35, while freight rates have gone up from seven shillings, six pence to 17 shillings per ton. With the exception of one Welsh district the miners are nowhere reported to be disinclined to continue working to fill the American demand or disposed to take any action in the interests of the American strikers.

\$100,000 TO BOOST NEW HAMPSHIRE

PORTSMOUTH, N. H., July 28.—The expenditure of a \$100,000 fund to advertise the state of New Hampshire was voted at yesterday's convention of the chamber of commerce and boards of trade of New Hampshire here. State taxation, publicity and the New England railroad consolidation question were discussed by a number of speakers.

TRAFFIC OFFICERS FINED

Two Convicted of Drunkenness in Concord, Mass., District Court

CONCORD, July 28.—Michael McGinn and Frank Murray, two special police officers of Bedford, who on last Sunday were assigned to traffic duty at the section of the North road which is being rebuilt, were in district court yesterday, charged with drunkenness and were fined \$15 each. Complaints regarding the actions of the pair reached Chief Dexter and Special Officer Jones went to North road to investigate. The arrest of the two officers followed.

RUM-RUNNER KILLED IN BATTLE WITH OFFICERS

LOUISVILLE, Ky., July 28.—Ten federal agents, acting on anonymous tips, encountered four liquor runners leaving a distillery near the business district early today with a truck laden with 25 barrels of whiskey, killed one man, probably fatally wounded another, and arrested one. The fourth man escaped.

The man killed was Harry Baker, former lieutenant of police, recently discharged.

The rum-runners drove their truck into the federal agents' automobile and opened fire.

FISH AND GAME MEN PLAN OUTING

A meeting of the executive committee of the Lowell Fish and Game association will be held next Thursday evening in the office of the president, Dr. C. B. Livingston, for the purpose of completing arrangements for the annual outing of the association, which will be held at Willow Dale on Thursday afternoon, Sept. 21.

At a recent meeting of the organization it was voted to give the executive board full charge of the event and everything possible is being done to make this year's event the best in the history of the association. The program as usual will consist of an

automobile parade through the principal streets of the city at noon, sports and other amusements which will include trap shooting on the grounds and dinner followed by addresses by prominent speakers. Congressman John Jacob Rogers has signified his intention of attending the outing and it is also expected that Hon. John B. Burnham, an honorary member of the association, and president of the American Game Protective association, will be in attendance.

It will pay you to get The Sun classified adv. habit.

Allen Claims to End Rheumatism

ALLENRUH relieves at once. One
bottle—a full pint—will show you
the way to complete recovery or your
druggist will gladly return your money.
Immediately after you start to take
it the good work begins. It searches
out the uric acid deposits, dissolves
the secretions and drives rheumatic
poison out of the body through the
kidneys and bowels.
It's marvelous how quickly it acts.
Blessed relief often comes in two
days, and even in cases where the suf-
fering is most painful all traces dis-
appear in a week.
Mr. James H. Allen, of Congress ave-
nue, Rochester, N. Y., the discoverer of
ALLENRUH, who for many years suf-
fered the torments of acute rheuma-
tism, desires all sufferers to know
that he does not want a cent for any-
one's money unless ALLENRUH shows
immediate results, and he has instructed
druggists to guarantee one full
pint bottle in every instance. Dows
Druggist, and Fred Howard can sup-
ply you.—Adv.

Seniority of Men Discussed

Continued
tion to deprive men of seniority rights,
because of suspension of work, is ut-
terly indefensible if the facts are un-
derstood. Seniority rights involve,
principally, the right of the senior em-
ployee to be the last laid off, and prefer-
ence in selection for vacancies in
preferable jobs.

The first right is of great impor-
tance and has a large community value.
It results in encouraging permanent
employment, the building of homes and
the making of useful citizens. The
railway employees, as a group, are
steady workers. They will average be-

tween 10 and 25 years in continuous
service. Having increasing certainty
of permanent employment, the longer
they remain in service, they are en-
couraged to buy homes and to estab-
lish themselves in community activities
with assurance of continuous livelihood.
To deprive hundreds of thousands of
men of these rights and of their as-
sured positions would be a sweeping
injustice, unparalleled in modern in-
dustry. It would operate so that in the
event of reducing forces the railroads
would be permitted to discharge the
senior and most competent employees
and to retain men engaged for only a
short time in transportation service.

In fact, the railroads would for
their own good retain the senior and
more efficient employees, except that
with seniority rights destroyed, their
positions would be insecure and the
roads would be able to weed out those
workers most active in the protection
of rights of their fellow employees.
That is the sole purpose of the rail-
roads' insistence on the destruction of
seniority rights. They would be able
then to punish the more dependent,

ANNUAL JULY TAILORING SALE

There's a Reason.

forceful workers and to intimidate
their fellow workers, breaking down
the spirit of free labor, one of the most
valuable qualities of Americanism.
The purpose of destroying seniority
rights is a vicious attack on the right
of men to refuse to work under non-
acceptable conditions. Abraham Lin-
coln, as president of the United States,
declared: "I am glad that a system of

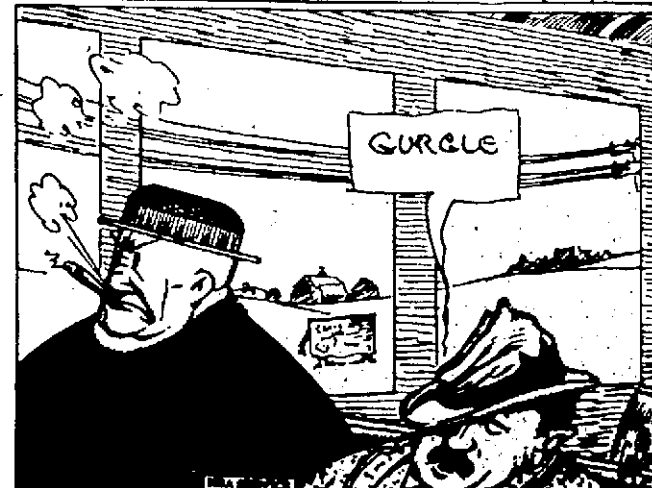

labor prevails, under which laborers
can strike when they want to." The
strike is the last resort of any in-
dustrial man, depending upon his labor
for the support of himself and his de-
pendents. There has not been a strike
upon the American railways of the
proportion of the present one in a
generation. Yet the railway workers
for 20 years prior to the war suffered

increasing hardships from low wages,
and rising costs of living. Recently
they have been compelled in great
numbers to suspend work to prevent
the imposition of inadequate wages
and unfair working conditions and to
stop the aggressions of organized em-
ployees in its drive to degrade the
workers' standard of living, and to
destroy his organizations of self-
protection. If the railway executives
insist upon using this suspension of
work, which they forced upon the em-
ployees, as an excuse for depriving
them of the fruits of life-long, con-
tinuous, faithful service, they will
only give further evidence of the ab-
solute necessity for the organized em-
ployees to fight to the last ditch the
conspiracy against their fundamental
rights and the general welfare of all
men who live by labor."

Cross Country Tourist Keeps in Touch With Outside World By Radio Set

The first cross-country motor trip with a radio receiving set is claimed by C. A. Santmyer of Reading, Pa. Santmyer is a motor and radio fan. So when he got time for a vacation, he decided to combine both his pleasures in one. He equipped his coupe with a radio receiving set and is now on his way to the Pacific coast. No matter where he is he can keep in communication with the outside world. In the picture, Santmyer is shown alongside his radio-equipped motor car.

NEW RADIO DEVICE

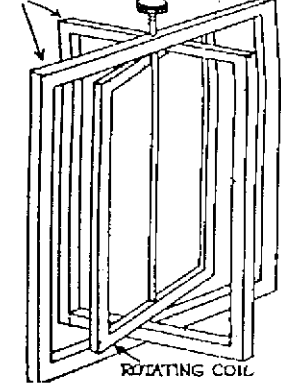

Goniometer Measures Angles and Tells Direction of Sounds

BY PAUL F. GODLEY
America's Foremost Radio Authority.

Did you ever hear of a "goniometer"—a device which measures angles? In radio, it consists of a combination of coils, which when properly connected to a suitable receiving antenna, enables the operator to measure the angle from which the radio signal comes.

It is a direction finder—although the term "goniometer" is applied only to that instrument in the operating room.

FIXED COILS

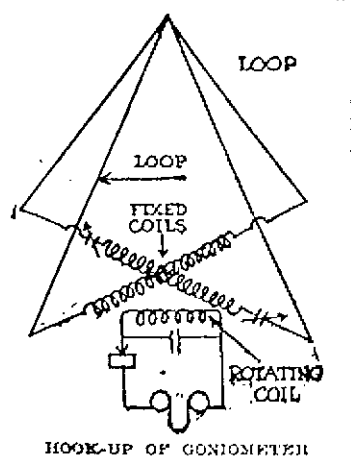

THE RADIO GONIOMETER

which is adjusted in making the determination. As usually constructed, it consists of two coils of equal dimensions which are so fixed with respect to each other, that their magnetic fields are at right angles. Within these coils revolves a third.

Operation
The two fixed coils are connected respectively to two fixed loop or coil antennae, which are also supported in such way that their magnetic fields are at right angles to each other. Due to the directive characteristics of the coil antennae, signals which originate at points lying in the plane of one of them will set up signal currents in that one only—and not in the other.

If the revolving coil of the goniometer is then rotated, maximum

signal will be produced in the receiver connected to it, only when the revolving coil is parallel to that fixed coil carrying the signal.

If the message should originate at a point midway between the planes of the two coil antennae, equal currents will be generated in both and the fixed coils of the goniometer will carry equal signal currents. Under these circumstances, a maximum signal would be had in the revolving coil of the goniometer when it is in a position midway between the two fixed coils.

Benefits
With this system it is possible to closely approximate the direction of any transmitting station. Since the coil antennae are fixed, this arrangement can conveniently

cover a much larger area than it would if the loop were rotated. The rotating loop, however, will give good results in the determination of direction when properly installed and calibrated.

Radio Broadcasts

Below is given today's radio broadcast programs for the following stations: Station WGL, Medford Hills; WAAJ, Boston; WJZ, Springfield, Mass.; WGV, Schenectady; WJZ, Newark; KDKA, Pittsburgh; and KYW, Chicago.

STATION WGL, MEDFORD HILLSIDE

3.30 p. m.—Music and talks as announced by radio.

7.30 p. m.—Baseball scores and late news.

7.45 p. m.—Boston police reports.

8 p. m.—"The New Mode in Hair-dressing."

8.15 p. m.—"Vaccination," by Henry D. Nunn.

8.25 p. m.—Song recital by James C. Bell, tenor, accompanied by Mrs. James C. Bell.

8.45 p. m.—Dan Sullivan's society orchestra; Dan Sullivan, Jr., pianist and director; Francis Sullivan, banjo; Bob Woodworth, banjo; Laura Kling, saxophone and violin; Jack Reid, saxophone; Capt. Palmer, trumpet; and Dick Johnson, drums. Miss Katharine H. Sullivan, soprano soloist, accompanied by Dan Sullivan.

Time—Daylight saving.

STATION WAAJ, BOSTON

8.40 p. m.—Musical program by Miss Marion Atwell, lyric soprano, and Miss Margaret McGonigle, pianist. Popular selections by Miss Helen Donley.

Time—Daylight saving.

STATION WJZ, SPRINGFIELD

7.30 p. m.—Baseball scores and a story for the children.

7.45 p. m.—Fashion talk by Miss Marion Taylor; "Color Schemes for a Country Cottage," by Margaret McHenry; United States Government market and crop reports.

8 p. m.—Baseball scores; readings by Mary J. Lee; vocal selection by Gladys Newton, soprano.

STATION WGV, SCHENECTADY

7 p. m.—Stock and produce market quotations and reports; baseball results and late news bulletin.

7.30 p. m.—Seventeenth, chapter of "Alice in Wonderland," by Kellin Hager, reader.

8.40 p. m.—Health talk, "Household Insects and Their Extermination," by Dr. Herman M. Higgs.

8.45 p. m.—Concert program of piano, contralto, baritone and cornet solos.

11.30 p. m.—Midnight concert by Tappanhoran orchestra; J. B. Wolf, director and violin; J. Segal, piano; A. Callano, banjo; F. Morgan, drums; and A. Di Crosta, saxophone.

Time—Daylight saving.

STATION WJZ, NEWARK

4 p. m.—Baseball scores of the American, National and International League teams, musical program.

6 p. m.—Baseball results.

8 p. m.—Official weather forecast, agricultural reports, shipping news and review of business conditions.

7 p. m.—Stories for children.

7.30 p. m.—"Diet and Health," by Dr. J. Hunt Peters.

8 p. m.—Musical program by the Melody syncopators, a five-piece orchestra, directed by William J. Rawley.

9.30 p. m.—Musical program, by Miss Anna Hooke.

10.55 p. m.—Arlington time signals.

11.01 p. m.—Official weather forecast.

Time—Daylight saving.

STATION KDKA, PITTSBURGH

3.30 p. m.—Baseball results by Jennings.

6 p. m.—Letter from "Farm and Home," talk on swimming by Ralph Shinton; reasonable suggestions for the "Home Garden" by Harry R. Eby; milk and ice fund address.

RADIO TUMMERS

Battery Capacity—The quantity of electricity which a battery will deliver under given operating conditions. It is expressed in ampere-hours and is dependent, among other things, on the temperature, current delivered, lowest voltage permissible at end of service and nature of the service required.

If you want to buy, sell, rent or exchange anything, try a Sun classed ad.

HUB COLORED VOTERS TURN DEMOCRATS

BOSTON, July 28.—So many Boston colored men, hitherto enrolled as republicans, have filed with the city election commission the past week the necessary papers changing themselves to the democratic designation, that local politicians were set a-wondering.

Inquiry has disclosed the fact that a recently organized body called the Massachusetts Colored democracy originated the movement at a meeting in Shawmut avenue quarters three weeks ago, and is doing what it can to swing a large portion of Boston's 7000 colored men and women, who are generally of republican affiliation, into the democratic camp.

Pres. Julian D. Rainey, State street lawyer, said the motivating influence lies in republican inaction at Washington on the Dyer Anti-lynching bill, the negligible patronage which the party in power has given the race nationally, and upon the basic fact that "republican leaders have come to expect that the colored people will forever sheepishly vote the republican

ticket because Abraham Lincoln was one of the party's founders."

Mr. Rainey said that in the six months of his term, Mayor Curley has done more for the colored people than all republican New England has for them in the past six years. The mayor has appointed Joshua Jones, Lucius Hicks and Fred Smith to well-paid posts in the Commercial and Industrial bureau, the law department and assessing department, respectively.

Because of Mr. Curley's proved disposition to give the race a "square deal," in contrast to the less generous treatment by the party in power, Mr. Rainey said, Mr. Curley is now quite popular with the colored people, despite the fact that most of them voted against Mr. Curley in the last mayoralty contest. Thus there is ground for the belief that Mr. Whipple, to whose candidacy Mr. Curley has pledged his support, will get many added votes on this account.

Pres. Rainey said 80 colored republicans have become democrats this week. Many more of the organization's 50 male members are preparing to do so, he said, and Mrs. Taylor, wife of Dr. Walter O. Taylor, is working with a women's committee to get colored women voters to change over. Most of the work is being done in wards 7 and 11.

JIMMY BOY OFF TO BE A SOLDIER

Smiling, rosy-cheeked "Jimmy" Burns will march away to Camp Devens next Monday to take a month's training in the civilian military camp. Ever since "Jimmy" heard of the doings of Lowell boys in the World war he has been anxious to shoulder a gun and show the folks what he could do if called upon to defend his country. When the big war broke out Jimmy wanted to go, too, along with the older boys, but he was many years too young and a big important-looking recruiting sergeant only smiled and told him to run home to his back yard when "Jimmy" asked if he could join the army.

But "Jimmy" has had a desire in his head to shoulder a gun ever since, and now his chance has arrived. Monday he marches off with Lowell's civilian soldiers. About a year ago he decided he wanted to be a printer and applied for a position in the Sun's composing room. Being a bright looking lad, with a ready smile and a reputation as being ambitious, he was given a chance. He is now considered the best printer's devil that ever filled the "hell-box."

Accordingly, when "Jimmy" announced his intention of going into training with the soldiers, his 20 odd

guardians in the composing room wanted to show they were with "Jimmy" all the way. After hours yesterday, John V. Donoghue, foreman of the composing room, called the workers together and in their behalf presented "Jimmy" with a beautiful military leather bag. "Jimmy" stammered out his thanks while the room rocked with three cheers led by Mr. Donoghue. He is a son of Lieut. Joseph Burns of the Palmer street fire station.

\$50,000 FIRE IN PIANO HOUSE

BOSTON, July 28.—Damage estimated at \$50,000 was caused last night by a fire that started in the basement of the three-story brick building, 999 Boylston street, in the uptown district, occupied by Henry F. Miller & Sons Piano company. While the fire itself was confined to the basement, smoke penetrated to the upper floors and heavy damage was done to the pianos in the salesrooms, as well as radio apparatus and phonographs.

A person passing the store noticed smoke coming from the basement and notified fire headquarters. Apparatus was sent to the scene and a bell alarm sounded. Chief John O. Taber directed the firemen. The fire was a hard one to combat because of its location,

and it was more than an hour before it was completely extinguished. The damage estimate was made by members of the firm on the scene while the fire was in progress.

GOV. COX TO AID IN FUEL CRISIS

BOSTON, July 28.—In reply to a telegram received from Herbert Hoover, secretary of commerce, urging co-operation on the part of Massachusetts with the federal government in its plans for handling the coal situation, Gov. Cox yesterday sent the following: "Massachusetts has a fuel administrator with full wartime powers adequate to handle the situation in Massachusetts. Massachusetts' fuel administrator has available receipts of anthracite and bituminous for whole of New England. I shall be glad to co-operate in every way possible and the public utilities commission of Massachusetts will also render every assistance."

Herman A. MacDonald, the governor's secretary, who sent the telegram upon the governor's direction, said to the state house newspaper men: "Massachusetts undoubtedly is better prepared than any state in the Union to handle the coal situation in the present crisis because of the preparations made by the administration some time ago and because of legislation enacted upon the governor's recommendation."

ENDURANCE TESTS FOR SADDLE HORSES

CHICAGO, July 28.—The mettle of endurance of various breeds of saddle horses will be tested at Colorado Springs, Colo., in a 300 mile ride which starts August 1 and ends August 5. Participants of the cow ponies, place their faith in the little horses bred in the shadows of the Rockies as against such aristocratic descendants of coliculus as the Arab, the thoroughbred of the race course, the "quarter horse" and others. Details of the event have been made public by the Horse Association of America which has its headquarters here.

The horse will have to carry a rider, saddle and other equipment totaling 200 pounds and when the ride is over he will have to come in sound and fresh and prove it by going all sales in good shape the following day.

Also will be an endurance test for the rider deciding whether the devotee of the polo field, the chaser or the steer herder has fortified himself with the greatest amount of stamina by his activities.

Harry McNair, of Chicago, one of last year's judges favors a Western trail cow pony for the place in the hub of horse fame which will fall to this year's winner. Out of the 60 to 70 horses scheduled to start he expects five or six to finish in good shape.

Mr. McNair, a well known internationally known horseman, is in the great interest in the contest, has written to Wayne Dinmore, secretary of the Horse Association of America, that Edward Fring, a Colorado ranchman, has entered two horses; Allyn Perkins of the Turkey Creek ranch has put in three, and Dan D. Casement one of the most famous of the older Colorado gentlemen has backed his belief in "quarter horses" by offering two stables sired by that horse.

William Irvine has entered two thoroughbreds and the polo pony is represented by two entries from Lafayette Hughes. A good deal of interest is aroused by the fact "Sling" Sherwood one of the most prominent cow punchers and horse breakers has entered a half-thoroughbred.

PHILADELPHIA, July 28.—How the state of Pennsylvania has helped the victims of industrial accidents to fit themselves to earn a living despite the handicaps of blindness, paralysis and artificial limbs will be shown in an exhibit of lantern slides which the state is preparing for the International Centennial Exposition at Rio de Janeiro, Brazil, in September.

The slides, made from photographs of persons in training for employment under direction of the State Bureau of Rehabilitation, are being arranged by the Federal Board of Vocational Education. They will form an important part of the government exhibit at the exposition in celebration of the 100th anniversary of the independence of Brazil.

Most of the slides depict stories of specific cases handled by the rehabilitation bureau. For instance, there is a case of an 18-year-old boy who after losing a leg in an industrial accident was placed in employment training with a baking company and is now a regularly qualified and salaried employee at a skilled task. Other slides show the progress of two young women who lost their right hands while operating presses in industrial establishments and have been trained for clerical work so that today they have more congenial and remunerative employment than before they were hurt.

American exhibits at the exposition will be guarded by a detachment of the marine corps, 160 strong. These men come from a number of camps, and many are members of the United States Marine organization which fought at Belleau Woods, in July, 1918. Others are youngsters in the service. The release of any in Brazil comes as a reward for good conduct and general merit.

Film Producers Strive for Artistic Merit and Select Music and Painting as Theme

RENEE ADORÉE. SHE HAS FEATURED ROLES IN "MONTE CRISTO," "A SELF-MADE MAN," "HONOR FIRST" AND "WEST OF CHICAGO." SHE'S MRS. TOM MOORE, YOU KNOW

IRENE RICH. FEW SCREEN ACTRESSES ACHIEVE THE HUMAN QUALITY IN ACTING THAT SHE DISPLAYED IN "ONE CLEAR CALL" AND "A FOOL THERE WAS"

BY JAMES W. DEAN
NEW YORK, July 27.—Let these who decry the tawdriness of the films, the expounding of "salacious" themes, the "sensationalism" of the "Song of the Lark," a new two-reel drama directed and written by Arthur Maude.

The theme of this picture is based on the motif of Franz Schubert's music and Jules Verne's painting. I have not seen the film, but the fact of its origin points to a striving for artistic merit.

Songs without words, paintings without titles tell complete stories. These stories give wide play to the motion picture author's imagination, for the working in celluloid of idealistic themes.

This is proved in the series of two-reel dramas based on famous paintings in which were included "The Bashful Sultan" and "The Beggar Maid."

The film version of "The Song of the Lark" visualizes a girl whose soul awakes to freedom upon hearing the music of the lark on the wing.

The fitness of a dog held up the production of a picture several days and cost the producing company several thousand dollars. The dog was a pointer, a cross between a collie and a police dog, appearing in "Broken Chains."

The dog has become something more than an ordinary property in film comedies. He is sometimes used for the only human interest touch some dramatic incidents. And sometimes for several hundred yards of padding—the latter when a director tries to include a baby, a disappointed mother and a dog, hoping by some chance to give an otherwise worthless film an appealing touch.

That was the manner of introduction to "A Woman of No Importance." That film opens with the fair heroine putting a dog and fowling a hare, neither of which has any place in the story.

The understudy is a rare thing in the movies. Many players have doubled to do dangerous stunts for them, but the understudy occupying a place in the

cast for emergency purposes is something new.

Myrtle Lind and William Haines have been added to the cast of "Passions of the Sea." That film is being made in the South Sea Islands.

Haines and Miss Lind will play the "love-interest" characters in event of any indisposition or accident to Antonio Moreno or Douglas Starke. It is highly probable they will draw pay and enjoy a pleasant trip without doing one lick of work.

FORD LAUNCHES GLASS MAKING ENTERPRISE

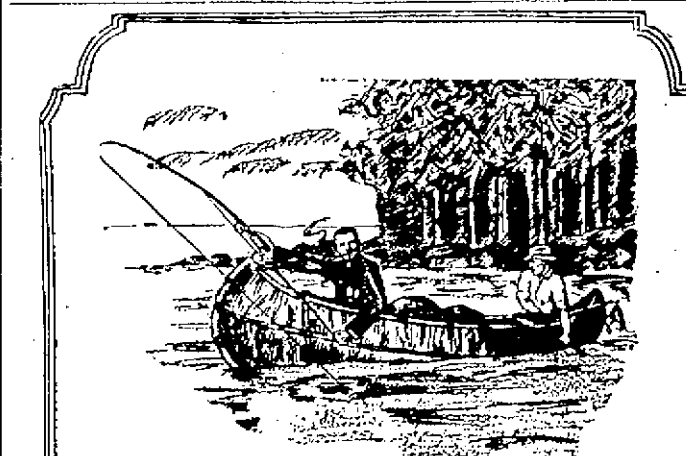

DETROIT, July 28.—Henry Ford has launched upon a new enterprise, that of glass making.

The manufacturer has established here and begun to operate a plant that will produce glass for automobile windshields. It is said to be the first plant in the country designed especially for making of windshields.

The Ford production slogan "keep things moving" is playing a large part in the new methods introduced by the manufacturer in his latest field of endeavor. A continuous conveyor system makes it possible for the glass to be kept continually moving from the time it leaves the furnace in liquid form until it becomes a polished windshield.

The molten glass is drawn for the furnace and passes under a roller that gives it width and thickness, and then upon a moving conveyor that carries it and feet through a gradually cooling furnace. At the end it is cut and placed on another conveyor that carries it through the stages of grinding and polishing, after which it is ready for use.

If you want to buy, sell, rent or exchange anything, try a Sun classified ad.

Smoke Talks by Mr. Jay Aye—No. 10
"Quick, Bill, the landing net. Isn't he a beauty? Say, do you know any sport that beats fishing? My old Dad used to say he'd sooner fish and smoke than eat, good old Dad. He'd sit there all day and smoke—why, perhaps that's the secret. He used to smoke J. A.'s all day long, just as I do. Neither of us ever found a cigar to equal it."

The J. A. Cigar is made as carefully as a fishing rod, nothing but the best Havana filler, broadleaf binder and Sumatra wrapper goes into J. A.'s. It's the quality of contents and workmanship that makes

Directors of Local Playsteads Advance Idea for
Inter-City Competition, Embracing Lowell,
Lawrence and Haverhill---Rag Doll Show
Planned for August 8

The local park department is corresponding with playground directors in Lawrence and Haverhill with the idea of staging a Merrimack Valley track and field meet, to determine the playground championship of the three cities.

The plan calls for intercity competition in both boys' and girls' baseball, as well as track sports. Some date at the close of the summer season has been suggested. It is the idea to choose the best performers in each city by a system of elimination meets, while the baseball representatives from each city would be the teams who lead their respective leagues at the end of the season.

Rag Doll Show

On Aug. 8 it is planned to have a rag doll show on all the playgrounds of the city for the girls. The dolls entered in this contest will be made by each contestant. The winner of

this unique feature will be the girl who shows the best made doll.

Kite Flying Tournament

Arthur C. Sullivan, assistant supervisor, has completed arrangements for a kite-flying tournament for boys, to be held on the Aiken street grounds on August 10. Entrants may call on Peter Gulesian at the Butler school or Ralph Luce at the Greenhalge school, manual training instructors, who will gladly give assistance in the construction of kites.

Three Baseball Leagues

Three baseball leagues for boys under 12 years of age have been formed and will begin to function August 2. One league is composed of the Moody, Butler, Shedd and Fayetta teams; another of the Morey, Washington, North common, and South common teams and the last of the Varnum, Aiken, Lakeview, Avenue and Greenhalge teams. There will be six games played

in each league, followed by inter-league games to decide the city championship.

Three Protests Received

Three protests in the boys' baseball league have been received by the directors. The Aiken street team protests the game played with the South common team on July 19, which was won by the South common, 6 to 3. The protest alleges that the game was an overtime one and the winning runs were scored in that time.

The South common team protests the game played with the Walker team on July 21, which was won by the Walkers, 11 to 8. The common team alleges that the Walker team violated the lineup rules by wrongfully keeping a man, within the age limit, out of the position he was supposed to play.

The North common team also protests a game played with the Walker street team, alleging that the time of the game was illegal. The game was awarded to Walker street as the captain of the North common team did not appear within the time limit before the board of directors.

Good Track Competition

Real track form was shown by the boys of the South common and the Chambers street playgrounds in their dual track meet held yesterday afternoon on the South common track.

Some very creditable performances were made in fast times, with the Chambers street boys winning in the senior division, and the South common stars coming out on top in the junior division.

The feature of the meet was the 500 yd. dash of O'Neill of the Chambers team in the senior half mile. This

speedy youth danced around the track in the fine time of 3 minutes and 6 seconds for the distance. As he crossed the tape he was still strong and showed no exertion in capturing the race.

The meet was held under the supervision of Ray Liston and Bonnie McAdams, the instructors at these grounds and was carried out like clockwork. The winners were as follows:

Senior Division

100 yd. dash—Marr, Chambers, first; Tarplin, South, second; Hilon, Chambers, third, Time, 11 seconds.

Broad jump—Daley, Chambers, first; Woods, South, second; O'Grady, South, third, Distance, 8 feet, 6 inches.

High jump—Woods, South, first; second, tie between Daley and Marr, Chambers, and Lowe, McCormill and Guthrie, South, Height, 4 feet, 3 inches.

Half mile—O'Neill, Chambers, first; Matyka, South, second; Tarplin, South, third, Time, 3 minutes, 5 seconds.

Relay won by Chambers, Hilon, Globe, Daley and Marr.

Junior Division

50 yd. dash—Moody, South, first; Haggett, South, second; Graham, Chambers, third.

Half mile—M. Sullivan, South, first; Holgarard, Chambers, second; R. Sullivan, South, third.

100 yd. dash—Guthrie, South, first; D. Sullivan, South, second; Haley, Chambers, third.

Relay won by South, M. Sullivan, B. Sullivan, Guthrie and O'Grady.

Tennis Tournament

Assistant Supervisor Sullivan of the playgrounds has received an answer to the letter which he sent to George V. Brown of Boston, one of the officials of the A.A.U., asking for the sanction of that organization for the tennis tournament, which the park department is to hold for the grownups of the city on the Shedd park courts over Labor day. Mr. Brown says in his reply that it is not necessary to have the sanction of that body for such a meet, as tennis is not under the control of the A.A.U. The tournament will be held as planned and definite news regarding the entry list will be given out later.

Girls in "Bike" Races

The announcement of the "bike" race to be held for boys next Thursday on the South common has caused a flurry among the girls, who feel they should be allowed to compete in this meet. The officials have decided favorably on their request and will allow them to enter. If the number of entries made by the girls is large enough, a separate meet will be held for them. The number of contestants in the races would be much larger if some of the boys could borrow bicycles

so if any boys who have bikes and are not going to enter will lend them to their friends who would like to compete, the event will be much more successful.

A feeling of dissatisfaction is evident among the children of Aiken and Shedd park playgrounds by the reports of entertainments and concerts given by the children of other grounds, ing situated near the playgrounds. It is impossible to have such enter-

tainments on these grounds because facilities are lacking. These grounds are known as "fair weather" grounds, as sessions cannot be held on rainy days and on particularly hot days, because of the lack of convenience. The playgrounds which have such entertainments are able to do so because there is a school or some other building situated near the playgrounds. It is no fault of the instructors at the

Aiken and Shedd park playgrounds that their children are not carrying out the same programs as the other grounds.

Ignorant of Strikebreaking

Continued

per cent. of the normal force, which meant about 1800 hands. Now, according to Mr. Mitchell's statement, there are 1800 employed at the mill. Where do the extra 200 come from?"

All arrangements for the mass meeting to be held on the South common Sunday evening have been completed. John Hanley will preside and the speakers will be John L. Campos of Fall River, who will address the gathering in the Portuguese language; Thomas J. Roscoe, general organizer for the U. T. W. of A. and Charles E. Anderson, president of the Trades and Labor council. The meeting will be held at 7 o'clock.

What is expected to be an interesting baseball game will be held on the South common tomorrow afternoon at 3 o'clock when the C. N. A. C. second team and the St. Columba's will cross bats. During the game young women connected with the local textile strike will pass the hat for contributions as the game is being played for the benefit of the strike.

\$9,000,000 IS MISSING APPEAL DISMISSED

27 Special Treasury Funds Disappear in Havana—Include Postal Money Orders

HAVANA, July 23.—Included in the list of 27 special treasury funds amounting to over \$9,000,000, which were alleged yesterday by Representative Bartolome Sagaro in a denunciation to the supreme court to have disappeared from the national treasury are postal money orders amounting to \$1,820,077, port works funds amounting to \$2,354,140, and civil retirement funds amounting to \$2,370,428. It was disclosed today.

According to the denunciation, treasury department figures for May and June show a total income of \$9,700,000, with expenses of \$7,000,000. Since none of these expenses have been paid, the complaint charges there is an evident malversation of the amount received.

The unjustified difference between receipts and disbursements during the last fiscal year is declared by Representative Sagaro to be shown by treasury department records which contain orders for the payment of \$68,500,000 but receipts for expenditures of \$77,000,000.

In addition to these charges, Representative Sagaro filed others with the Havana court petitioning an investigation into what he alleged were fraudulent payments of \$1,000,000 by the paymasters' department of the national treasury and extensive funds in the national lottery, the department of public works and the Havana street cleaning department.

Copies of Representative Sagaro's charges have been furnished to Major General B. H. Crowder, special American representative in Cuba, who was quoted in a memorandum made public in part by the state department last night as declaring American intervention in Cuba depended upon the financial measures taken by the executive and legislative branches of the Cuban government.

PROTESTS \$18,406

DUTY ON CHIMES

NEW HAVEN, July 23.—The United States customs office here yesterday received a check for \$18,406 as the duty on the new chimes in the Harmonic tower of the Memorial Quadrangle at Yale university. The duty was paid by Marc Edlitz and Sons, many of New York, which had the contract for installing the bells.

The contractors, however, plan to file a protest at the New York customs office within 30 days, based on their claim that the chimes are works of art and not musical instruments, as customs officials maintained. The chimes were made in England.

SINK AUTOS TO

GET INSURANCE

MONTREAL, July 23.—Agents of the Merchants' Insurance association yesterday found three automobiles submerged in the St. Lawrence river near here, and immediately instituted search for more cars.

The searchers said they believed the machines had been driven into the river so that their owners might collect insurance.

Shopmen May Soon Return Continued

roads under each of the three proposals.

One proposal, according to those claiming to have information of the president's suggestions, would be for the railroads to waive the seniority question and take all strikers back to work.

Another was said to be to give "loyal" men who have remained at work prior seniority rights over strikers.

The third was for separate adjustment of the seniority dispute by each road with its own employees through joint committees to be appointed.

Hope of Settlement

The president was said by his ad-

Grand Trunk R. R. Shareholders Lose Case Before Privy Council

LONDON, July 23.—The Grand Trunk railway shareholders appeal to the privy council has failed. The appeal was dismissed today by the judicial committee of the privy council.

The appeal was from the finding of the board of arbitration last year, declaring the common and preferred stocks of the railway valueless. The board's decision was rendered in Canada over the differences that arose in determining what the dominion government should pay the stockholders because of its purchase of the system. The members of the board were Sir Thomas White, former Canadian minister of finance; Sir Walter Cassel, justice of the Ontario Exchequer court, chairman, who rendered the majority decision, and William H. Taft, now chief justice of the United States, who dissented.

Only the bare judgment was given in today's finding. The reasons will be announced later.

The main question involved in the appeal was the correctness of the decision of the majority of the arbitrators in excluding as inadmissible the evidence of the value of the physical assets of the Grand Trunk Railway Co., and their subsidiary companies, which was tendered by the appellants.

Mr. Taft in dissenting from the decision of the majority of the arbitrators, appraised the whole of the preference and ordinary stock at the sum of \$18,000,000.

viewers to believe that the three proposals promised considerable hope of a strike settlement and to have declared that "more clouds had passed away" in the railway situation within the past few hours than for several weeks.

Rehearing by the railroad labor board of the shopmen's wage question was said to be embraced in all three of the proposals. One proposal, it was said, also contemplated that both employers and employees agree that hereafter the board's rulings be observed without question.

The president had suggested with respect to the executives and employees of each separate road, through joint committees composed of three members representing each party to the controversy. In event of disagreement of such committees, it was proposed that the question then be taken to some form of arbitration tribunal.

All administration officials acquainted with the proposals appeared to share the president's view that a basis upon which the strikers might return to work had been worked out.

Shopmen Soon to Return

CHICAGO, July 23. (By the Associated Press.)—Plans for peace in the railway strike again today seemed to be assuming a more tangible form and the hope was expressed that the 30,000 union shopmen soon would resume work and submit their grievances including the question of seniority rights to the United States railroad labor board.

Plan for Settlement

The announcement that a plan for settlement of the walkout would be put before a meeting in New York Tuesday of executives of 143 of the largest railroads, made by T. DeWitt Cuyler, chairman of the Association of Railway Executives, after a conference with President Harding last night, was said to be a significant step toward the president's statement indicating that he would ask the labor board to grant the shopmen a rehearing, was taken in rail circles here to mean that the rail chiefs would be asked to leave settlement of the issues involved to the board.

While the conference of Baltimore

Southwestern in Texas, was granted at Texarkana, Tex., a restraining order was granted to the Louisville & Nashville, to prevent interference with operations.

Twenty-six disputes involving wages and working conditions on various railroads were filed with the railroad labor board by E. F. Grable, chief of the Maintenance of Way Men's union, in accordance with the peace plan adopted by him.

Discredit Reports of Firing

CONCORD, N. H., July 23.—Railroad and police officials here early today were inclined to discredit reports that national guard sentries at the Boston & Maine shops were fired upon late last night.

The sentries themselves, however, did fire upon a looting figure, disclosed by the searchlight after the person thus revealed had disregarded an order to halt. One theory was that the man thus made a target was one of the new railroad workers who had slipped out of the dormitory in the railroad yards to go upon some errand of his own and who was detected before he had made a clean getaway.

Seniority Issue Discussed

WASHINGTON, July 23.—With tentative proposals for settlement of the railroad shopmen's strike drawn up after conferences between President Harding and labor leaders, the situation was expected today to remain more or less at a status quo, pending the meeting of railroad executives to be called in New York next Tuesday.

Announcement that executives of the 143 major railroads of the country would be brought together on that date to consider a plan for settling the strike was made by T. DeWitt Cuyler, chairman of the Association of Railway Executives after a conference with President Harding last night, his second visit to the White House during the day, the rest of which the president devoted almost exclusively to conferences with officials of the shopmen's union, headed by D. M. Jewell.

It was generally understood today that at least a tentative plan had been reached from the conference between the president and the union officials and that it had reference to the seniority issue now regarded as the one remaining obstacle to the conclusion of the strike.

It was also said that the president urged in his conference with Mr. Cuyler that the railroads agree to the union demands for restoration of seniority rights to strikers.

Among other rail executives opposed

Southwestern in Texas, was granted at Texarkana, Tex., a restraining order was granted to the Louisville & Nashville, to prevent interference with operations.

It was generally understood today that at least a tentative plan had been reached from the conference between the president and the union officials and that it had reference to the seniority issue now regarded as the one remaining obstacle to the conclusion of the strike.

It was also said that the president urged in his conference with Mr. Cuyler that the railroads agree to the union demands for restoration of seniority rights to strikers.

Among other rail executives opposed

to yielding on the seniority issue, W. W. Atterbury of the Pennsylvania and L. F. Loe of the Delaware & Hudson, who were here today, Mr. Loe having arrived last night, were both understood to be insistent in their opposition.

Meanwhile, the opposition of Mr. Jewell to a separate settlement of the strike on the Baltimore & Ohio, at least pending the outcome of the attempt at a general settlement, appeared to have ended all prospect for prior action by the striking shopmen of that road on the pending company proposals.

Developments here in the coal strike situation in the last 24 hours included the statement of officials of the National Coal association that they had been authorized by Alfred M. Ogilvie, president of that organization, to deny any report that a meeting of operators of the "central competitive field" was in prospect to consider a settlement.

Action by the senate labor committee on the Borah bill proposing appointment of a federal commission to study the coal industry, was being held in abeyance today pending an expression from President Harding of his views on the proposed legislation.

Three Kidnappings Reported

GALESBURG, Ill., July 23.—Three separate kidnappings, attributed to striking Chicago, Burlington & Quincy shopmen, were reported yesterday.

A crowd abducted two employees; took them to a farm about seven miles from the city and after beating them, turned them loose, blindfolded, in a blackberry patch.

A stationary engineer was kidnapped and taken a nearby town, where he was severely beaten, his clothes torn and his money and watch taken. Early yesterday morning the sheriff's force was called to the country to rescue a young man who had been kidnapped and who had been left with only a gunnysack around his body.

All the men kidnapped made statements, blaming strikers. One furnished a list of names.

Guard Shot and Killed

SAN BERNARDINO, Cal., July 23.—Roy E. Burton, special guard employed in the yards of the Santa Fe railroad, was shot and killed here last night. His body was found an hour after six shots had been heard. His revolver was still clutched in his hand. Investigation showed he had fired three of the six shots heard.

HURD STREET

TURKISH DEPORTATION METHODS DESCRIBED

LONDON, July 10.—Two American relief workers, J. H. Knapp and Miss B. Bannerman Murdoch, who have arrived in Constantinople from Arabkir, where they have been organizing relief among refugees, give further details of the deportations of Greeks and Armenians described previously by Major Towell and Dr. Mark Ward. Arabkir is in the interior of Anatolia, 60 miles west-northwest of Kharput. They estimate that 10,000 deportees passed through Arabkir between July, 1921, and March, 1922. The signed report given by them to the British Armenia committee reads as follows: "Beginning July, 1921, the first installment of 600 deportees of Greek men of military age arrived. They were all from the Konia district. One hundred and fifty of these were Armenians, and were sent on to Egin. The balance were Greeks. About 150 of these remained in Arabkir, and the balance were sent on to the Kharput and Marbekir districts. Then came an installment of about 250 to 300 deportees, mostly Greek, from the Ordu district. There was sometimes a man with his whole family, but generally women without any male members of the family with them and children. To a large portion of these it was necessary for us to furnish bread every day for the whole winter. There was another group of about 100 men over 50 years old, some appeared to be 30 years old. These remained a few weeks and then all but a few were sent on to the Kharput area. A large drove of over 1000 was the next installment to arrive in Arabkir in the late fall. They were herded on a hill above the city within 200 yards of a running ditch of water. They were not allowed to get water from this ditch, but were compelled to buy it from vendors. On a bleak cold morning a few days afterwards they were started on their way towards Kharput. It was a sight that one can never forget, to see middle-aged and old women, some with their children, and the younger women and children, carrying on their backs large loads of bedding, food and baggage, and in their hands pots and kettles, and perched upon their load a child. "Many of the deportees seemed never to reach their destination, as the storm which was brewing in the early morning on the mountain soon developed into a blizzard and the roads were left strewn with dead bodies. These things were personally seen by us, and in visiting one of the Armenian buildings where these men were unable to go on, were left behind, we discovered several dead bodies on the floor and a number of other persons dying, with their children hanging over them. These scenes were only examples of many others which we witnessed during the deportations. Many of the women were unable to carry their children along, and were obliged to leave them on the roadside. We took in our orphanage about 200 of these children, and several of them were unable to survive the starvation and exposure. The stories of robberies and extortions told us by the deportees were almost universal. We were convinced from the policy of the Turkish government in forwarding these deportees to other places on days when the weather was extremely severe, that their intention was to subject them to such exposure that they would perish. Their policy of giving two rations of bread a day to the deportees who were working on their roads, which was insufficient for their nourishment, and then cutting it down when they showed signs of weakness to one ration, showed that slow starvation was also another method for accomplishing their extermination. "On our way from Arabkir, through Kharput, Diarbekir and Urfa, we encountered these Greek deportees in every village and city, and thousands of them were at work on the roads. Personally, we examined the rolls of deportees to whom Americans were giving bread every day in Kharput, and the number averaged 3500."

LONDON, July 28.—Strange as the story of a will which has just been admitted to probate and is now filed in Somerset House. It is the "last will and testament" of a sailor, William Skinner, who lost his life when his ship, the indefatigable, was sunk in the battle of Jutland. It is in the form of the ordinary identification disc. On one side, in the usual deeply-punched letters, appears the name, number, rating and religion of the man to whom it had been issued. On the other side the disc appears at first sight to be just a circular piece of smooth, polished brass. But when viewed at a certain angle, there can be seen about 15 minutely engraved words. With a microscope they can be plainly read. They constitute Skinner's will by which he bequeaths everything to his wife. The disc had been recovered from the sea with Skinner's body and on being cleaned revealed its secret.

SAILOR'S STRANGE WILL ADMITTED

LONDON, July 28.—Strange as the story of a will which has just been admitted to probate and is now filed in Somerset House. It is the "last will and testament" of a sailor, William Skinner, who lost his life when his ship, the indefatigable, was sunk in the battle of Jutland. It is in the form of the ordinary identification disc. On one side, in the usual deeply-punched letters, appears the name, number, rating and religion of the man to whom it had been issued. GANDHI WELL TREATED IN BRITISH JAIL

BOMBAY, July 28.—Mahatma Gandhi has been receiving every possible consideration from the authorities of the Sabhamati jail, where he is confined, in evidence from the reports of the many friends who have visited him there. Gandhi spends at least half an hour each day in spinning, and is devoting his remaining energy to literary work. He is allowed to have his own food brought to him. Goat's milk, toast, oranges and raisins constitute his usual diet.

One who visited Gandhi in jail recently describes his life there as follows:

"Ever since his arrest, the authorities have been very kind and considerate. They place no restriction on interviews, but grant as many as it is possible to arrange for. At these interviews, either the superintendent or the jailer is present.

"Gandhi sits in the veranda in front of his cell with a quilt on the floor and with two pillows at his back, in the same style as in his own home. Visitors are taken inside the jail, and Gandhi receives them in his veranda. They discuss all sorts of questions, no restrictions being made as to the subjects for conversation.

"The Mahatma is allowed to receive all his letters, and even to reply to them, with the condition that the letters are countersigned and passed by the superintendent.

"The prisoner's usual food consists of goat's milk, toast, oranges and raisins. These are brought to him three times a day. Several months ago Gandhi made a vow not to take his second meal without spinning for at least half an hour. He has been able to observe this, even while in jail.

"I was really surprised to see the progress he has made in spinning. Last year, when he was in the Punjab, he was a mere novice, hardly turning out yarn of five counts. But now he has improved much that he not only spins faster but the yarn is of 25 to 30 counts. I do not think there will be any difficulty for the government in providing him the simple food he wants, as it will not cost the authorities any more than they are prepared to spend on an ordinary prisoner.

"One noticeable fact was that at no time did he break any of the jail regulations. If he is treated differently, it is not due to any request on his part, but due rather to the initiative of the authorities themselves, who are very courteous and anxious to oblige.

"He was always cheerful, and looked upon his arrest as a matter for great rejoicing to the country. To all questions as to what would happen in the future, he gave the answer that non-cooperation, if carried on properly, was bound to succeed.

"Gandhi intends to devote much of his time to writing about his past experiences. He may even write an autobiography. His immediate task, in this line is the writing of a pamphlet on the movement in South Africa."

NATIONAL ASSOCIATION OF ORGANISTS

CHICAGO, July 28. (By the Associated Press).—Prominent musicians from all parts of the country are expected here Aug. 1 to 4, for the 15th annual convention of the National Association of Organists. The organization, formed in New York in 1907 by a number of leading organists of the country, now has a membership of 1400 and between 300 and 500 visitors are expected here for this year's convention, the first that has been held this far west.

Standardization of the organ console and the amount of time an organist should spend in preparation for his work will be among the questions to be considered at business meetings. The convention will be featured by public recitals by famous organists in Chicago churches and halls.

An informal reception on Monday evening, July 31, will precede the opening of the convention proper. The address of welcome will be made by Mayor William Hale Thompson on the morning of Aug. 1, followed by a business session. The first day's program also includes an organ recital by Clarence Eddy at Chicago in the afternoon and one by Lynwood Farnum of New York in the evening.

Addresses by Dr. Peter C. Jutkin of Evanston and Dr. Felix Borowski, president of the Chicago Musical college, will be delivered Wednesday morning. In the afternoon Henry S. Fry and Roland Matland, both of Philadelphia, will appear in a two console organ recital, while a recital by Dr. Ernest McMillan of Toronto, Ont., is scheduled for the evening.

A business session will be held on Thursday morning Aug. 3, followed by an automobile tour in the afternoon and a special operatic performance at Ravinia park in the evening.

Officers will be elected on Friday with the day's program also including a lecture by Dr. Paul Sabine of Geneva, Ill., on "Acoustics," a concluding organ recital by Clarence A. Tutts, of Los Angeles, Cal., and a banquet in the evening.

Henry S. Fry of Philadelphia is president of the organization.

CHINESE GENERAL A CHRISTIAN CONVERT

NEW YORK, July 28.—A personal picture of Gen. Feng Yuh-siang, known as the Christian general in the forces of Wu Pei-fu, is contained in a letter from Bishop F. R. Graves of Shanghai which has been received here by Protestant Episcopal leaders. Bishop Graves is said to have known General Feng for a number of years.

"Feng has been elevated to the governorship of Honan province," writes Bishop Graves, "and it is characteristic of him that when he attended a big

reception recently in his honor he rode to the YMCA hall on a bicycle with a few unarmed attendants. Instead of being surrounded by the customary mounted cavalcade. His first Sunday as governor found Gen. Feng attending a joint service of all the Christian denominations in Kailang at the Sheng Kung Hui, or Episcopal church. Here the Christian general preached a sermon from the text: 'To him that knoweth to do good and doeth it not, to him it is sin.'

"He appropriated out of his private funds a sum sufficient to care for the beggars who infested the city until employment could be obtained for them, at the same time announcing that those who would work for a living must leave Honan."

Feng, according to Episcopal mis-

sionaries, became a convert to Christianity 11 years ago when, attacked by a disease which native physicians declared incurable, he was restored to health by the ministrations of a Christian medical missionary. Thousands of his soldiers have embraced the religious faith of their leader and victory on the field is frequently followed by a service of thanksgiving of a Christian character which is led by Gen. Feng himself, it is reported.

"Gen. Feng is somewhat of a Cromwell in his religious ideas," Bishop Graves said, "but there is no question at all of his sincerity. He shares hard conditions with his men."

POLITICAL QUESTIONNAIRES

In the fall elections we may expect to see the women voters exerting their influence to a far greater extent than ever before. Not only will they present candidates of their own, but they will questionaire the male candidates after the manner in which Mr. Edison tests the intelligence of those who seek positions in his service. Here, for example, is a questionnaire sent out by the Nebraska League of Women Voters to candidates for the United States senate:

Do you favor a reduction of our army and navy?
Should our country participate in world affairs. As a part of the world or apart from it?
What should be the attitude of the United States toward (a) Mexico, (b) Haiti, (c) Russia, (d) China?

Should our government collect the foreign debts of its citizens by force or otherwise, or should American investors in foreign property be subject to the laws and risks of the country in which the investment is made?
What is your interpretation of freedom of speech and the press as guaranteed by the Federal Constitution?

Will you support the present federal laws for the enforcement of the eighteenth amendment, with no weakening of the Volstead Act, if you are elected?

Do you favor a referendum to the people for a declaration of war, except in case of invasion? Or do you favor declaration of war by a bare majority of congress, or by a two-thirds majority?

If elected, will you vote in favor of independent citizenship for married women?

Are you in favor of abolishing the primary system, and returning to the convention system of nominating candidates?

The candidate who would answer each of these questions would put himself in a strait jacket for the remainder of his political career.

Others of a similar nature are likely to be sent out and when the women take the stump, they may be expected to "put it all over the men" no to speak. They may challenge them to joint debate, and in such a case, the woman could say what she pleased of the male candidate while he would have to be silent, courteous and respectful toward his assailant out of regard for her sex.

Miss MacPhail and Miss Robertson have the God-given gift of common sense. That in way they are not feminists, that in why many people are encouraged to believe that the right kind of woman in office will help, not hinder—Fall River News.

Miss MacPhail is Canada's first woman member of parliament and like our Miss Robertson, member of congress from Oklahoma, she has conducted herself with becoming dignity and common-sense. She is not of the hysterical, screaming, irrepressible feminist type.

THE BAN ON LAUGHTER

Fashionable Nahant—Nahant the ultra-exclusive—has no use for the laughter and caparings of little children from the outskirts, we take it. Witness one Michael De Carlo of Nahant, who happens to own a home in a sort of "restricted" section of that aristocratic watering place, giving daily entertainments to poor children from surrounding hamlets, rough to the disgust of the fashionable set in Nahant.

Michael has been in the habit of distributing charity by keeping "open house" to youngsters who merely leave the city streets and know little about the freedom of the seashore or country. We trust Nahant citizens will relinquish their campaign against Michael so far as they protest against his entertaining the children of the city at his little home on the ocean parade ground. Exclusive though Nahant has always been—you can't park your car longer than 15 minutes anywhere near the fashionable residences that loom against the ocean sky—we believe that few real men and women will object to De Carlo's method of entertaining the youngsters from the city, when his only object is to let them enjoy a day in God's sunshine and the fresh breeze of the ocean that are such a blessing to city "prisoners" during periods of sweltering heat and humidity.

EDISON'S MODELS

Edison gives to a museum the original models of two of his important inventions—the first phonograph and the first incandescent electric light. Most of us, in his shoes, would have kept these treasures to tickle our vanity and sentiment but, of course, they will be carefully preserved in this museum.

Mr. Edison says he is not interested in old models. He looks ahead, never back, concentrates on the future, is not chained to the useless accumulations of the past that only serve as a hindrance to progress. If we would keep pace with the fleeting weeks and years, we must drop the things that are no longer of use, as otherwise we shall be unable to grapple with the vital things of the present hour. Few of us have the faculty of promptly distinguishing between the essential and the non-essential and of dovetailing our time and energies mainly to the latter.

ARCHITECT'S MISTAKE

Some architects are notorious for shooting wide of the mark when asked to plan building operations within a fixed appropriation. It is noticeable, however, that they invariably exceed the amount given as under:

Whether they do this intentionally or through incapacity makes no difference. It is all the same to the party who has to pay the extra amount. The city of Lawrence finds that it has to pay \$100,000 more than the architect's estimate on the equipment of the new high school. That is a small affair compared to some cases of the kind we have had here in Lowell. The contractor and the engineer usually have to pay for their mistakes; but the architect always makes the owner pay for his blunders and he also collects his commission on the amount.

PIRATE BOOTLEGGERS

The booze-runners of New York city are popularly imagined to be a new type of criminal, bred by prohibition.

Not so, according to the marine police. They say that the motorboat booze-runners are simply the old-time river pirates switched to a new graft. They get 75 cents to \$1.25 a bottle for delivering smuggled liquor to bootleggers.

Thus, in this field, prohibition has not increased crime. The situation plainly is that men are smuggling booze who otherwise would be pirating anchored ships and stealing precious merchandise cargo. It is the lesser of two evils.

TOURING CAMPS

In all probability, if the plan of Governor Cox for the establishment of camps for auto tourists were established throughout this state, it would be an attraction that would injure the hotels but delight those who use the auto for touring purposes. In some western states, camps of this kind are established in the vicinity of lakes or ponds so that the campers can go swimming if they see fit. They may also find tents, food and other conveniences. Such camps would greatly encourage auto touring without resorting to hotels, which in the long run is likely to meet strong opposition.

AUTO UPKEEP

How much does it cost you to run your car? The Lamp, magazine published by Standard Oil company of New Jersey, says that on the average—\$100 spent by an auto owner goes as follows:

Oil and grease, \$1.13; gasoline \$10.26; tires, \$10.42; depreciation, \$15.33; repairs, \$12.77; miscellaneous, insurance, accidents, etc., \$20.65.

If these figures are accurate, every time you buy \$1 of gasoline your car has depreciated in value about \$1.50.

This is one of the three generally interesting forms of mathematics. The others are baseball percentages and stock market dope.

THAT CANCELLATION

England is talking about cancelling the debt owed to her by France. With such a noble example, idealists would reason that we should cancel what England owes us.

It is a chain affair. England forgives France, we forgive England. The joker is that there is no one to forgive us. We would be left holding the hot potato.

The money we lent Europe came out of Liberty bonds. When those bonds mature, Americans will have to pay them if Europe doesn't. Regardless of sentiment, these are the facts.

WAGE INCREASE

Howard Conkey, treasurer of the Walworth Manufacturing company of Boston has restored the cut in wages of 1500 employees made last May as a result of the increase in the cost of living and the general improvement in conditions. There is here something quite significant as to the trend of events in the industrial situation owing to the improvement in business conditions. It is something that should appeal to the textile manufacturers who are insisting upon a cut of 20 per cent in wages.

THE DYE EMBARGO

Unusual though it was, thirteen republican senators bolted the dye embargo, when Senator Moses of New Hampshire exposed the sinister advantage of the Chemical Foundation and showed that the Du Ponts were to gain many millions by the embargo if imposed in the tariff law. Senator Moses deserves credit for that coup and he should now start in to help defeat the robber tariff on wool, which will work as much injury as would the dye embargo.

It would be rather expensive, undertaking to keep up steam continuously on a city building in order to accommodate a steam train. If the Gas Light company will assume the responsibility of putting the train on its works, the school board should gratefully accept the offer. At least, the steam train will be a troublesome substitute for the bells for school signal purposes.

The "good will" delegation of 160 young American business men and gold star mothers who are to carry a message of friendship to France will get a cordial reception. Their mission is not one that can aid France to any great extent.

The coal miners of Great Britain do not care who burns their product as long as they get paid for their work. When they were in trouble our coal was freely shipped to England.

Debs is said to be himself again which is to say that he has recovered sufficiently to avoid the government and the institutions of this free nation.

Political campaign is now the municipal substitute for business capacity at least in our department.

The citizens are getting a more than ordinary surfeit of political bunk from city hall these days.

SEEN AND HEARD

Give a politician enough cigars and he roams the voters in.

"Flowers have flapperism," says Nurbank who may have noticed a flower shedding.

We can't recall a single instance of an American who stayed at home being killed in Mexico.

A Thought

We then that are strong ought to bear the infirmities of the weak, and not to please ourselves.—Romans 15:1.

Our deeds are like children that are born to us; they live and act apart from us. Nay, children may be strangled, but deeds never; they have an indestructible life both in and out of our consciousness.—George Elliot.

A Word a Day

Today's word is Fiddle. It's pronounced fu-ill, accent on the first syllable, the u long, and the l short. It means—musical, trifling, ineffectual.

It comes from the Latin fiddle, meaning "that easily pours out, or lets loose," derived from the root of funder, to pour out. It's used like this: "He made a fiddle effort to prevent the calamity."

Not Quite Enough

An Englishman, newly arrived in this country, was taken home to dinner by a friend. There was corn on the table and the host, knowing that most Englishmen are not very familiar with this vegetable, asked if he liked it.

"O, yes," replied the visitor, apparently not wishing to appear discourteous, "I like it."

But when the platter of Golden Bantam was passed he did not take any. "Why," said the host, "I thought you said you liked corn."

"I do like it," explained the Englishman, "but I don't like it well enough to eat it."

Exceptionally Good

A young married woman who had moved into the country, considered the keeping of hens a pleasant and profitable undertaking.

As she grew more absorbed in the pursuit her enthusiasm increased.

During one of her animated descriptions of her success a friend inquired:

"Are your birds good laying hens?"

"Oh, yes," replied the henkeeper in a delighted tone. "They haven't laid a bad egg yet!"

The Little Things

Ever so little means so much. In the little world of workaday.

The lips that smile and the hands that touch.

The tender things, not many such. Easy or hard, in the common way!

Ever so little means so much. In the little world of workaday!

Ever so little, but how they aid: The kindly glance and the friendly word.

The flash of an eye, and a debt is paid: A syllable uttered—a friendship made.

Ever so little, but how they aid: The kindly glance and the friendly word.

Ever so little, but they will last: The least of the deeds that your hand can do!

Open your heart door freely, cast Windows wide on the starry vast—And God's good face comes, shining through.

Ever so little, but they will last: The things that are best in the best of you.

—REGINALD WRIGHT KAUFFMAN.

FRAZEE DEFENDS RECENT TRADE

CHICAGO, July 28 (by the Associated Press).—M. Landis, baseball commissioner, yesterday called a joint meeting of the American and National club owners in Chicago, Aug. 14, to discuss world series rules and the draft situation.

The American League club owners, meeting yesterday, agreed to permit any American league player to participate in exhibition games after the close of the regular season, provided he obtains permission of his club owner and Judge Landis.

It was agreed that not more than three players from any one club could play on any single team in an exhibition game. This, owners said, will remove the liability of an entire club going out under the team name at the end of the season.

The change in the rules is a result of trouble in which Babe Ruth and two of his Yankee teammates found themselves last season.

Harry H. Frazee, owner of the Boston American, defended the club owners' action, saying that the new rules would protect the league from the kind of trouble that befell the Yankees last season.

The club owners accepted the offer of the fine arts commission of Washington to place a tablet in East Potomac Park commemorating the death of the artist. A bronze shield inscribed with the name of the best all-around player of the year will be added to the tablet each year. The best player in the league will be chosen by a committee of eight baseball writers.

THE MAN ABOUT TOWN

In contrast with conditions in Lowell since the advent of prohibition, a report from a city in the far west, which has been under prohibition for several years prior to the Volstead act, shows that prohibition has worked wonders: Wife beating, neglect of children, slums, red light districts and suffering from lack of fuel and clothing in the winter have become a rarity. Bank deposits have increased threefold, and everyone, including the workman, rides in an automobile. This is a sort of Utopia for which the citizens of Lowell hardly dare strive, at least until such time as the domestic stills are fewer in number and their results less conspicuous in the frequency of drunks upon the streets.

The prediction which I heard so often, that with a change in the administration of the police department the number of liquor seizures and the arrest of parties concerned therein would be borne out by facts, seems now to be borne out by facts. In increased, if anything, as the number of arrests under the regime during the last months, nearly of the year, was about 235, and almost that time has been increased by about 150. The liquor squad still pursues its way in the same fashion, unhampered by any other department, and with the police prosecutor doing his best to secure convictions in strict court. The liquor squad is still heard of in connection with the people have been benefited with news of large seizures to the point that something of extraordinary proportions or of unique interest is now required to draw their attention. The big fish of the week was the first, a raffle for some time, although small stills and other methods of offense are discovered regularly.

Although the Knights of Columbus are not wont to boast of their achievements, presently, at any rate, they cannot help expressing satisfaction with their new building in East Potomac Park. The work is going along in such a way that the last touches will be applied in ample time for the winter season, as predicted before the operations began. The fact that the majority of the members of the order, otherwise he unemployed in another source of satisfaction to the officers and members. When the work is finished, the members of Lowell council, K. of C., will move into one of the big four-story, heated and out and admirably equipped quarters, a social or fraternal order within a radius of many miles, and will derive great satisfaction in the knowledge that it is all their own.

At a recent meeting of the board of public service Mr. Arthur G. Pollard appeared in behalf of a local institution for some information regarding the repair of a roadway leading to the Lowell General Hospital. While waiting for the meeting to come to order, he told of an interesting incident in his life showing the comparison between the manner in which city departments were conducted in those days and at the present. Mr. Pollard said that he was clerk of the assessors' board in 1861. At that time he was only 13 years old. He told of coming to work at 8 o'clock in the morning, of sweeping out the office, dusting the chairs, washing windows and cleaning the knickknacks. At 6 o'clock, he said, he knocked off work. For this work he received the magnificent sum of \$75 per annum. He also told of the time when the assessors decided to check up all cattle, horses and dogs in the city. The city council had appropriated \$50 additional for this work. He was asked if he would take over the work for 27 cents per day. When he finished his labors he put in a bill to the amount of \$21. In commenting on his salary, he said that he did work for \$21 then that at least \$225 would be asked for now. To show how closely things were figured out, he cited the instance of one item of supplies he used. Mr. Pollard said that it was impossible for him to use the pens bought for the department so he bought his own. After the work was completed, he was talking with Isaac Hoffman, then one of the city's fathers, and told him about his expense item in connection with the pens. He was told to put in the item. It amounted to 13 cents. Mr. Pollard invited those present at the meeting to look back over the old city books to find the item of 13 cents charged up for pens for the assessors' department.

ATTACHMENTS RECORDED

The following attachments have been recorded at the local registry of deeds office: Ann Windsor vs. Christina M. W. Foster, action of \$50.00; Arthur H. Colburn, Dracut vs. J. Chester Fox, Dracut, action of contract, \$1000.

MINISTER SUSPENDED

Rev. Thomas J. Irwin Indefinitely Suspended From Presbyterian Church

LAWTON, Okla., July 28 (by the Associated Press).—Unanimous decision that the Rev. Thomas J. Irwin was guilty of conduct "unbecoming a minister" was reached in his trial before the judicial commission of the El Reno presbytery early today. The minister, who was formerly pastor of the First Presbyterian church here, was indefinitely suspended from the Presbyterian church, U.S.A.

One of the charges of which Rev. Mr. Irwin was adjudged guilty was that he brought discredit upon the Presbyterian church as a whole by wedding into a public pool garbed in a bathing suit, marrying a couple also wearing bathing suits.

"You are indefinitely suspended as a minister of the Presbyterian church, United States of America, and may the Lord have mercy on you," read the verdict of the trial body.

Mr. Irwin had announced that he would carry the issue even to the general assembly of the Presbyterian church if the outcome of his trial were adverse.

Much of the out-feeding in the Lawton congregation is said to have been engendered by Mr. Irwin's friendship for the late Jake L. Hamon of Ardmore, national republican committee man from Oklahoma, for whose alleged murder Clara Smith Hamon was acquitted. Hamon contributed generously to Mr. Irwin's church, and built an annex in which he installed motion picture apparatus which was used by Mr. Irwin. Certain members of the church protested the use of motion pictures in connection with religious worship. Mr. Irwin, allegedly, other members by the funeral sermon he preached over Hamon.

LAKEVIEW CHAPEL

A splendid musical program, embracing several well known Lowell singers, will be given at the 8:30 o'clock mass at Lakeview chapel Sunday, under the direction of John J. Kelly, local organist and choir director. The soloists will be Miss Kathleen Jennings, soprano and George A. Kerwin, baritone. The complete program follows:

Duet, Hymn to Blessed Virgin... Aht Baritone solo, "Juxta Domine."

Duet, "Ave Maria"... Lambillotte Soprano solo, "Salve Regina"... Dana

STRUCK BY MACHINE

Mrs. Edward Nichols of Nashua, N. H. was struck by an automobile at the corner of Thornehill and Middlesex streets last evening and sustained minor injuries, which were treated at St. John's hospital. The driver of the car was John F. Mechem, 229 Worthen street, who claims the woman walked into the path of his machine.

Berton Braley's Daily Poem

SURE HE WILL!

He's cocksure in all his opinions
And no one can tell him a thing,
Of all the world's goodly dominions
He thinks he's undoubtedly king.
He gives the cold shoulder to folks who are older
(Exactly as we used to do),
But you got over it, I got over it,
He'll get over it, too!

He's certain the world is his oyster
Which he can crack open alone;
And down life's broad highway he'll roister
And sneer at its perils unknown.
He'll go his way scorning all manner of warning
(WE did it, it's nothing so new),
But you got over it, I got over it,
He'll get over it, too!

I envy him, taking his chances
With blithe and unquestioning cheer,
Undaunted by destiny's glances,
Cocksure, with no shadow of fear.
There's no need to wonder at each youthful blunder
(Ah once WE were young, through and through),
But you got over it, I got over it,
(Sad it is that we must get over it)—
He'll get over it, too!

NORWOOD STEEL CAR SHOPS

Closed Since Dec. 24, 1921

OPENED MONDAY, JULY 17

DOHERTY CANDIDATE FOR LIEUT. GOVERNOR

BOSTON, July 28.—Ex-Representative John P. Doherty, formerly of Fall River and now of this city, one of the best known of the younger democrats of Massachusetts, yesterday took out papers for the democratic nomination for lieutenant governor.

Mr. Doherty represented Fall River in the lower branch of the legislature in 1913, 1914 and 1915. He is a lawyer, with offices at Barristers hall.

In a statement issued yesterday afternoon Mr. Doherty said:

"I have been urged by representative democrats throughout the state to become a candidate for lieutenant governor, consequently, I now seek the nomination.

"Issues are too many, plain, and distinct to be stated in an announcement of this nature. Primarily, however, I believe that the federal government is deliberately ignoring the commercial and industrial rights of Massachusetts. The republican officials, either because of apathy or inability, do nothing to remedy this lamentable condition.

"The unwarranted interference of the government with personal liberty, local self-government and business must be curbed. Street railways are as necessary to rural as to city life. Their present status cannot be the result of natural conditions.

"I believe a thorough and scientific investigation will show their condition to be the result of juggle and other means which at this time I do not care to characterize. The party in power treats the World war veterans as mendicants seeking bread. Strikers, lockouts and boycotts are the present condition of our society and the republican party appears helpless and hopeless.

"For three years I was a member of the legislature as a democratic floor

Marilyn Miller as she looked when she stopped at Chicago to greet friends while on the way to Hollywood to marry Jack Pickford.

SEMI-FINISHED

Some shops are now selling partly finished lingerie—that is, finished with the exception of the trimming. This the buyer may add to suit her particular taste and her pocketbook. It is an excellent idea for women who dislike to cut and put together their garments, but enjoy doing the decorative touches.

BATTERY B ENCAMPMENT Lowell Unit Will Be Under Canvas at Barnstable in August

BATTERY B, 102nd Field Artillery, will go into camp at Barnstable on Aug. 5 and remain there until Aug. 19, according to orders just received from the commanding officer of the unit. All members of the battery are making preparations for this annual encampment, as it is compulsory that all members of the organization attend.

Employers of battery members are asked to make arrangements so that the men can obtain leaves of absence. The commanding officer of the unit has sent a circular letter to the battery commanders emphasizing the necessity of attending the annual encampment.

The letter is as follows:

1. In accordance with S.O. No. 7, S.O. No. 12, and S.O. No. 13, the 102nd Field Artillery, Brigade, Mass. a. s., this regiment will perform its annual tour of duty at West Barnstable, Mass., during the following schedule: Battery B, 102nd F.A., Aug. 5 to Aug. 19, inclusive.

2. Uniform and equipment of enlisted men as follows: Service O.D. cotton; campaign hat (cord sewed on); overcoat, bed sacks and blue denim to be discarded; taken in place of campaign gage, pack containing two blankets; one pair cotton breeches; two suits underwear; two pairs woolen socks; light for swimming; toilet articles; containing razor, toothbrush, tooth paste, brush and comb; two towels; one pair cotton trousers; one pair pack; packs to be rolled exactly as adopted by regiment last year. Chin straps and black neckties will be worn at all times by enlisted men during tour of duty.

3. The following order is quoted for your information, from the office of the adjutant general of Massachusetts, State house, Boston, Mass.

Unit commanders are hereby notified that, pending the reorganization of the national guard in this state, no transfers or discharges of officers or enlisted men will be accepted until further notice.

In accordance with general order No. 3, A.G.O. c. a., no leaves of absence or furloughs will be granted which will conflict with the annual tour of duty of this regiment.

4. It means that a man will be excused from tour of duty from Aug. 5 to Aug. 19, both dates inclusive. If all men must submit to an examination by regimental physician and obtain an excuse of physical disability. Minor illness will be treated in camp.

5. If an officer or man is suffering from trouble with his employer as a result of the coming tour of duty, he is instructed to notify his unit commander at once, giving full particulars of case; he will then take the necessary steps for you to secure that approval. It is

advised that this circular letter be shown to all employers of national guard members who discharge employees by reason of their attendance at a military camp.

6. Civil action will be instituted by the government in any case against employers who discharge employees by reason of their attendance at a military camp.

7. Removal from city for any reason whatsoever is not considered an excuse for non-attendance at camp.

8. Severe action will be taken at once by all commanding officers upon all men who fail to report at the proper time for camp duty.

9. There will be an inspection of all personal equipment at the Lowell state armory, Westford street, Tuesday evening, Aug. 1, at 7:30 o'clock sharp. You are ordered to be present. Important orders to be read and pay may be on hand for distribution.

By order of
B. R. REDMOND,
Colonel 102nd F.A., Commanding.
GEORGE J. FANEUF,
Capt. 102nd F.A., Commanding Battery B.

The following comprise Battery B, 102nd F.A.: Capt. George J. Faneuf, 1st Lieut. Harry J. Jerome, Sergeants, John H. Judge, Jefferson Howard, Walter P. Mitchell, Donald D. Burns, Bernard F. Brady, Cyriel Desmarais, William J. Chell, Richard Chadwick, Corporals, Raymond Richards, David W. Gibson, Harold Judge, John D. Stewart, Joseph W. Rochelleau, Delbert F. Wilson, Norman Drysdale.

Privates, first class: W. H. Campbell, L. Chaput, W. H. Coleman, W. H. Conlon, W. H. Dougherty, A. H. Durgin, J. Boyle, W. J. Brunette, J. A. Delahanty, J. J. Daly, A. B. Chalmers, G. W. Gardner, R. Hesolton, F. J. Horne, O. E. Huntley, J. R. Johnson, J. M. King, A. G. Lyon, Jr., P. N. Liberty, N. McDougall, E. F. Taylor, W. J. Ford, J. D. Henrich, H. J. Ryder, C. E. Pierce, L. J. Sarrasin, J. P. Savard, A. H. Smith, G. Swartz, Thelien, J. R. Wythe, A. E. Baron, H. D. Chenelle, L. Lacourse, F. H. O'Hearne, A. Poltrina, H. I. Riel, M. J. Riley, A. Valleraud, W. Minor, Lachance.

PAINTED SHIRT
The hand-painted shirt is creating a sensation in fashion circles. It usually has a white foundation, though black and vivid colors respond to such decoration. The designs are put on with a free hand, sometimes in floral and sometimes in futuristic effects. So far their mission has been confined to sports wear.

CRIPPLE SAVES FROM DROWNING

ROCHESTER, N. Y., July 28.—Five boys, three of whom responded to the rescue call of the others, were saved from drowning when bathing yesterday in Irondequoit bay by Douglas Stoffel, who despite a crippled right arm, pulled the kids to safety with a landing net.

Stoffel made the line of the net fast to a tree and single handed pulled the youths from the water. Two were unconscious.

Stoffel was injured when as an employee of the New York Central railroad he was shot in an attempt to frustrate a wholesale burglary of freight cars.

HOW BRITAIN MAY
HELP U. S.

WASHINGTON, July 28.—Administration officials yesterday outlined the scope of the American proposition made to Great Britain with respect to the alleged activities of British ships in connection with smuggling of liquor into the United States. The atmosphere was clarified. It was stated, in order that the American people may understand the precise nature of the proposals.

The proposals are divided into two phases. One deals with the practice of certain British merchants in providing themselves with two sets of clearance papers. The other deals with the suggested agreement permitting the search of British ships outside the three-mile limit, Britain to have the same privilege with regard to American ships.

With regard to the first proposal, the opinion was expressed that the proper domestic supervision of port records would be sufficient to check the practice of carrying double sets of clearance papers. Under this practice a vessel will carry one set of clearance papers showing it is transporting a cargo of rum from Bermuda to Halifax. If an American "dry" or customs agent boards this vessel, he would find the papers in proper order. However, if later the skipper got rid of the liquor to American smugglers he could put into an American port and show a brand new set of papers demonstrating his vessel was traveling in ballast looking for cargo. It is believed it would be an easy matter for British port authorities to stop this practice.

Up to date no steps have been taken looking to a similar arrangement with France and Holland. The result of the discussions with Great Britain doubtless will furnish a guide for negotiations with other powers whose vessels may have participated in the rum-running game off our coasts.

CREPE PROCK
The washable silk crepe frock is solving the summer dress problem of many women. As the season advances the suit is seldom seen, except the light silk ones which are really worn as costumes.

HEYDLER DISALLOWS BROOKLYN PROTESTS

NEW YORK, July 28.—President John A. Heydler of the National League yesterday disallowed the protests of the Brooklyn club over umpires' decisions which it claimed were faulty and resulted in losses of the games played against New York, July 4, and St. Louis, July 10. The games will not be replayed.

The Brooklyn contention in both cases was based on a rule that has been a storm center of controversy in baseball almost since its institution—the obstruction of a base by a fielder waiting to tag a runner. Whether there actually is obstruction is a matter of the umpire's judgment, which is never reversed.

"The decision to be made by the umpires under this rule are usually the most important of the game," said President Heydler in his decision, "but they are decisions based solely on the umpire's judgment as to whether the runner beats the ball, and because of this fact are not subject to appeal or reversal."

As far back as 1876, Mr. Heydler re-

calls in his decision, the original playing rules provided that obstruction of the objective base entitled the runner to it, but a few years later, he adds, "Henry Chadwick, the father of baseball, commented: 'This rule has practically been a dead letter hitherto, owing to the difficulty umpires have encountered in deciding what was obstruction under the fair meaning of the rule.'"

"These protests have to do with the unpopular practice of blocking off runners at the plate. A play that has always been the cause of dispute, ill-feeling among, and serious injury to players, but against which no practical rule remedy has been found."

The rule adopted in 1876, Mr. Heydler adds, entitled the runner to advance, "if he be prevented from making a base by the obstruction of an adversary, unless the latter be a fielder having the ball in his hand ready to meet the base runner," and, except for verbal changes, it is the same now.

"In the meantime," remarks President Heydler, "we have had the introduction of shin guards, making conditions worse by protecting the catcher at the increased risk of injury to the runner."

WORCESTER BACK IN EASTERN LEAGUE

NEW HAVEN, Conn., July 28.—Worcester will be back in the Eastern League within a few days, as a result of the purchase of the Pitchburg franchise by Albert H. Powell, prominent business man of this city. John McMahon, part owner of the club, will be replaced as manager of the team. Mr. Powell said last night in confirming the reports of the deal.

Two or three men are being considered for the management. Worcester would soon be represented on the field by a first class aggregation. Mr. Powell also is a stockholder in the New Haven Eastern league club.

REUTHER'S PITCHING IS BEST IN HIS LEAGUE

Through the first half of the season the sensational work of Pitcher Dutch Reuther has featured the play of the Brooklyn Nationals.

The veteran pitcher is staging a most remarkable comeback. He is easily the most effective pitcher in the National League today.

When the Brooklyn club was in a

DUTCH REUTHER

slump, and all the pitchers were faltering, Reuther continued his winning ways. His ability to win when the rest of the staff was in trouble kept up the morale of the Dodgers during the early stages of the race.

Judging by the way he is going at present, Reuther has an excellent chance to win 25 ball games. Any pitcher who can turn in that many victories is entitled to much consideration when selecting the most valuable player in the majors.

NEWARK, N. J. SANDLOT-
TER BEATS SHOCKER

Adolph Rettig, the latest pitching sensation in big league baseball, was imported fresh from the sandlots of Newark by Connie Mack.

Adolph got his baptism of fire in the opening game of the recent series

ADOLPH RETTIG

between the Philadelphia Athletics and the St. Louis Browns. He was opposed by Urban Shocker, the American League phenom of the season. Philadelphia won, George Sisler and Kon Williams, the Browns' heaviest hitters and homerun stars, got only a hit apiece against Mack's find.

Fans and experts who saw Rettig's first performance in the big league say he looks like the "real stuff" and predict a future for him.

BANCROFT FIELDS BALL HE HIT TO OUTFIELD

Dave Bancroft, brilliant shortstop of the New York Giants, is rated as a smart ball player.

Hughes Jennings, now acting as assistant to John McGraw in directing the Giants, said that Bancroft is the brains of the New York club.

Only recently in a game in the National League, Bancroft pulled a play that might have given him big rating in the list of "boners," but not the umpire came to his rescue.

With a runner on third base, Bancroft lifted a fly ball to the outfield. It was a hard-hit ball and the fielder was compelled to go deep to make the play.

As happened that the runner on third was a very fast base runner and the fielder making the catch had a rather poor throwing arm. These two things tended to save the day for Bancroft.

The runner on third held his base until the fly ball was caught. The moment he struck the hands of the fielder he dashed for the plate.

The fielder with the weak arm realizing that he was too deep to have any chance of cutting the runner down at the plate, returned the ball leisurely to the infield.

Bancroft, playing proper baseball, had run out his hit to the limit and was between first and second when the relay came back into the infield.

Bancroft couldn't resist the temptation to field the ball and toss it to some other player of the team in the field.

The team in the field contended that in fielding the ball, Bancroft had killed a chance for a play at the plate, and for such interference the runner who had scored should be declared out.

The umpire at the plate, however, ruled that the run had crossed the plate before Bancroft even touched the ball, and that the act of the New York shortstop in no way prevented a play, since there was no play possible in a close call for the brainy Bancroft.

WILL DISCUSS JUNIOR HIGH SYSTEM

A special meeting, for the purpose of discussing the Junior high school system for Centralville, will be held at 7:30 o'clock next Tuesday evening in the assembly hall of the Greenhalge school.

The Improvement Association of the district, headed by President Thomas F. Darvey, together with a number of other interested persons, will attend and voice their approval of the movement. It is also expected that the members of the school board will be present.

It will pay you to get The Sun classified adv. habit.

HUGGINS SAYS 92 WINS WILL COP

BY RILEY EVANS

Mittler Huggins says 92 games will win the pennant in the American League this year.

Last season Huggins, who knows his baseball, said that 95 games would be enough to win.

"I figure," he said, "that the Yankees won 95 and lost 65 for a percentage of .64 in 1921. The Yankees won the pennant."

This year Huggins says that 92 games will be enough to win. When asked for an explanation of why he figured less games would win this year than last, he simply replied:

"This is a different kind of a race."

The opinion of Manager Huggins bears out the statement I made in a recent article, that this was a season made to order for a dark horse to slip in and win the pennant, unless the New York club soon hit its stride.

At the opening of the season the Yankees were generally picked to win. The New York club with its great pitching staff, and hard hitters, certainly looked up as the class of the league.

Things have not broken for the Yankees as it had been hoped. The club is not out in front by a goodly margin as the experts felt certain it would.

The American League race has developed into a free-for-all, in which at least six clubs must get considerable mileage before the Yankees appear to be the only club that haven't a good chance.

It certainly looks as if the New York club should win 92 games. The great pitching staff of the Yankees seems to have hit its stride. If the sluggers start whaling the ball, the Yankees will prove most troublesome.

Will 92 games win the American League pennant?

The National League has been in existence since 1876. During that time only one club has won a pennant with 92 games on the right side of the ledger.

This was in 1915 when the Phillies came through with a percentage of .62.

The American League has been doing business since 1900 and in those 21 years three clubs have won a pennant with a slightly smaller percentage than Huggins figures to win in 1922.

The clubs are evenly balanced in the American League this year. Every game is a battle. There are no soft spots. That is why 92 games won may cop the pennant. That is why a majority of the clubs have a look in.

The term pennant, Manager Huggins best explains the situation in the American League:

"This is a different kind of a race."

Leonard Retains Title

Continued

ler was fooled. He stepped back, away, turning from his antagonist, Leonard, and began dancing around. Tender, right and left to head and body, sent Tender hurtling to the ropes. Tender fought back, but the going stopped there.

They both missed often in the last two rounds, but Leonard's sharp shooting right was the more accurate. Tender tried for finishing blows and thought short uppercuts from each hit their marks, they lacked power.

Tender, always a body crusher, employed a style unexpected of him. Perhaps it was strategy. Anyway his attack was diversified, especially after he had been warned repeatedly for striking dangerously near the foul line.

Leonard's big failure was in his legs. Not until near the finish did he brace about, as he went striking and darting away. Tender would not let this than Tender could pound his body, for the challenger was crowding him—almost stepping upon him, forcing the fight.

And Leonard, reputed right cross was only partially effective. Not often in Benny Leonard had put. Occasions have been rare when a fighter in the midst of battle, has said to him: "Come on and fight." Tender said it repeatedly. Leonard says he is at the height of his career. Tender, frankly admits that he'll grow into a better fighter.

\$450,000 Taken In

After the fight announced today that the receipts from the Leonard-Tender fight were about \$450,000, fight fans figured Leonard's share which was 25 per cent of the gross, estimated that he would receive about \$112,500, while Tender would receive about \$112,500 on a basis of 25 per cent. Rickard's expenses for the fight were reckoned at \$15,000 aside from the fighter's share and his profits was declared to be \$15,000.

Fight by Rounds

The fight between the Leonard-Tender fight by rounds.

ROUND ONE

The ball rang at 9:28. Tender was short with two rights and then landed a light left. They fell into a clinch and began dancing around. Tender landed a left hook to the chest and followed with a light left to the body. Tender landed another left and then two sharp rights to the body. Tender was rushing the champion. Tender slipped and fell and standing up slowly wiped off the dirt from his gloves. Tender landed a hard left to the

champion's head, cutting his right eye. Tender was warned for hitting in a clinch. They were sparring at the ball and when he sat down Leonard said the cut was a foul. Tender held Leonard a towel to his eye to stop the bleeding.

ROUND TWO

Tender missed two rights and rushed the champion into a corner. Leonard landed a hard right to the jaw. Leonard missed a right and left. Tender had the better of a clinch. Tender landed a hard left and followed with a short uppercut. Tender landed a short left. Leonard countered with a right to the body and followed with two short uppercuts. Tender continued landing and had the champion covering his face with both hands.

Tender landed hard rights and lefts to the head and then three more lefts to the jaw. Blood was trickling from Leonard's eyebrow.

ROUND THREE

Tender again jumped into the lead, missing a wide left. They clinched. Tender again was warned for hitting in a clinch. Leonard complained of Tender's low hitting. Tender replied with a left swing to the jaw. Tender smiled. Tender had the better of a body exchange and landed two rights to the jaw. There was another exchange at close quarters. Tender missed with his left. Tender told the champion "Come in and fight." Tender rushed Leonard to his corner at the bell.

ROUND FOUR

Tender lapped lightly to the ribs. They exchanged at close range. Tender landed a left to the body. Leonard countered with a hard right-cross to the jaw. The champion landed short uppercuts followed with a cluster of hard uppercuts to the body. Leonard spat blood. Leonard missed with right and slipped to his knees. Tender walked away. Tender kept punching away with his left. Leonard landed hard rights to the body. Tender sank his left in the champion's stomach. Benny took two right hooks to the jaw. Tender was pounding his right to Leonard's jaw at the bell.

ROUND FIVE

At this point newspapermen agreed that Tender was far in the lead. Leonard was short with a right and then plunged heavily into Tender's body, crossing his left to the jaw and hooking his right. Leonard outfought Tender to the jaw. Tender was pounding his right to Leonard's stomach. He added another. Tender landed rights and lefts to the midsection. Tender kept dropping his left all over the champion. He missed a long left uppercut. Leonard's best showing was in this round.

ROUND SIX

Tender's right went to the stomach. Leonard rocked Tender with a left. He added a right and left to the jaw. Tender missed with a left. Tender began to cut away and clinch. Leonard landed two hard rights to the jaw. Tender was warned again for hitting low. The champion splashed two more rights to the jaw. Leonard began jabbing away with his left and crossing with his right. Tender landed three hard lefts to the head. The arena was in an uproar. Leonard shot a volley of rights and lefts to the body and then two sharp uppercuts to the jaw. Tender's lips were bleeding and gas was on his chest when the bell rang.

ROUND SEVEN

Leonard predicted before the fight that he would win in this round. Tender hooked two lefts to the head. Leonard landed the better of the exchange. Tender jabbed rights to the body and hooked lefts to the head. Leonard sent two long rights to the jaw. Leonard accused Tender of hitting low. Leonard spat on a towel. Tender sent lefts to the head. They fought at close range and clinched. Leonard uppercut to the jaw and crossed a left to the body. Leonard hooked a right to the jaw. He repeated. Leonard was coming back strongly.

ROUND EIGHT

Tender jabbed with his right and

crossed with his left. He landed two lefts to the jaw in a clinch. Both swung at long range. Leonard sent two hard rights to the body. Tender hooked three hard rights to the head. The champion reeling with lefts and rights. The champion swung at the jaw. Tender smiled at the champion and took a hard left uppercut to the jaw. Tender pounded his left to the body and when the bell rang, Tender asked "How about it?" "That was nice work," replied Leonard.

ROUND NINE

Tender hooked his left to the jaw and body. Leonard landed a hard right to the jaw. They kept up an animated conversation. Leonard landed a hard left to the body and hooked a right to the jaw. He landed another left. Leonard missed a long uppercut and then sent a hard left to the jaw. Tender rocked the champion with a left to the chin. Leonard danced away grinning. Leonard sent a hard right to the body. Leonard uppercut sharply to the jaw with a right. Tender had the advantage of inflicting at the bell.

ROUND TEN

They clinched. Tender missed a right. Leonard hooked two rights to the body. He sent another and followed with a right to the jaw. He sent two short uppercuts to the jaw. Leonard jabbed lightly and then sent both fists to the face. Leonard kept landing and landing with his right. Leonard sent two short uppercuts and rushed Tender to the ropes. Tender fought back and sent three left hooks to the jaw. Tender backed away. Leonard landed like a cat, smashing two rights to the jaw and sending the challenger to the ropes. Tender fought back.

ROUND ELEVEN

They jabbed away at long range. Leonard was short with two uppercuts. They clinched. Leonard began his dancing tactics. He landed two right hooks, a short right uppercut and a left to the jaw. They exchanged blows close together. Tender sent series of lefts to the head. Leonard landed a terrible short uppercut and rushed bringing blood from Tender's mouth. They fought furiously at close range. Tender missed with his right. Leonard jabbed with lefts and sent a left to the jaw, rushing Tender to a neutral corner. Leonard seemed to be getting stronger.

ROUND TWELVE

Leonard marked a right to the stomach. Tender rushed in, landing lefts to the jaw. He swung a hard left to the jaw and right to the head. Leonard landed the better of the exchange. Leonard had the better of a vicious exchange close quarters. They danced around. Leonard landed short rights to the jaw, sent both hands to the body and rushed with lefts and right uppercuts. Leonard landed a right uppercut and hooked two glancing rights to the jaw. Leonard sent two hard rights to the jaw. Leonard and uppercut with right and lefts. They were fighting hard at the ring.

THE OLD HOME TOWN

SAYS RENTS ARE FALLING

Commission on Necessaries
of Life Gives Out Compre-
hensive Statement

Housing Construction
Throughout State is Rapid-
ly Increasing, Report Says

(Special to The Sun)
BOSTON, July 28.—The commission on the necessities of life today brings joy to thousands of families in Massachusetts through the issuing of a statement in which it is stated that rents are falling and that they will take even a greater tumble in the near future. Housing construction which is rapidly increasing, home ownership in an effort to escape excessive rentals and the stopping of real estate speculation are signs of better housing conditions, says the report.

The commission says in this report that in 1921 in the 200 building permits for dwellings were issued, as against 240 in 1920, while for the first four months of this year, 115 permits were allowed, affecting 144 families.

The report bears the signature of Eugene C. Hultman, chairman of the commission.

GOMPERS CONFIDENT OF EARLY SETTLEMENT

NEW YORK, July 28.—(By the Associated Press)—"A man of straw," "a fictitious personage without official standing in labor circles," President Harding the message which last night drew a long reply from the White House reiterating the government's position on the rail and coal strikes, was the belief expressed here yesterday by Samuel Gompers, president of the American Federation of Labor.

Mr. Gompers expressed surprise that the administration should have shown such concern over the J. C. Dean message as to have replied to it, especially since the labor leader asserted, the White House apparently was "all in the dark" as to the identity of the sender or his capacity in official circles of organized labor.

"The White House called me Wednesday, asking if I knew this man," said Mr. Gompers. "I told him I did not and had no record of him as an official of American labor."

"I am positive of one thing, and that is that the author of the message to President Harding is not chairman of the railway employees public utility association."

"Mr. Gompers expressed regret that he was unable to remain in Washington yesterday while the expected conference of R. M. Jewell with President Harding and other federal representatives was in progress."

Mr. Gompers expressed surprise that the administration should have shown such concern over the J. C. Dean message as to have replied to it, especially since the labor leader asserted, the White House apparently was "all in the dark" as to the identity of the sender or his capacity in official circles of organized labor.

"The White House called me Wednesday, asking if I knew this man," said Mr. Gompers. "I told him I did not and had no record of him as an official of American labor."

"I am positive of one thing, and that is that the author of the message to President Harding is not chairman of the railway employees public utility association."

"Mr. Gompers expressed regret that he was unable to remain in Washington yesterday while the expected conference of R. M. Jewell with President Harding and other federal representatives was in progress."

IS NOT MEMBER OF LISBON CLUB

Representatives of the Lisbon club today denied that John Silva, who was in charge of assault and battery upon a young woman, is, or was, a member of that organization.

"He has no affiliation whatsoever with our club," the representative stated.

FOUR LOWELL DRIVERS LOSE LICENSES

(Special to The Sun)
BOSTON, July 28.—The registrar of motor vehicles has suspended the right of Mathias J. Mecolopoulos of 174 Adams street, Lowell, to operate motor vehicles in this state, as he was convicted of operating a motor vehicle so as to endanger the lives of the public and was fined \$20 in the Lowell court.

Herbert S. Gruber of 37 Corbett street, Lowell, on May 26 in West Brookfield, is alleged to have operated a motor vehicle in an improper manner. His license to operate has been suspended.

The fig. William Taft of 90 Crawford street, Lowell, to operate motor vehicles also has been suspended. He was convicted of operating a motor vehicle while under the influence of liquor, was fined \$100 and sentenced to 60 days in jail.

Max Jacob Cohen of 305 Broadway, operated a motor vehicle in an improper manner. His license to operate has been suspended.

DEATHS

CALEF.—Mrs. Louisa J. Calef, widow of Andrew J. Calef, died at the home of her daughter, Mrs. W. P. Duffy, in Franklin, N. H., Wednesday afternoon, aged 74 years. Mrs. Calef who for a great many years resided in this city, was born in China, Me., Feb. 19, 1848, removing with her family to Lowell as a girl. She married Andrew J. Calef, a prominent builder and contractor of this city, and from that time until about 1900 made her home in First street. She was a prominent member of the Kirk Street Congregational church and was an original member of the Middlesex Women's club. She is survived by two daughters, Mrs. Fred H. Lovern, (Charlotte L.) of Tilton, N. H., and Mrs. W. Frederick Dwyer, (Emma May) of Franklin. Another daughter, Sarah, (Mrs. Harry A. Keep), died in 1910. There is also surviving one grandchild, Louis C. Lovern.

GILMAN.—Charles A. Gilman, a well known resident of this city, died yesterday at the Lowell General hospital, at the age of 68 years. His home was at 53 C street. He is survived by two daughters, Mrs. Joseph R. Gilman and Mrs. A. L. D. Gustafson; one son, Fred H. Gilman; a sister, Miss Helen Gilman, and a brother, William Gilman, both of Buffalo, N. Y. He was for many years employed in the Saco-Lowell shops. The body was removed to Saunders' funeral home, 217 Appleton street.

HYDE.—Mrs. Addie P. Hyde, aged 68 years, a resident of Somersworth, N. H., died last evening at the home of her sister, Mrs. Dolly M. Heath, 11 North street, this city, after a brief illness. She is survived by her husband, Edwin E. Hyde of this city; one son, Wesley H. Hyde of Northbury, Conn.; three daughters, Mrs. Dolly M. Heath, Mrs. D. M. Heath, and Mrs. Emma J. Simpson of Pelham, N. H.; three brothers, George and Frank Manser of Newburyport, and Fred D. Hyde of this city; also a granddaughter, Frances Hyde of Northbury, Conn. Mrs. Hyde was a member of the Somersworth Methodist church. Burial will be in the G. A. R. Pythian sisters' cemetery, and the Ladies auxiliary of the Brotherhood of Railroad Trainmen will have charge of the funeral.

THOMAS.—Mrs. Irene, aged 1 year and 10 months, infant daughter of Merle and Ada (Leclair) Tremblay, died this morning at the home of her parents, 11 Parker street.

FUNERALS

LAZARAKIS.—The funeral of Athena Lazarakis took place yesterday afternoon from the home of her parents, 181 Thirteenth street. Services were conducted by the Holy Trinity church, Rev. Nestor Souleides. Burial took place in Westlawn cemetery. Arrangements were in charge of Funeral Director Joseph Albert.

NOBERG.—The funeral of Arthur Noberg, son of Mrs. Joseph Noberg, took place yesterday afternoon from the home of his parents, 88 Peoria street. A liberal was read in St. Anthony's church by John B. Perry. Burial took place in St. Patrick's cemetery. Arrangements were in charge of Funeral Director Joseph Albert.

LEW.—The funeral of William A. Lew took place from his home, 53 M. Hope street, yesterday afternoon. Services were conducted by Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church. There were numerous floral tributes. The bearers were Harry H. Gerald, N. John H. and Arthur H. Lew, William W. Hazlett and W. O. Reddick. Burial was in Woodbine cemetery off Varnum avenue, where the committal prayers were read by Rev. Mr. Lyon. The arrangements were in charge of Funeral Director John A. Weinbeck.

FUNERAL NOTICE

SOUTH.—Died July 27, by accident, Fred A. Smith, Jr., aged 9 years 11 months and 21 days. Funeral services will be held at the home of his parents, Mr. and Mrs. Fred A. Smith, Central park, Hillier's Centre, Sunday afternoon at 2:30 o'clock. Friends are invited without further notice. Burial private. The funeral arrangements are in charge of Undertaker George W. Healey.

GILMAN.—Died in this city July 27, at the Lowell General hospital, Charles A. Gilman, aged 68 years. Funeral services will be held at his home, 53 C street, on Sunday afternoon at 2 o'clock. Friends are respectfully invited. The funeral arrangements are in charge of Undertaker William H. Saunders.

KAUFMAN.—Died in Olean, N. C., July 24, at the United States Veterans hospital, No. 60, Thomas P. Kauffman. Funeral will take place Saturday morning from his late home, 10 Cedar street court, at 9 o'clock. At St. Peter's church at 9 o'clock a funeral high mass will be celebrated. Burial will be in the family lot in St. Patrick's cemetery. Funeral arrangements in charge of Undertaker O'Connell & Fay.

TO DISBAR PELLETIER IN U. S. SUPREME COURT

BOSTON, July 28.—Steps seeking the disbarment of Joseph C. Pelletier from practice in the United States supreme court were taken today by Robert O. Harris, federal district attorney. Mr. Harris prepared to forward to Attorney General Daugherty the records in the recent disbarment of Pelletier from the United States district court with the recommendation that Mr. Daugherty ask the supreme court to issue a disbarment decree.

NARROWLY ESCAPED LIGHTNING BOLT

NEW YORK, July 28.—A minute after the men of the dog watch assigned to duty in the crow's nest of the Belgian steamer Sam Land climbed down from their perch today, lightning struck the foremast, crashing it to the deck. The officers reported on arriving here.

Men of the next watch were waiting to ascend when the lightning struck and no one was injured. At the time the ship was in the midst of a storm off Ambrose channel light.

B. & M. BONDS OVERSUBSCRIBED
NEW YORK, July 28.—Dillon, Read & Co. today announced that the public offering of \$1,815,000 of Boston & Maine B. & M. 5 1/2 per cent equipment sold certificates had been oversubscribed. The bonds, which were due in 15 annual installments of \$121,000 each, were sold at prices to net from 6 to 5.50 per cent, according to maturity.

COX APPEALS TO HOOVER

Urges Federal Authority Be
Used to Prevent Repetition
of Coal Speculation

BOSTON, July 28.—Gov. Cox today suggested to Secretary of Commerce Hoover that federal authority be used to prevent a repetition of the speculation among coal brokers that occurred in 1920.

The governor in a letter to the secretary, said he had been advised that resales of coal within the state "accentuated the apparent shortage in 1920." He suggested that total commissions and brokerage between the original sale at the mine and to the retailer or consumer be fixed by the government.

"In 1920," the governor's letter said, "Massachusetts experienced great difficulty in controlling the price of coal to consumers on account of the active speculation and brokerage between the brokers, located in many cases outside the commonwealth, speculated in bills of lading so rapidly that in some instances, coal was purchased and sold some eight or nine times before reaching us."

"The increase in price in each transaction was small but the total increase in price resulting between the original shipper and the receiver, here was large. Again, the artificial high price thus created for a portion of our fuel supply was used as an excuse to justify unreasonably high prices in this state."

It will pay you to get The Sun classified adv. habit.

DENIES TROTTER FATHER OF CHILD

GRAND RAPIDS, Mich., July 28.—Testifying as a defense witness in the separate maintenance suit brought by Mrs. Lottie M. Trotter against her husband, Melvin B. Trotter, prominent evangelist, Miss Florence Moody, his former secretary, denied on the witness stand today that the evangelist was the father of a child born to her in 1917.

Miss Moody also denied there ever had been anything improper in her relations with Rev. Mr. Trotter.

The charge that the evangelist was the father of Miss Moody's child, was made by Mrs. Trotter in filing her suit, and also reiterated in her testimony last week. Mrs. Trotter asserted her husband and Miss Moody had confessed the parentage to her.

She testified she had confessed her condition to Mrs. Trotter on July 13, 1917, but asserted she refused to say who was responsible for it.

CLOSER BANKER RELATIONS

NEW YORK, July 28.—A committee on Canadian relations has been appointed by President Thomas B. McAdams of the American Bankers' association after a visit to the administrative committee of that organization to Montreal. Conferences were held with the Canadian Bankers' association seeking closer co-operation between bankers in the United States and the dominion.

REQUIEM MASSES

O'NEILL.—There will be a month's mind mass celebrated at St. Michael's church Saturday morning at 9 o'clock for the repose of the soul of Mary A. O'Neill.

SOLICITING FUNDS FOR ATHLETIC FIELD

The committees in charge of the drive being conducted by the Lowell high school alumni are still busy forming teams from the various classes of graduates, who will act as solicitors. This work is necessarily slow, as many of the graduates are on vacations and cannot be reached. The work is progressing, however, and 30 teams representing as many classes, have been formed to date.

At headquarters in the chamber of commerce rooms, the secretaries are busy mailing a circular letter and pledge card to everyone whose name appears on the list of graduates. The work is being pushed rapidly so that the drive may be completed in a short time. It is the hope of the committee that the field may be completed by the early fall so that the approaching football games could be played there.

At present, the list of subscribers to date is being tabulated and the chairman expects to be able to release the first report early next week. In the meantime the work of solicitation is going on quietly and good results are being attained each day. The drive has attracted the attention of many graduates, who are now living elsewhere, and they are sending their subscriptions by mail.

At present, the list of subscribers to date is being tabulated and the chairman expects to be able to release the first report early next week. In the meantime the work of solicitation is going on quietly and good results are being attained each day. O. B. U. OFFICIALS IGNORE COURT INJUNCTION

LAWRENCE, July 28.—Officials of the Lawrence general workers' unit, of the One Big union announced last night that they would disregard the temporary injunction granted by Judge Waite of the superior court in Boston yesterday restraining members of the union from "threatening, intimidating or annoying" workers at the Pacific mills here, and from "congregating about the mills for the purpose of intimidation."

Ben Legare, head of the One Big union organization here is in New York and members of the unit said they would "pay no attention" to the injunction.

At a One Big union meeting held on the common late yesterday, S. M. Bramhall, a carpenter, who was one of the leaders in the 1912 strike here, declared the workers "would never get a square deal until the red flag rises over the stars and stripes."

"I don't care a rat for the law," Bramhall said. "The reason you don't win the strike is because in spirit 1912 is lacking. You should all come together and overthrow the class that is exploiting you. Until you do, your fellow workers will never get a square deal. Sing the international, the greatest song on earth. Strikes are small revolutions in themselves, and they are fast leading up to the great revolution which means the overthrow of the capitalist class. Let the red flag wave around the world."

SUSTAINS DEMURRER OF J. V. DITEMORE

BOSTON, July 28.—Judge Crosby of the supreme court today sustained the demurrer of John V. Dittmore to the bill in equity brought by Edward A. Krauthoff in which the court was asked to declare the invalidity of Mrs. Mary Baker Eddy to be the governing power of the First Church of Christ, Scientist, and that her deed of September, 1922, created a perpetual board of directors. Counsel for Dittmore claimed in the demurrer that the Krauthoff bill had no standing in court and that it was an attempt to interfere with the will of Mr. Dittmore to be recognized as a director of the Christian Science church, now being heard by Judge Frederick Dodge as master.

OBREGON PASSES ORIGIN

MEXICO CITY, July 28.—President Obregon has now safely passed the crisis in his illness, which for a time caused his attending physicians to entertain grave fears for his life.

Quartet Indicted For First Degree Murder

NEW YORK, July 28.—Mrs. Minnie Reiser, her sons, Morris and George, and her brother, Max Katz, were indicted today for first degree murder in connection with the slaying of Mrs. Reiser's sister, Bertha Katz, whom Mrs. Reiser accused of stealing the love of her husband, "John The Barber" Reiser, sport promoter. Arraigned before County Judge McMahon the quartet entered pleas of not guilty and were remanded to Raymond street jail to await trial.

Women Opposed to Woman in Congress

NEW BEDFORD, July 28.—Even the women of the 16th district are opposed to a woman in congress, Miss Lillian F. Darcy, for five years secretary to Congressman Joseph Walsh, asserted this morning in declining to be a candidate at the republican primaries as his successor. Miss Darcy assigned this prejudice as sole reason for her refusal. Her district being anti-suffrage Miss Darcy explains that she is not surprised. But she adds defiantly after summing up the qualities that a congressman should have: "Man is not alone, however, in these characteristics."

Praying in Public Upheld

PORTLAND, Ore., July 28.—Praying in public is not an offense against the civil service, the commission ruled today in reinstating George Winters, veteran employee of the city park bureau, discharged several weeks ago because he persisted in praying aloud as a preliminary to opening his lunch pail.

SEND THIS IN

Lowell, Mass., 1922

TO THE LOWELL HIGH SCHOOL ALUMNI ASSOCIATION

I hereby subscribe.....dollars toward the purchase and equipment of the Athletic Field.

ADDRESS

Class of

Make checks payable to EDWARD W. TRULL, Treas.

WALTER E. GUYETTE, Auctioneer

Office, 53 Central St., Lowell, Mass. Telephone 2415.

The Cottage Property and about three acres of land, more or less, situated on the northerly side of Pine Street in North Billerica, is hereby pledged to the highest bona fide bidders at unrestricted Public Sale on next Saturday, July 29, 1922, at 3 o'clock in the afternoon.

The house is in bungalow style, has five extra good rooms on the one floor and is supplied with town water and hot water tank, cemented cellar, has open veranda and is in excellent repair inside and out. The building is comparatively new, having been constructed within the last two years.

The lot has a total area of about three acres and has a splendid street frontage. The land is level and is well laid out to garden.

The location is handy, the property being within about four minutes walk of the Billerica electric car line.

Pine street is on the right hand side of Gosham street, the last street approaching from Lowell to Sprague's bridge, going to the center of North Billerica and is a new development within a few years, about everybody owning their own home in the neighborhood and is handy to schools, churches, stores, etc.

The opportunity is herein presented to purchase it open competition a thoroughly modern village home within close proximity of Merrimack square and in a fast developing home locality.

Terms—\$300 must be deposited with the auctioneer just as soon as struck off. Other terms made known at sale.

By order of
LOWELL CO-OPERATIVE BANK, MORTGAGEE.
By Charles C. Drew, Treasurer.
